

# STAND WITH ISRAEL

# SANCTION IRAN

While the federal government has eased sanctions on Iran and funded state-sponsored terrorism against America's great ally, **Governor DeSantis is proposing legislation to strengthen sanctions on Iran**, ensuring Florida does not do business with companies aligned with Iran or Hamas.

**REINFORCES** Florida's commitment to not do business with state sponsors of terrorism such as Iran.

**EXPANDS** prohibition on state investment in Iranian businesses to include the financial, construction, manufacturing, textile, technology, mining, metals, shipping, shipbuilding, and port sectors.

**PROHIBITS** state and local governments from contracting with companies on the expanded sectors list.

**REQUIRES** both the President and United States Congress to certify that Iran has stopped supporting international terrorism and acquiring weapons of mass destruction, and that the United States has lifted all sanctions against Iran before any state sanctions are lifted.

**GOVERNOR DESANTIS IS CALLING ON OTHER STATES TO FOLLOW FLORIDA'S LEAD AND MAKE IT CLEAR THAT THEY WILL NOT BE COMPLICIT IN IRANIAN BACKED TERRORISM.**

This proposal builds upon previous efforts championed by Governor DeSantis to support Israel and prohibit doing business with foreign countries of concern, including Iran:

### ENACTED

historic legislation to combat antisemitism and support Florida's Jewish community.

### LED

two trade delegations to strengthen Florida's economic relationship with Israel.

### PROHIBITED

Florida investment in companies which discriminate against Israel.

### SIGNED LEGISLATION

to prohibit foreign countries of concern from owning agricultural land, real estate near critical infrastructure, or from operating schools in Florida.
