RE: Request for Emergency Declaration
Hurricane Nate

Dear Mr. President:

Under the provisions of Section 501 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C §§5121-5207 (the "Stafford Act"), as implemented by 44 C.F.R. §206.35, I request that you declare a pre-landfall emergency for the State of Florida as a result of Hurricane Nate. This request is timely under 44 CFR §206.35(a).

I submit this request in anticipation of the impacts of Hurricane Nate, currently forecast to make landfall along the Central Gulf Coast as a Category 2 Hurricane.

Based upon current forecasts and modeling, I request an Emergency Declaration for the following counties: Escambia; Santa Rosa; Okaloosa; Walton; Holmes; Washington; Bay; Jackson; Calhoun; Gulf; Gadsden; Liberty; Franklin; Leon; Wakulla; and, Jefferson.

I request Direct Federal Assistance ("DFA") in order to meet pre-impact, critical emergency protection requirements that are beyond the capability of state and affected

tribal and/or local governments. Additionally, given the severity of the threat, I request financial assistance for eligible Category A and B expenses under FEMA's Public Assistance program.

I. The Situation is of Such Severity and Magnitude that Effective Response is Beyond the Capability of the State and the Affected Local Governments - 44 CFR §206.35(b)(1)

A. Hurricane Nate

As of 11:00 a.m. this morning, Hurricane Nate was located approximately 265 miles south of Biloxi, Mississippi with maximum sustained winds of 90 mph. According to the National Hurricane Center, Hurricane Nate is strengthening and is expected to make landfall as a Category 2 Hurricane somewhere along the Central Gulf Coast.

Hurricane Nate is asymmetrical, with the strongest winds forecasted for the eastern side of the storm. The following watches and warnings are currently in effect for Florida:

- A Hurricane Watch from the Alabama/Florida border east to the Okaloosa/Walton County Line;
- A Storm Surge Warning from the Alabama/Florida line east to the Okaloosa/Walton County Line;
- A Tropical Storm Warning from the Alabama/Florida east to Indian Pass; and,
- A Storm Surge Watch from the Okaloosa/Walton County Line east to Indian Pass.

B. Hurricane Irma and Hurricane Maria

Currently, Florida is still recovering from the impacts of Hurricane Irma - a Major Hurricane that raked the Keys and the entire peninsula of Florida. Additionally, Florida is hosting Hurricane Maria survivors under an agreement with FEMA. Together, these incidents have strained the resources of the State and its local governments.

II. The Situation Requires Supplementary Federal Emergency Assistance to Save Lives and to Protect Property, Public Health and Safety, or to Lessen or Avert the Threat of a Disaster - 44 CFR §206.35(b)(2)

According to the National Hurricane Center, the Storm Surge Warning for Escambia, Santa Rosa, and Okaloosa Counties means that "there is a danger of life-

threatening inundation, from rising water moving inland from the coastline, during the next 36 hours in the indicated locations." Current projections call for:

- 4 to 6 feet of storm surge in the area from the Alabama/Florida border to the Okaloosa/Walton County Line;
- 2 to 4 feet from the Okaloosa/Walton County Line to Indian Pass; and,
- 1 to 3 feet from Indian Pass to Crystal River, Florida.

III. Confirmation That the Governor Has Taken Appropriate Action Under State Law and Directed the Execution of the State Emergency Plan - 44 CFR §206.35(c)(1)

On October 5, I issued Executive Order 17-262 and directed the State Coordinating Officer to execute the State's Comprehensive Emergency Management Plan.

IV. Information Describing the State and Local Efforts and Resources Which Have Been or Will Be Used to Alleviate the Emergency

As of this morning, 100,000 people in the Western Florida Panhandle are under evacuation orders. Additionally, 7 shelters are currently open in 3 counties.

Across the State, utility companies are coordinating through mutual aid agreements. Hospitals and assisted living facilities are preparing for the possible loss of power. The fuels industry is preparing for limited supplies. And, the National Guard has been activated.

V. Information Describing Other Federal Agency Efforts and Resources Which Have Been or Will Be Used in Responding to This Incident

The State Emergency Response Team ("SERT") Chief requested that the following Federal agencies send a representative to the State Emergency Operations Center: U.S. Army Corps of Engineers ("USACE"); U.S. Coast Guard; and, the Federal Highway Administration. Coordination with other Federal agencies is ongoing.

VI. Identification of the Type and Extent of Additional Federal Aid Required

In order to save and protect lives, I request Direct Federal Assistance ("DFA") in the form of personnel, equipment, and supplies. Additionally, I request financial assistance in the form of reimbursement for eligible Category A and B expenses under FEMA's Public Assistance Program.

VII. Conclusion

I have designated the Interim Director of the Florida Division of Emergency Management, as the State Coordinating Officer for this emergency. He is authorized to provide any further information, assurances, requests, or justification on my behalf.

Sincerely,

A handwritten signature in blue ink, appearing to read "Rick Scott", is positioned above the printed name.
