Caller is a retired teacher. He never had a problem with sending files to Tallahassee and renew his license, we've been good and efficient and he thanks us. He has a concealed carry license. His sister was car jacked on the way to ATL. Caller would like the law to stay where people know they can protect themselves. It's terrible to see what happens to some people If they change the Stand your ground law, don't take away the possibility of protecting themselves. Don't strip the people the right to protect themselves.
