

<u>Application Name</u>	<u>Agency or Owner</u>	<u>Application Description</u>	<u>Service to Children</u>	<u>Is this Application Centralized or Distributed</u>	<u>Timeliness of data</u>	<u>Data Sensitivity Level</u>	<u>Importing or Exporting data with an outside Agency or Partner</u>	<u>If Yes, which Agencies or Partners</u>	<u>Comments</u>
Birth Defects Registry	FDOH	Maintain records of birth defects in Florida. Tracks the occurrence of birth defects through age one. It is a passive surveillance system	Indirectly	Centralized - one database	Other	L3.a Restricted due to HIPAA	Yes - Importing and Exporting	AHCA, University of South Florida, Univ of Florida, CDC	This system is maintained by UF.
Newborn Screening Program Application	FDOH	Is a web-based system used to maintain medical information from the state lab, providing listings of necessary follow-ups, including addresses and contact names. It facilitates the communication link between the State Lab, CMS, birthing centers, and hospitals.	Directly	Centralized - one database	Other	L3 Restricted/not to be disclosed	No		This system has been off-line since January 1, 2006 and the NSP is now a part of the State Lab system. The data must be kept available for reference.
Blood Lead Screening Registry	FDOH	The Blood Lead Screening Registry is a centralized-web-based registry that accepts lab results for childhood blood lead screenings from statewide labs. The results are then electronically uploaded to a CDC database called "Stellar".	Other	Centralized - one database	Other	L2 Limited/Sensitive	Yes - Exporting	CDC	Cache
Braces Client Tracking	FDOH	Children's Medical Services Braces Client Tracking System (St. Petersburg application)	Indirectly	Desktop/Calculated	Other	L3.a Restricted due to HIPAA	No		
Case Management Data System (CMS)	FDOH	This application is used for regular Medicaid batch billing and case and clinic management for Children's Medical Services. 22-24 copies.	Directly	Distributed - multiple data sources	Daily	L3.a Restricted due to HIPAA	No		
Child Abuse Death Review	FDOH	The database is utilized by the Statewide Child Abuse Death Review Committee for the collection of data concerning child deaths as a result of verified abuse and neglect. This data collected by the system is used to prepare the statutory mandated Annual Child Death Report which is provided to the Florida legislature.	Other	Centralized - one database	Other	L2 Limited/Sensitive	No		

Child Care Nutrition System	FDOH	Processes Child Nutrition Programs' contractor claims and payment records, maintains approved contractor application information. Is used to gather and store the data needed to generate vouchers for payment purposes.	Other	Centralized - one database	Daily	L2 Limited/Sensitive	Yes - Exporting	FLAIR	There are multiple internal data sources which are uploaded to the centralized database.
CMS Child Assessment & Plan_CAP	FDOH	Tracks care coordination activities and provides a central repository for client and care coordination data for children with special health care needs. CMS-CAP shares medical batch data FROM CMDS daily. This is a WEB based.	Directly	Centralized - one database	Daily	L3.a Restricted due to HIPAA	No		
CMS HQ Title 21 Enrollment Application Report System	FDOH	Receives Florida KidCare applicant referral information from the CMS HQ title XXI Enrollment and Fiscal System daily, makes it available to the local field office staff, and accepts input from the local field office staff. It then relays the office inputted information back to the CMS HQ title XXI Enrollment and Fiscal System.	Directly	Centralized - one database	Daily	L3 Restricted/not to be disclosed	Yes - Exporting	ACHA	System also generates invoicing information to be forwarded to Revenue Management for billing AHCA for the KidCare clients served by CMS.
