SECTION I - OFFICE ACTIVITIES

On June 12, 2007, the bill creating the Office of Adoption and Child Protection, within the Executive Office of the Governor, was signed into law by Governor Jeb Bush. The duties and responsibilities of the Office are found in Section 39.001, Florida Statutes. The Office was created for the purpose of establishing, implementing, and monitoring a cross-agency comprehensive statewide approach for the promotion of adoption, support of adoptive families and prevention of child abuse, abandonment and neglect. In addition, the Office provided administrative support to the Florida Faith-Based and Community-Based Advisory Council as outlined in Section 14.31, Florida Statutes. The Office also supports the Governor's Faith and Community Based Initiative.

FLORIDA FAITH-BASED AND COMMUNITY-BASED ADVISORY COUNCIL

The Office provides leadership and administrative support to the Florida Faith-Based and Community-Based (FBCB) Advisory Council to advance its mission and fulfill its charge to enlist, equip, enable, expand, and empower the work of faith-based, volunteer, and other community organizations to collaborate with government entities to deliver services more effectively. Below are activities of the Office during FY 2021-2022.

Vision

To maximize the collaboration between faith-based and community organizations and State agencies to help strengthen individuals and families.

Mission

The Florida Faith-Based and Community-Based Advisory Council exists to facilitate connections to strengthen communities and families in the state of Florida.

Statutory Charge

To advise the Governor and the Legislature on policies, priorities, and objectives for the state's comprehensive efforts to enlist, equip, enable, empower, and expand the work of faith-based, volunteer, and other community organizations to the full extent permitted by law.

During the 2022 calendar year, the Council met four times—once each quarter. These meetings are reflected below:

- February 20th at The Florida Capitol (Tallahassee)
- June 8th at Christ's Church (Jacksonville) and Camp Blanding (Starke)
- September 14th at One More Child and Polk Correctional Institution (Lakeland)
- December 7th at JAFCO and Coral Ridge Presbyterian Church (Ft. Lauderdale)

GOVERNOR'S FAITH AND COMMUNITY BASED INITIATIVE

In November 2019, Governor DeSantis announced the creation of his Faith and Community Based Initiative under the direction of Erik Dellenback, the Governor's Liaison for Faith and Community. The Governor's Initiative was charged with appreciating, resourcing, and connecting upstream Florida's faith and community networks with vulnerable populations. To support the Initiative, the Governor's Faith and Community Based Initiative Office was created to operationally support the Initiative and its programs.

The Initiative has developed a number of tools, programs, and initiatives for the purpose of short and long term resourcing and connection of Florida's faith and community networks. Tools and programs include:

Collaboration with DCF for the establishment of the Florida Foster Information Center

The First Impressions Center enlists specially trained receptionists, all of whom are current or past foster parents, to provide needed customer service and system navigation support to prospective foster care families.

CarePortal

CarePortal brings the needs of hurting children and families in a community to the attention of surrounding involved organizations. Caseworkers uncover the needs and CarePortal makes local faith and community organizations or members aware, giving them a real-time opportunity to respond. Requests submitted through CarePortal come from caseworkers at DCF. CarePortal is also a key component of the Hope Florida Initiative.

Faith and Community Information Line

Established within the Governor's Faith and Community Based Initiative Office, the Faith and Community Information Line is a white glove service for Florida's faith and community organizations with questions connected to Florida's state government and agencies.

Sessions with the Secretary

Video calls that connect faith and community organizations with state leaders working in service areas those organizations are already involved in. Each call seeks to better connect and resource the faith and community organizations that mutually serve vulnerable Floridians.

Women of Faith Forum

Coordinated program between the Governor's Faith and Community Based Initiative and the First Lady to encourage, educate, and equip influential women from faith and community contexts. The content includes Hope Florida, state faith and community projects, briefings from state officials, and other activities.

Show Me The Father

Partnership with the Florida Department of Corrections for the statewide screening of Show Me The Father in all 57 major correctional institutions in Florida. This event is in collaboration with Florida faith and community organizations for the support of inmates.

CHILD ABUSE PREVENTION AND PERMANENCY PLAN

The Office, under ch. 39.001, F.S., supports the development of the State Comprehensive Plan in conjunction with the Department of Children and Families and other stakeholder agencies. The vision, mission, and overarching goal are:

Vision

Florida’s highest priority is that children are raised in healthy, safe, stable, and nurturing families.

