

## Employee Social Security Number Exemption

Chapter 119.071(5)7.a, F.S.-- For purposes of this subsection, the term:

(I) "Commercial activity" means the provision of a lawful product or service by a commercial entity. Commercial activity includes verification of the accuracy of personal information received by a commercial entity in the normal course of its business; use for insurance purposes; use in identifying and preventing fraud; use in matching, verifying, or retrieving information; and use in research activities. It does not include the display or bulk sale of social security numbers to the public or the distribution of such numbers to any customer that is not identifiable by the commercial entity.

(II) "Commercial entity" means any corporation, partnership, limited partnership, proprietorship, sole proprietorship, firm, enterprise, franchise, or association that performs a commercial activity in this state.

b. An agency may not deny a commercial entity engaged in the performance of a commercial activity access to social security numbers, provided the social security numbers will be used only in the performance of a commercial activity and provided the commercial entity makes a written request for the social security numbers. The written request must:

(I) Be verified as provided in s. 92.525;

(II) Be legibly signed by an authorized officer, employee, or agent of the commercial entity;

(III) Contain the commercial entity's name, business mailing and location addresses, and business telephone number; and

(IV) Contain a statement of the specific purposes for which it needs the social security numbers and how the social security numbers will be used in the performance of a commercial activity. The aggregate of these requests shall serve as the basis for the agency report required in subparagraph 9.

c. An agency may request any other information reasonably necessary to verify the identity of a commercial entity requesting the social security numbers and the specific purposes for which the numbers will be used.