CMS Provider Panel	FDOH	CMS Provider Panel. It is a look-up application to support field office. Provider management system to output a file of various speciality MD's.	Indirectly	Centralized - one database	Daily	L2 Limited/Sensitive	No		
CMS Minimum Data Set	FDOH	It is a web based storing info from health care providers, it is confidential. There is also a payments for services billed directly to, ie., Medicare. There is a part that is in Access, submitting client served data.	Indirectly	Centralized - one database	Real time	L2 Limited/Sensitive	Yes - Exporting	unsure	
CMSLookup	FDOH	Allows CMS contract program (Primary Care - Florida Panhandle Pediatric Foundation) to visually check the CMS enrollment status of Child. CMSLookup contains confidential and demographic data (including SSN) from the CMS Case Management Data System.	Indirectly	Centralized - one database	Daily	L3.a Restricted due to HIPAA	No	internal	

Community Health Assessment Resource Tools Set	FDOH	CHARTS Supports community health improvement projects and is a national model for web based community health data dissemination. FloridaCHARTS.com: the web site through which the general public, local health planners, researchers, Department of Health employees and others, access Florida's health indicator data at the community, county and statewide level.	Other	Centralized - one database	Other	L1 Published/low-sensitive	Yes - Importing	Florida Cancer Data System, and ACHA	
Cross Match Fingerprinting System	(FDLE)	Used for live fingerprinting scanning of Duval CHD employees, and CHD13.	Other	Other	Other	L2 Limited/Sensitive	No		Unsure if connected to FDLE, or otherwise part of the Jessica Lunsford Act
DDD Vital Statistics Search	DDD (Dissability Determination)	Searches the Florida Vital Statistics Death database. DDD Admin; supported by DDD; associated with SSA; shares death records data (mostly public information, except cause of death in some cases) with SSA via manual transfers, weekly;	Indirectly	Centralized - one database	Weekly	L2 Limited/Sensitive	No		Death data is looked up
Early Steps Program	FDOH	Formerly known as "EARLY INTERVENTION PROGRAM", EIP is a housed and administered under contract at the University of Florida. It is a FoxPro and ColdFusion based system. It tracks client and service data for the Early Steps program.	Directly	Centralized - one database	Other	L3 Restricted/not to be disclosed	No		UF
Early Steps Provider Panel	FDOH	This is an Access database developed by CMS staff. This application is used to track and administer the approval of Early Steps providers and it is administered by the Bureau of Early Steps in the CMS Network Division.	Indirectly	Desktop/Calculated	Other	L1 Published/low-sensitive	No		
FIMR Database	FDOH	The FIMR Database is a highly confidential database of fetal infant and mortality review data, running on MS ACCESS, that stores information of fetal and infant deaths in Florida. It is MCH-maintained.	Other	Desktop/Calculated	Other	L3.a Restricted due to HIPAA	No		

Florida State Health Online Tracking System (SHOTS)	FDOH	Is the immunization registry that has been developed in FDOH, Immunization as part of a national initiative. Immunization registries are centralized databases that meet specifications provided by CDC and are intended to perform functional requirements that will help meet the Healthy People 2010 goal of enrolling 95 percent of all children in a fully functional immunization registry by 2010.	Directly	Centralized - one database	Real time	L2 Limited/Sensitive	Yes - Importing and Exporting	Receives data from Providers and sends data to CDC	
Healthy Start Infant Screening	FDOH	As a component of Florida Certificate of Live Birth, this reporting function is based on screening information for infants. It produces statewide reports for Healthy Start Coalitions and county health department program management.	Indirectly	Centralized - one database	Other	L3.a Restricted due to HIPAA	No		
Healthy Start Reporting System	FDOH	Data from the Health Clinic Management System, Health Management System and Vital Statistics are used to produce statewide reports for Healthy Start Coalitions and county health department program management.	Indirectly	Centralized - one database	Other	L1 Published/low-sensitive	No		
HMS Health Management System	FDOH	The clinic management system for County Health Department operations including Client Registration, family-based eligibility determination, scheduling patient/clinic appointments, collecting services (billing-service collection-lab), billing (client and third party), integrated immunization service collection, case management, laboratory test collection & tracking and decision support locally and statewide reporting.	Directly	Distributed - multiple data sources	Real time	L3.a Restricted due to HIPAA	Yes - Importing and Exporting	AHCA	
HMS Statewide Reporting	FDOH	The CHD's operational reporting system-based on HMS minimum data sets. Facilitates direct service delivery, agency wide decision-support and monitoring and provides data to the contract management system.	Other	Centralized - one database	Other	L2 Limited/Sensitive	No		

Medical Quality Assurance Licensure System	FDOH	Is a web-based intranet designed for collecting and tracking Health Practitioner licensing, regulation, enforcement and profiling information. This system is no longer updated, it is used for reference. A new system NSPR "Results" is about to be finished. Maintained data from the state lab, providing listings of necessary follow-ups, including addresses and contact names. It facilitates the communication link between the State Lab, CMS, birthing centers, and hospitals. There are two major components: (1) Sickle Cell and (2) Metabolic (which includes the Rheumatic Fever Registry). This system has been off-line since January 1, 2006 the NSP is now a part of the State Lab system.	Other	Centralized - one database	Real time	L1 Published/low-sensitive	Yes - Exporting	ACHA	The system has an interface with FDLE for background checks.
