THE EDUCATION STATE

GOVERNOR DESANTIS SIGNS CURRICULUM TRANSPARENCY BILL

REQUIRES TRANSPARENCY

The bill requires school districts to have procedures that allow parents to see all books in the school library, all required classroom book lists, and any instructional materials a teacher intends to use.

PROVIDES PARENTAL REVIEW

The bill provides parents with the opportunity to review all instructional materials, and object to materials they do not believe their children should utilize.

SETS CURRICULUM STANDARDS

Ensures curriculum and teacher professional development align with required instruction and state standards, including no CRT or Common Core.

Florida is the most parent-friendly state.
