Data Source: Florida Department of Health, Office of Vital Statistics

Data for 1970-78, 1979-98, and 1999-present are not fully comparable due to changes in coding causes of death. Consequently, increases or decreases in 1979 and 1999 may not be due to changes in disease trends but rather coding changes. Starting with 2003 deaths, the sum of the deaths from all counties will not equal the total number of resident deaths due to an unknown county of residence on some records.