Mission

To serve as a blueprint that will be implemented to provide for the care, safety, and protection of all of Florida’s children in an environment that fosters healthy social, emotional, intellectual, and physical development.

Overarching Goal

All families and communities ensure that children are safe and nurtured and live in stable environments that promote well-being.

CAPP Advisory Council

The Office engages a broad range of state and local government, agency, faith, and community professionals/partners/stakeholders (representatives) and foster/adoptive families through in-person meetings and participation on multiple state and community workgroups/committees (*Table 1*). These representatives reflect the membership of the CAPP Advisory Council and provide valuable perspectives, strategies, and feedback for the ongoing alignment, development, implementation, and evaluation of the CAPP Plan.

Circuit Taskforces

The Office coordinates with 20 Circuit Taskforces to assess community needs, identify strategies, and implement action for the promotion of adoption, support for adoptive families, and prevention of child maltreatment. Taskforces are comprised of agency and multi-sector professionals and stakeholders, including family members who have adopted a child from the child welfare system, within each judicial circuit in Florida (*Figure 2*).

The DCF's Community Development Administrators (CDAs) serve as conveners for their circuit's taskforce. These taskforces may function as a stand-alone team or integrated with other team structures charged with a similar purpose.

SECTION II – STATUS OF CHILD MALTREATMENT, CHILD MALTREATMENT DEATHS, AND ADOPTIONS IN FLORIDA

This section of the annual report is governed by Subsections 39.001(9)(c)(5) b-d, Florida Statutes (§39.001(9)(c)(5) b-d, F.S.) which calls for:

- b. A summary of the adoption data collected and reported to the federal Adoption and Foster Care Analysis and Reporting System (AFCARS) and the federal Administration for Children and Families.*
- c. A summary of the child abuse prevention data collected and reported to the National Child Abuse and Neglect Data System (NCANDS) and the federal Administration for Children and Families.*
- d. A summary detailing the timeliness of the adoption process for children adopted from within the child welfare system.*

The Department of Children and Families (DCF) is the reporting agency for child maltreatment and adoptions and provided data and available information included in this report. Information from the Child Abuse Death Review Annual Report and the DCF Annual Adoption Incentive Report are included as part of this report.

SUMMARY OF CHILD MALTREATMENT

Child maltreatment is an all-inclusive term for child abuse, abandonment, and neglect. Data is based on the official published per capita rate for Florida to provide for more in-depth reporting and analysis. Therefore, the numbers may differ slightly because when querying a live data system, used for both case management and reporting, the time lag between different run dates allows for additional data entry and correction.

The incidence of child maltreatment is the *estimated number* of maltreated children in Florida, regardless of the number of children reported as abused. According to the Centers for Disease Control and Prevention (CDC), child protective services reports may underestimate the true occurrence of abuse and neglect. It is estimated that 1 in 4 children (25%) experience some form of child maltreatment in their lifetimes.

Verified Maltreatment

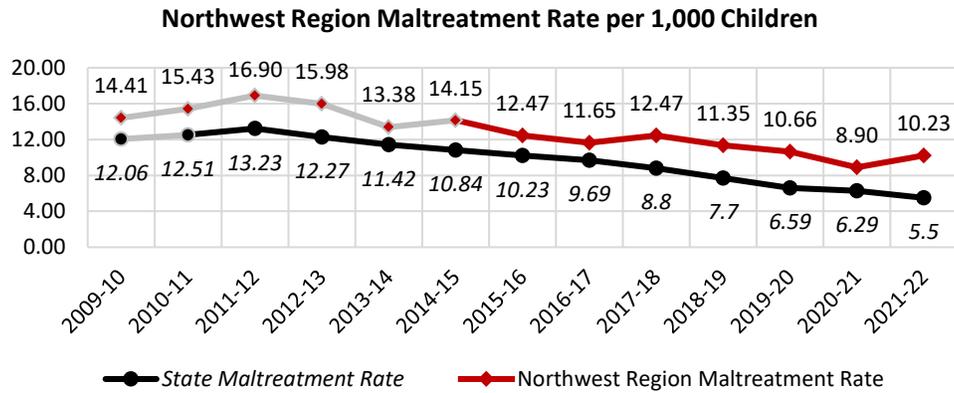

The rate of children with verified maltreatment during FY 2021-22 was 5.50. On the following pages, rates of verified maltreatment per 1,000 children are presented with infographics at both the regional and judicial circuit levels.