Newborn Screening Program Application	FDOH		Other	Other	Other	L3.a Restricted due to HIPAA	No		
Patient Reporting Investigation Surveillance Manager (PRISM)	FDOH	PRISM is a surveillance and case management application used in Florida's 16 Sexual Transmitted Disease Program Areas.	Indirectly	Centralized - one database	Real time	L3.a Restricted due to HIPAA	Yes - Exporting	CDC	Parents are usually the patient/client, but there is some child related information.
Pregnancy Risk Assessment Monitoring System (PRAMS)	FDOH	The Pregnancy Risk Assessment and Monitoring System is a federally funded project (CDC)collecting data on new mothers around the state. It runs on a desktop with software provided by the CDC, at HSD.	Other	Desktop/Calculated	Other	L2 Limited/Sensitive	Yes - Exporting	CDC	
School Health Information Program (SHIP)	FDOH	Provides data management of the school health screening results, processes height and weight measurements to BMI% , creates parent letters of screening results, creates program reports. Each county maintains their own database at their CHD. There is no central data repository. Mandatory health screening to school age children	Indirectly	Centralized - one database	Other	L3.a Restricted due to HIPAA	No	although, sends reports to CDC	
Sexual Violence Registry Online	FDOH	Tracks incidents of Sexual Violence intended to provide collection of data about incidents and victims of sexual assault in order to support the development and operation of the Sexual Violence Prevention Program. It is wholly funded by a grant from the Center for Disease Control (CDC). The program provides Sexual Violence prevention/education services, public awareness, victim services funding, and data collection.	Other	Centralized - one database	Other	L2 Limited/Sensitive	No	although, sends reports to CDC	

Sudden Infant Death Syndrome	FDOH	The Sudden Infant Death Syndrome is an MCH-maintained, highly confidential database of sudden infant death syndrome data, that contains information on SIDS deaths in Florida.	Other	Desktop/Calculated	Other	L3.a Restricted due to HIPAA	No		
Vital Statistics System (eVitals)	FDOH	The Vital Statistics System manages information for births, deaths, marriages, and divorces	Other	Centralized - one database	Real time	L2 Limited/Sensitive	Yes - Exporting	from the VS Reporting System	There are privacy restrictions to some of the data.
Vital Statistics Reporting and Analysis System	FDOH	The Vital Statistics Reporting and Data Analysis System provides for a variety of automated extracts and reports. Data is available from 1970 to the present.	Other	Centralized - one database		L2 Limited/Sensitive	Yes - Exporting	'DOR/CSE, AWI, Dept of State, DCF, CDC and statistical publications	
WIC Data System (Women, Infants and Children)	FDOH	Special Supplemental Nutrition Program for Women, Infants, and Children USDA/Food and Nutrition Service. 'It is supported by DCF data center, using DB2 relational database version 6.0, Visual Age Generator, and CICS Transaction Server version 1.3. The system provides: client registration, appointment scheduling, medical/nutritional assessments, check issuance/reconciliation, vendor registration.	Directly	Centralized - one database	Real time	L2 Limited/Sensitive	Yes - Importing and Exporting	CDC, DCF, Capital City Bank (Immunization registry is internal)	
WIC Online Reports	FDOH	The WIC On-Line Reporting system provides web-based access for DOH managers at WIC HQ and in WIC local agencies to create and receive detailed WIC reports based on their specific criteria.	Other	Centralized - one database	Other	L2 Limited/Sensitive	No	Gets data on a monthly basis from the WIC mainframe system.	
