

**ADDENDUM TO
MEMORANDUM OF UNDERSTANDING
BETWEEN
THE FLORIDA ATLANTIC UNIVERSITY
BOARD OF TRUSTEES
AND
TECHNION-ISRAEL INSTITUTE OF TECHNOLOGY**

PREAMBLE

The Florida Atlantic University Board of Trustees ("FAU"), on behalf of the Charles E. Schmidt College of Medicine (the "College of Medicine"), and **Technion-Israel Institute of Technology ("TECHNION")**, on behalf of the Ruth and Bruce Rappaport Faculty of Medicine (the "Faculty of Medicine") seek to expand scholarly ties, facilitate academic and research cooperation, increase educational opportunities, enrich the educational environment and promote international and inter-cultural understanding. Through this Addendum to Memorandum of Understanding ("MOU"), both FAU and TECHNION agree to expand their exploration of educational and scientific cooperation efforts between the FAU College of Medicine and the Faculty of Medicine at TECHNION as more fully set forth below.

RECITALS

WHEREAS, FAU and Technion entered into an MOU in 2014 and an Appendix to that MOU in 2016; and

WHEREAS, the Preamble to the MOU provided that upon written understanding, the Parties could expand the MOU; and

WHEREAS, the Parties wish to encourage collaborative research between the faculty of their respective institutions; and

WHEREAS, the Parties wish to expand the MOU to include not only medical students but to include Medical Residents, Graduate Students, and Post-Doctoral Students.

NOW THEREFORE, the Parties upon mutual written understanding, expand the 2014 MOU as follows:

1. A new paragraph 1.7 is hereby added as follows:

- 1.7 FAU and Technion will encourage faculty from each to establish collaborative research projects in areas of mutual interest. To encourage such collaboration, FAU and Technion will consider areas of joint interest and identify faculty from their respective institutions who could meet and plan such collaborative research. As collaborative research projects are defined and funding sources identified, mutually agreeable collaborative research agreements will be reduced to writing and signed by the Parties. Each Institution shall designate a liaison officer to work on collaborative research. The liaison office for the Technion will be the Technion

International School. The liaison office for the FAU College of Medicine will be its Office of Medical Education.

2. The introduction to paragraph 2 “Visiting Students” is hereby deleted and replaced with the following:

VISITING STUDENTS. The Parties contemplate various opportunities for students of each Institution to engage in research, academic and clinical experiences at the other Institution, through the development of student exchange programs, transfer/split program opportunities and joint degree programs between the Parties. Visiting Students will include Medical Students, Medical Residents, Graduate Students, and Post-Doctoral Students.

3. The remainder of Article 2 as well as all other sections of the MOU and Appendix remain unchanged and in full force and effect.

Signed on behalf of