Age Ranges with Verified Maltreatment

As shown in Chart 2 and Chart 3 below, the younger the child, the more vulnerable the child is to be maltreated.

- The highest percentage of children with verified maltreatment was in the birth to four-year-old range.
- This was followed by elementary school aged children (5 – 10 years).
- **These two age groups make up 17,872 of 24,640 verifications, over 72.53% of total verifications.**
- It should be noted that there is a very small percentage difference between middle school children and high school children with verified maltreatment during FY 2021 – 2022 (12.71% vs. 14.47%).

- The largest percentage of children and youth who were alleged victims of maltreatment were white (52.21%).
- For ethnicity, the largest portion was “Other” (non – Hispanic) (82.04%).

Table 4 shows the number of allegations and verifications, in duplicated counts. The three highest values in each category are highlighted in orange. A child might have been the alleged victim with more than a single allegation attributed to the same incident.

- For these children, there were 41,899 verified allegations of child maltreatment (duplicated child count).
- The highest numbers of allegations were for household violence threatens child, inadequate supervision, and physical injury.
- It should be noted that the top three most reported allegations (household violence, inadequate supervision, and physical injury) have fairly low verification rates (12.03%, 11.86%, and 4.86%, respectively).

Reasons for Removal

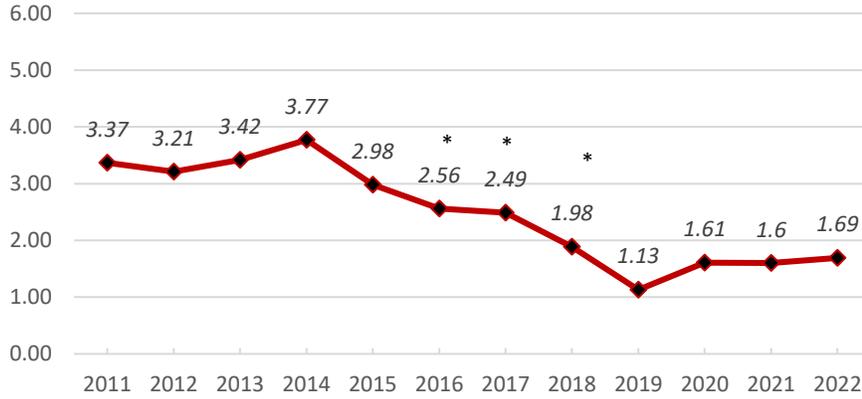

The Department of Children and Families' *Florida Safe Families Network* (FSFN) data system recorded the primary reasons for removal of the children entering into foster care. If a child was removed more than once during the year, all sets of reasons are included in this analysis. Of the children entering foster care in the twelve-month span from July 2021 – June 2022, the reasons for removal were divided into twenty-three categories, shown in Table 5 below. A child may have more than one reason for removal noted, thus the counts in this chart will represent duplicated child counts.

- Highlighted in orange, the highest percentage of removals (24.77%) was due to Parental Drug Abuse.
- The second most cited service reason for a removal (13.67%) was due to Inadequate Supervision.
- The least cited reason for a child removal was Adoption Dissolution (0.003%), followed by Commercial Sexual Exploitation of Child (0.01%).

SECTION III - AGENCY RECOMMENDATIONS AND REQUESTS

The following is a summary of the policy and budget recommendations as submitted to the Governor's Office of Adoption and Child Protection by the various affected state agencies for the further development of services and programs for the promotion of adoption, support of adoptive families and prevention of child abuse and neglect. This summary is by no means to be considered all-inclusive, by error or intent.

The agencies recommendations are listed in alphabetical order by agency name. This order does not reflect in any way the priorities of the Executive Office of the Governor, or the Office of Adoption and Child Protection.

Agency for Health Care Administration

Continued support of no-cost comprehensive coverage for fostered and adopted children in the state Medicaid program. These services are provided under the federal Early and Periodic Screening, Diagnosis, and Treatment benefit.