Youth Risk Behavior Surveillance System	FDOH	Federally funded surveillance tool that is part of a national survey effort designed by the CDC to monitor priority health risk behaviors that contribute to the leading causes of death, disability and social problems among youth. It is a self-administered, school-based anonymous survey of Florida public high school students. It is conducted in the spring of odd-numbered years. Data are anonymous.	Other	Centralized - one database	Other	L1 Published/low-sensitive	No	although, sends reports to CDC	
Patient Data Tracking	AHCA/FCHIPA	Patient Data Tracking allows Fla Ctr users to track the patient data process, for both ambulatory and hospital data, from Initial Due to Clean Load Completed, for each facility that is stored in fraes_dm:Fla Ctr_rsd. It is written in ASP using an Informix database	Indirectly	Centralized	Quarterly	L3.a	No		This is patient encounter data for hospitals and am surg centers. Includes all patients but age can be derived.

FMMIS Medicaid System	AHCA/Medicaid	Maintains all Medicaid billing and utilization information. This system is maintained and supported by the Agency's contracted Fiscal Agency, EDS	Indirectly	Centralized	real time	L3.a	No		This data is managed by Electronic Data System (EDS) outside the Agency
Medicaid Prior Authorization for Durable Medical Equip. (DME)	AHCA/Medicaid	This system tracks the requests and approvals from vendors regarding durable medical equipment.	Indirectly	Centralized	real time	L3.a	No		Age is labeled as < or > 21
EAGLE	AHCA/Medicaid	This is the case tracking system for Medicaid Third Party Liability.	Indirectly	Centralized	real time	L3.a	No		Some small portion of these cases would regard children and youth. These cases would relate to either a Medicaid recipient who had filed a personal injury suit against a liable third party (see 409.910 Florida Statutes) or a deceased Medicaid recipient who had a Special Needs Trust (see Section 1917(d)(4)(A) of the Social Security Act). As far as identifying the age, only - I would estimate - about 60% of the cases have the Date of Birth field filled in.
Allocation, Budget& Contract Control System (ABC)	APD	Used to administer the Persons with Disabilities services throughout Florida. Includes data on individuals with developmental disabilities, including but not limited to, demographics, living situations, eligibility, cost plans, invoices and payments. This data is used for reporting utilization by consumers of Medicaid Waiver and General Revenue funds. In addition, the data provides alignment with the Medicaid Fiscal Agent and prepayment claims	Directly	Centralized - one database	Daily	L3.a Restricted due to HIPAA	Yes - Importing and Exporting	Exporting/Importing AHCA; Exporting to FLAIR	ABC Database is a DMSII hierachical database. Repository of all Medicaid Waiver and Waitlist consumer records. used to administer the Persons with Disabilities services throughout Florida.
ABC Operational Data Mart	APD	Data extracted from ABC to a SQL database	Directly	Centralized - one database	Weekly	L3.a Restricted due to HIPAA	Yes - Exporting	APS Care	Relational Database not normalized
Supported Employment Tracking System (SETS)	APD	Tracks clients utilizing the supported employment system	Other	Centralized - one database	Other	L3 Restricted/not to be disclosed	No		Tracks clients utilizing the supported employment services. Generally the school systems or Voc. Rehab. provides supported employment services to persons under 22 years unless they have graduated with a regular diploma
Waiver Enrollment Tracking System (WETS)	APD	Monitors the enrollment of individuals with developmental disabilities into the DD/HCBS or FSL Waiver Program when slots and/or funding becomes available	Directly	Centralized - one database	Other	L3.a Restricted due to HIPAA	No		Monitors the enrollment of individuals into the DD/HCBS or FSL Waiver Programs

Waitlist Management Systems (WLMS)	APD	Used to manage individuals with developmental disabilities waiting, because of funding shortages, to enroll into a Waiver Program (the waitlist was established and is still regulated in Chapter 393.063 F.S.	Directly	Centralized - one database	Other	L3 Restricted/not to be disclosed			Utilizes client demographic data from ABC system. One-way feed. Used to manage individuals waiting, because of funding shortages, to enroll into a Waiver program.
QSI Assessment Tool	APD	Gathers key information about a person that will describe his/her life situation for the purpose of planning supports over a 12 month period. These descriptions reflect a person's needs for assistance in key life roles and areas of daily activity	Directly	Centralized - one database	Other	L3.a Restricted due to HIPAA	No		Utilizes client demographic data from ABC system. One-way feed. Gathers key information about a person which is used to plan supports over a 12 month period.
Consumer Directed Care Plus (CDC+) System	APD	Supports the CDC+ program which reengineered the way Medicaid services are administered and delivered to eligible citizens. In the Consumer Directed Care Plus program, you hire your caregivers, set the work hours specific to your needs, and identify, hire, and supervise them. Caregivers may include neighbors, friends, and family members.	Directly	Centralized - one database	Real time	L3.a Restricted due to HIPAA	Yes - Exporting	AHCA	Information System used to support the the Consumer Directed Care Plus initiative to reengineer the way Medicaid services are administered and delivered to eligible citizens.
CDC+/FEA System	APD	Internet submission and processing of timesheets, invoices, and reimbursement information for CDC+ providers/vendors for payroll	Directly	Centralized - one database	Real time	L3.a Restricted due to HIPAA	Yes - Exporting	Mains'l Services, Inc	Information system used to collect timesheet, invoices, and reimbursement information via the web to process for payroll
Juvenile Justice Information System	DJJ	The Juvenile Justice Information System tracks youth in the custody and programs of the Department statewide. It contains information on the youth, family, charges, disposition, placement programs and various assessments.	Tracks services to youth while in DJJ Custody	Centralized	Real Time	Confidential	Yes - Exporting	System is available to CJNET, JIS, DJJ Providers, DCF Protective Service Investigators, Broward Sheriff's Office, FDLE Sex Abuse Data, Export to VINES system	System is currently available only to other Criminal Justice agencies.

Enhanced Field System	AWI - Early Learning Coalitions Early learning coalitions are considered quasi-governmental agencies, and all are incorporated as private, not-for-profit organizations.	Coalitions and their contractors use the Enhanced Field System (EFS) to manage the early learning programs including School Readiness, VPK, and CCR&R. The EFS is a distributed data system that is independently maintained at each coalition or contractor site where it is used. The system uses a client/server architecture where the EFS application residing on client system performs the bulk of the data processing and the data itself is stored in a database on the EFS server. The 31 early learning coalitions are supported by 34 geographically dispersed EFS systems.	Directly	Distributed - 31 databases	Real time	L2 Limited/Sensitive	No	N/A	Parents and children are the clients. The system has a limited interface to accept wait list clients. The school readiness program provides early learning services to children from birth to kindergarten who are economically disadvantaged, who are at risk of abuse or neglect, or who have special needs. In addition, the program provides services for school-age children (before and after school care for children between ages 5 and 13). The Voluntary Prekindergarten Program (VPK) provides free prekindergarten instruction to all four-year-olds in the State of Florida.
OSST (One Stop Service Tracking) System	AWI - Workforce Services	OSST is the automated application that supports the Welfare Transition and Food Stamp Employment and Training Federal programs.	Indirectly	Centralized - one database	Real time	L4 Critical/extremely sensitive	Yes - Importing and Exporting	DCF, JP Morgan, EFM	Allow for the fulfillment of training requirements and other relevant requirements allowing individuals to receive assistance via OSST ultimately allowing for reintroduction to the workforce.
Claims & Benefits System	AWI - Unemployment Compensation	Automated processing, monitoring and reporting of Unemployment Insurance claims, benefit payments and resulting employer chargeability in Florida.	Indirectly	Distributed - multiple data sources	Real time	L4 Critical/extremely sensitive	Yes - Importing and Exporting	DFS, Wachovia, DCF, DOH, DLE, DOC, ACS, USDOL, SSA, DOR, EFM	
Florida Safe Family Network	FDCF	Is a web-based intranet designed for collecting and tracking history and information of families in the Department's care. Is an in house system at the Department and Children and Families Florida Abuse Hotline designed to track information regarding calls not accepted as reports of abuse or neglect. Also, used by the Hotline for monitoring, quality assurance, supports the Crime Intelligence Unit submission of criminal history for background checks, data reports, and serves as the front end system for reports with an interface to the FloridaSafeFamiliesNetwork.	Directly	Centralized - one database	Other	L3.b Restricted due to Statue	No		The system has an interface with phoenIX for abuse or neglect reports, criminal background checks and call record history.
phoenIX	FDCF		Directly	Centralized - one database	Real time	L3.b Restricted due to Statue	Yes - Importing	DCF-FSN	phoenIX is constantly being updated to serve the needs of the Hotline and the vulnerable citizens of Florida.