Agency for Persons with Disabilities

Continued interagency collaboration to best support children within the child welfare system, regardless of need or silo.

Department of Children and Families

The maintenance adoption subsidy program has proven to be an important support in the adoption of children with special needs from foster care in Florida and nationally. Subsidies have enabled a new population of families to adopt special needs children, especially foster parents and relative caregivers, who develop a committed and nurturing relationship with these children. The Department appreciates Governor DeSantis' support for funding maintenance adoption subsidies and adoption incentive benefits.

Hope Florida - A Pathway to Prosperity, is a new initiative spearheaded by First Lady Casey DeSantis and implemented by the Florida Department of Children and Families, utilizes Hope Navigators' to guide Floridians on an individualized path to prosperity by focusing on community collaboration between the private sector, faith-based community, nonprofits and government entities to break down traditional community silos, in an effort to maximize resources and uncover opportunities. These Hope Navigators are essential in helping individuals such as public benefit customers, children aging out of foster care, pregnant mothers contending with substance abuse disorders, and parents and families who need assistance identify their unique and immediate barriers to prosperity, develop long term-goals, map out a strategic plan, and work to ensure all sectors of the community have a 'seat at the table' and are part of the solution. The Department appreciates the Governor and First Lady's support to better connect individuals in need with services that best align with their circumstances.

Department of Corrections

The Florida Department of Corrections recognizes that family and family members are vital to the successful restoration and transition of individuals returning to the community. Maximizing the role of families in the reentry process increases public safety. By focusing on family reunification and parenting skills, the Department continues to promote stronger relationships between returning citizens and their families which correlates with increased post-release success. In addition to strengthening families' protective factors to reduce incidences of child abuse and neglect by providing parents with effective parenting strategies the Florida Department of Corrections continues to:

- Foster visitation of family members by moving inmates closer to home, when suitable
- Partner with organizations, such as Children of Inmates
- Utilize volunteers to implement the Parenting from Inside curriculum at our institutions
- Employ video visitation and email to maintain family ties while individuals are incarcerated through both an interactive kiosk, available in each general population housing unit and secure tablets
- Incorporate family reunification/parenting programs into each contract for substance use disorder treatment services in our institutions
- Identify risk factors associated with family dynamics using the Department's evidence driven assessment, CINAS, and delivering programs and services to mitigate these risks for both inmates and offenders
- Utilize a vast list of community providers to provide offenders with programs and services designed to teach positive parenting skills and prevent abuse and neglect.

Department of Education

The department continued its participation in Child Abuse Prevention and Permanency (CAPP) efforts with support from all relevant bureaus and program areas. Specifically, this included the Bureau of Federal Educational Programs, the Bureau of Exceptional Education and Student Services, the Bureau of Standards and Instructional Support, the Office of Independent Education and Parental Choice, and the Bureau of Family and Community Outreach. The department's efforts have included securing grant funds that are used, in part, to combat trafficking of children; promoting child abuse prevention resources via training sessions and our agency website; and offering technical assistance to school district administrators on compliance with the current anti-bullying statute.

The department also has a State Foster Care Liaison who works closely with the Department of Children and Families to provide guidance and professional development on federal requirements for students in care to community-based care facilities and district foster care liaisons.

Florida offers a number of K-12 scholarship programs for students in the foster care system. Specifically, there are provisions for foster students to utilize the McKay Scholarship Program for students with disabilities by choosing to attend either an approved private school or another public school. Additionally, both the Florida Tax Credit Scholarship and Family Empowerment Scholarship programs for families with limited financial means have carved out eligibility provisions for students in the foster system. Lastly, the Hope Scholarship Program was created for public school students who have been subjected to an incident of bullying. Additional information on these programs can be found at <http://fldoe.org/schools/school-choice/k-12-scholarship-programs/>

Department of Juvenile Justice

The Department of Juvenile Justice recognizes that proactive prevention and data-driven interventions for at risk youth can save taxpayer dollars, while saving the futures of youth and keeping communities safe. Many of the youth involved in the juvenile justice system are also involved in the dependency system or have a history of DCF out-of-home placement. For this population, it is important that both agencies utilize their resources and respond to a youth's behavior from a trauma informed perspective to positively impact the future of these youth.