Vital Stats	FDOH	Vital Statistics consists of official records for birth, death, fetal death, marriage, and dissolution of marriage (divorce).	Indirectly	Centralized - one database	Other	L2 Limited/Sensitive	No		This system is maintained by the Department of Health and is used by the Florida Abuse Hotline to search for persons.

National Crime Intelligence Center	Federal	The center is sponsored by the Bureau of Justice Assistance (BJA) for the purpose of providing a secure Web site developed to serve as a "one-stop shop" for local, state, tribal, and federal law enforcement to keep up with the latest developments in the field of criminal intelligence. This Web site contains information regarding law enforcement intelligence operations and practices. Criminal justice professionals now have a centralized resource information bank to access a multitude of criminal intelligence resources in a secure environment.	Indirectly	Centralized - one database	Other	L2 Limited/Sensitive	No		Multiple states are updating the database.	
Florida Crime Intelligence Center		FDLE	A web-based system to collect, maintain and provide criminal justice information in a complete and accurate manner as mandated by Florida Statute 943 for local, state, and federal agencies.	Indirectly	Centralized - one database	Other	L2 Limited/Sensitive	No		This system is maintained by the Department of Law Enforcement and is used by the Florida Abuse Hotline to search for criminal history for investigations and placements.
FDLE Sexual Predator web site		FDLE	This database contains public record information on offenders classified as sexual predators and sexual offenders under Florida law because of a conviction for a sex-related crime and/or a specified crime against children.	Indirectly	Distributed - multiple data sources	Other	L1 Published/low-sensitive	No		This system is maintained by the Department of Law Enforcement and is used by the Florida Abuse Hotline to search for criminal history for investigations and placements.
Juvenile Justice Information System		FDJJ	This database contains juvenile offender information.	Indirectly	Centralized - one database	Other	L2 Limited/Sensitive	No		This system is maintained by the Department of Juvenile Justice.
Department of Corrections offender website		FDOC	This database contains information on individuals within the state of Florida who have committed a crime and entered into the prison system.	Indirectly	Centralized - one database	Other	L1 Published/low-sensitive	No		This system is maintained by the Department of Corrections.
DAVID		FDOH	This database contains information on driver's license records for the state of Florida.	Indirectly	Centralized - one database	Other	L2 Limited/Sensitive	No		This system is maintained by the Department of Highway Safety and Motor Vehicles
			This database Collects and Stores Client and Case Information Manages Workload and Provide Administrative Support Prints Notices, Checks, Bills, and Legal Documents Automates Child Support Collections and Financial Management Interacts with Outside Agencies							
FLORIDA		FDCF		Directly	Centralized - one database	Other	L3 Restricted/not to be disclosed	Yes - Importing and Exporting	Department of Revenue	This system is maintained by the Department of Children and Families.
Caretaker Screening Information System	FDCF	A system of record database for all the background screening information entered by the regions' background screening coordinators.	Directly	Centralized - one database	Other	L3 Restricted/not to be disclosed	No		This system is used statewide by background screenings at the Department of Children and Families for the purpose of adoptions and foster care.	

Florida Safe Families Network	DCF	Contains records of child abuse investigations and children receiving on-going services as a result of abuse or neglect	Directly	Centralized - one database	Real time	L3.b Restricted due to Statue	Yes - Exporting	AHCA, DJJ, APD, AWI, CBC Lead Agencies, USF, local school boards, Auditor General, Attorney General, Sheriff's, DOH, FDLE	We provide direct access into the system and ad-hoc data extracts depending on the agency/partner needs.
Interstate Compact System	DCF	System maintaining information regarding status of interstate placement of children who have been removed from their homes due to abuse or neglect	Directly	Centralized - one database	Real time	L3.b Restricted due to Statue	Yes - Exporting	CBC Lead Agencies, Other ICPC states that have agreed to data exchange.	
Integrated Child Welfare Services Information System	DCF	Soon to be legacy system which is used for documenting child related expenditures such as room and board, adoption subsidies for children who have been removed from their homes due to abuse or neglect. Also maintains provider information regarding licensed foster homes and child placing agencies	Indirectly	Distributed - multiple data sources	Daily	L3.b Restricted due to Statue	Yes - Exporting	CBC Lead Agencies, FDLE, DOE	System soon to be subsumed by Florida Safe Families Network
Adoption Exchange System	DCF	Web-based application used for promoting children available for adoption to the general public	Directly	Centralized - one database	Other	L1 Published/low-sensitive	No		
Adoption Reunion Registry	DCF	System designed to allow adopted children and parents who have had natural children adopted to register for potential location of each other.	Directly	Centralized - one database	Other	L3.b Restricted due to Statue	No		
Child Death Review	DCF	Database detailing circumstances related to child death due to suspected abuse or neglect.- App is currently under development.	Indirectly	Centralized - one database	Other	L3.b Restricted due to Statue	No		New application with some characteristics of an older, now defunct system. Database is under development.
QA Data System	DCF	System with information regarding results from quality assurance reviews of child welfare protective investigations and ongoing service delivery.	Indirectly	Centralized - one database	Other	L3.b Restricted due to Statue	Yes - Importing and Exporting	CBC Lead Agencies	Some data elements are imported from Florida Safe Families Network
Batterer Intervention Program System	DCF	Collects and Stores Batterer Demographic Information, as well as Batterer Intervention Program and Assessor Certification information	Other	Centralized - one database	Other	L1 Published/low-sensitive	No		Some of the information gets posted on our website.
Child Care Information System - Child Care Licensing Application	DCF	Is a web-based and client-based application collecting and tracking child care licensing, regulation, enforcement and profiling information.	Other	Centralized - one database	Real time	L3.b Restricted due to Statue	Yes - Exporting	AWI, DOE, DOR, DOC and FDLE	AWI and DOE have login capability to generate data reports and maintain VPK provider profile module.

Child Care Information System - Child Care Training Application	DCF	Is a web-based application designed to: initiate and manage child care licensing training courses (on-line and classroom), issuance of child care credentials and management of the child care licensing training transcript.	Other	Centralized - one database	Real time	L3.b Restricted due to Statue	Yes - Exporting	AWI, DOE, The Children's Forum	DOE has login capability to initiate and manage DOE online courses and transcript.
ASIS (Adult Services Information System)	DCF/Adult Services	Web-based intranet application for the case management of clients in community service and protective services programs and community services wait lists	Other	Centralized - one database	Real time	L3.a Restricted due to HIPAA	No		
ARTT (Automated Referral Tracking Tool)	DOEA	Web-based application for the transmittal of referrals for services to the Aging Network as the result of Adult Protective Services investigations	Other	Centralized - one database	Real time	L3.a Restricted due to HIPAA	No		
FSFN	DCF/Adult Services	Web-based application for the management of Adult Protective Investigations	Other	Centralized - one database	Real time	L3 Restricted/not to be disclosed	No		This is a probably a redundant entry, as Family Safety will cover this system far more comprehensively.
FLORIDA / ACCESS Systems	DCF-ACCESS	unearned income (stocks, dividends, lump sums) information from IRS for active FLA individuals	Indirectly	Centralized - one database	Other	L4 Critical/extremely sensitive	Yes - Importing and Exporting	IRS	
FLORIDA / ACCESS Systems	DCF-ACCESS	Social Security, SSI(Supplemental Security Income), Social Security Number Validation (Numident), death file, number of qualifying quarters of work for noncitizens	Indirectly	Centralized - one database	Daily	L3 Restricted/not to be disclosed	Yes - Importing and Exporting	SSA	
FLORIDA / ACCESS Systems	DCF-ACCESS	Latest calendar year earnings from each source of employment	Indirectly	Centralized - one database	Other	L3 Restricted/not to be disclosed	Yes - Importing and Exporting	SSA	
FLORIDA / ACCESS Systems	DCF-ACCESS	prisoner name, SSN, potential release date on individuals	Indirectly	Centralized - one database	Weekly	L3 Restricted/not to be disclosed	Yes - Importing and Exporting	SSA	
FLORIDA / ACCESS Systems	DCF-ACCESS	Social Security Data	Indirectly	Centralized - one database	Other	L3 Restricted/not to be disclosed	Yes - Exporting	AHCA	
FLORIDA / ACCESS Systems	DCF-ACCESS	Verify client data: Medicaid Waiver Billing File	Indirectly	Centralized - one database	Other	L3 Restricted/not to be disclosed	Yes - Importing and Exporting	AHCA	
FLORIDA / ACCESS Systems	DCF-ACCESS	Medicaid Identification Card Intercept Records file	Indirectly	Centralized - one database	Daily	L3 Restricted/not to be disclosed	Yes - Exporting	AHCA	
FLORIDA / ACCESS Systems	DCF-ACCESS	Medicaid Eligibility Records file	Indirectly	Centralized - one database	Daily	L3 Restricted/not to be disclosed	Yes - Exporting	AHCA	
FLORIDA / ACCESS Systems	DCF-ACCESS	Medicaid Third Party Liability Report file	Indirectly	Centralized - one database	Daily	L3 Restricted/not to be disclosed	Yes - Exporting	AHCA	
FLORIDA / ACCESS Systems	DCF-ACCESS	Medicaid Management Info. System (MMIS) Report file	Indirectly	Centralized - one database	Daily	L3 Restricted/not to be disclosed	Yes - Exporting	AHCA	
FLORIDA / ACCESS Systems	DCF-ACCESS	Medicaid Third Party Liability Batch Control Report	Indirectly	Centralized - one database	Daily	L3 Restricted/not to be disclosed	Yes - Exporting	AHCA	
FLORIDA / ACCESS Systems	DCF-ACCESS	Emergency Medicaid Identification Card Reports file	Indirectly	Centralized - one database	Daily	L3 Restricted/not to be disclosed	Yes - Exporting	AHCA	

FLORIDA / ACCESS Systems	DCF-ACCESS	SDX DATA	Indirectly	Centralized - one database	Daily	L3 Restricted/not to be disclosed	Yes - Exporting	AHCA	
FLORIDA / ACCESS Systems	DCF-ACCESS	Verify client data: 8019 Third Party Liability (TPL) Data	Indirectly	Centralized - one database	Daily	L3 Restricted/not to be disclosed	Yes - Importing and Exporting	AHCA	
FLORIDA / ACCESS Systems	DCF-ACCESS	MMIS Reconciliation Batch Control Report	Indirectly	Centralized - one database	Other	L3 Restricted/not to be disclosed	Yes - Exporting	AHCA	
FLORIDA / ACCESS Systems	DCF-ACCESS	BENDEX Requests to SSA	Indirectly	Centralized - one database	Other	L3 Restricted/not to be disclosed	Yes - Exporting	AHCA	
FLORIDA / ACCESS Systems	DCF-ACCESS	Verify client data: MedicareBUY-IN "A" DATA	Indirectly	Centralized - one database	Other	L3 Restricted/not to be disclosed	Yes - Importing and Exporting	AHCA	
FLORIDA / ACCESS Systems	DCF-ACCESS	Verify client data:Medicare BUY-IN "B" DATA	Indirectly	Centralized - one database	Other	L3 Restricted/not to be disclosed	Yes - Importing and Exporting	AHCA	
FLORIDA / ACCESS Systems	DCF-ACCESS	Verify client data: QMB Outreach Data	Indirectly	Centralized - one database	Other	L3 Restricted/not to be disclosed	Yes - Importing and Exporting	AHCA	
FLORIDA / ACCESS Systems	DCF-ACCESS	Verify client data: Medicaid Billing Data	Indirectly	Centralized - one database	Other	L3 Restricted/not to be disclosed	Yes - Importing and Exporting	AHCA	
FLORIDA / ACCESS Systems	DCF-ACCESS	Medicaid Management Information System (MMIS) Overall Records Detail Report file	Indirectly	Centralized - one database	Daily	L3 Restricted/not to be disclosed	Yes - Exporting	AHCA	
FLORIDA / ACCESS Systems	DCF-ACCESS	Medicaid Waiver Payments	Indirectly	Centralized - one database	Weekly	L3 Restricted/not to be disclosed	Yes - Importing	AHCA	
FLORIDA / ACCESS Systems	DCF-ACCESS	Verify client data: MMIS Third Party Liability	Indirectly	Centralized - one database	Weekly	L3 Restricted/not to be disclosed	Yes - Importing	AHCA
