GOVERNOR'S FAITH AND COMMUNITY INITIATIVE

In November 2019, Governor DeSantis announced the creation of his Faith and Community Based Initiative under the direction of Erik Dellenback, the Governor's Liaison for Faith and Community. The Governor's Initiative was charged with thanking, communicating, resourcing, and connecting upstream Florida's faith and community networks with vulnerable populations. To support the Initiative, the Governor's Faith and Community Initiative Office was created to operationally support the Initiative and its programs.

The Initiative has developed a number of tools, programs, and initiatives for the purpose of short-term and long-term resourcing and connection of Florida's faith and community networks. Some of the key tools and programs include:

Collaboration with DCF for the establishment of the Florida Foster Information Center

The Florida Foster Information Center enlists specially trained team, all of whom are current or past foster parents, to provide needed customer service and system navigation support to prospective foster care families.

CarePortal

CarePortal brings the needs of hurting children and families in a community to the attention of surrounding involved organizations. Caseworkers uncover the needs and CarePortal makes local faith and community organizations or members aware, giving them a real-time opportunity to respond. CarePortal is a key component of the Hope Florida Initiative.

Faith and Community Information Line

The Florida Faith and Community "Red Phone" is a first-in-the-nation direct phone line specifically created for Florida faith and community leaders to connect with the Executive Office of the Governor. A real person will answer, address questions and concerns regarding state government, and help drive solutions for those serving the vulnerable people of Florida.

Sessions with the Secretary

The Session with the Secretary video-event series connects faith and community organizations with state leaders in shared areas of service. Through statewide video calls, participants have an opportunity to hear directly from state agency heads and other public officials, ask questions, and hear more about ways the work of faith and community organizations can be encouraged, connected, or better resourced.

Women of Faith Forum

Coordinated program between the Governor's Faith and Community Initiative and the First Lady to encourage, educate, and equip influential women from faith and community contexts. The content includes Hope Florida, state faith and community projects, briefings from state officials, and other activities.

Governor's Faith and Community Initiative Newsletter

The monthly *Governor's Faith and Community Initiative Newsletter* was launched to serve as a regular communication between the Governor's Faith and Community Initiative and the faith and community leaders of the state. Its content includes highlights of what Florida's top state leaders are doing to serve faith and community organizations, special tailored messages of

encouragement from the Governor’s Liaison for Faith and Community, and information on valuable resources to enhance ministries that serve vulnerable Floridians.

CHILD ABUSE PREVENTION AND PERMANENCY PLAN

The Office, under Chapter 39.001, F.S., supports the development of the State Comprehensive Plan in conjunction with the Department of Children and Families and other stakeholder agencies. The vision, mission, and overarching goal are:

Vision

Florida’s highest priority is that children are raised in healthy, safe, stable, and nurturing families.

Mission

To serve as a blueprint that will be implemented to provide for the care, safety, and protection of all of Florida’s children in an environment that fosters healthy social, emotional, intellectual, and physical development.

Overarching Goal

All families and communities ensure that children are safe and nurtured and live in stable environments that promote well-being.

Child Abuse Prevention and Permanency Advisory Council (CAAP)

The Office engages a broad range of state and local government, agency, faith, and community professionals/partners/stakeholders (representatives) and foster/adoptive families through in-person meetings and participation on multiple state and community workgroups/committees (*Table 1*). These representatives reflect the membership of the CAPP Advisory Council and provide valuable perspectives, strategies, and feedback for the ongoing alignment, development, implementation, and evaluation of the CAPP Plan.

Circuit Taskforces

The Office coordinates with 20 Circuit Taskforces to assess community needs, identify strategies, and implement action for the promotion of adoption, support for adoptive families, and prevention of child maltreatment. Taskforces are comprised of agency and multi-sector professionals and stakeholders, including family members who have adopted a child from the child welfare system, within each judicial circuit in Florida (*Figure 2*).

The DCF's Community Development Administrators (CDAs) serve as conveners for their circuit's taskforce. These taskforces may function as a stand-alone team or integrated with other team structures charged with a similar purpose.

SECTION II – STATUS OF CHILD MALTREATMENT, CHILD MALTREATMENT DEATHS, AND ADOPTIONS IN FLORIDA

This section of the annual report is governed by Subsections 39.001(9)(c)(5) b-d, Florida Statutes (§39. 001(9)(c)(5) b-d, F.S.) which calls for:

- b. A summary of the adoption data collected and reported to the federal Adoption and Foster Care Analysis and Reporting System (AFCARS) and the federal Administration for Children and Families.*
- c. A summary of the child abuse prevention data collected and reported to the National Child Abuse and Neglect Data System (NCANDS) and the federal Administration for Children and Families.*
- d. A summary detailing the timeliness of the adoption process for children adopted from within the child welfare system.*

The Department of Children and Families (DCF) is the reporting agency for child maltreatment and adoptions and provided data and available information included in this report. Information from the Child Abuse Death Review Annual Report and the DCF Annual Adoption Incentive Report are included as part of this report.

SUMMARY OF CHILD MALTREATMENT

Child maltreatment is an all-inclusive term for child abuse, abandonment, and neglect. Data is based on the official published per capita rate for Florida to provide for more in-depth reporting and analysis. Therefore, the numbers may differ slightly because when querying a live data system, used for both case management and reporting, the time lag between different run dates allows for additional data entry and correction.

The incidence of child maltreatment is the *estimated number* of maltreated children in Florida, regardless of the number of children reported as abused. According to the Centers for Disease Control and Prevention (CDC), child protective services reports may underestimate the true occurrence of abuse and neglect. It is estimated that 1 in 4 children (25%) experience some form of child maltreatment in their lifetimes.

Verified Maltreatment

The rate of children with verified maltreatment during FY 2022-23 was 5.14 per 1,000 children. On the following pages, rates of verified maltreatment per 1,000 children are presented with infographics at both the regional and judicial circuit levels.

Age Ranges with Verified Maltreatment

As shown in Chart 2 and Chart 3 below, the younger the child, the more vulnerable the child is to be maltreated.

- The highest percentage of children with verified maltreatment was in the birth to four-year-old range.
- This was followed by elementary school aged children (5 – 10 years).
- ***These two age groups make up 16,452 of 23,233 verifications, over 70.81% of total verifications.***
- It should be noted that there is a very small percentage difference between middle school children and high school children with verified maltreatment during FY 2022 – 2023 (13.59% vs. 15.20%).

Table 3 shows the number of allegations and verifications, in duplicated counts. The three highest values in each category are highlighted in orange. A child might have been the alleged victim with more than a single allegation attributed to the same incident.

- For these children, there were 39,755 verified allegations of child maltreatment (duplicated child count).
- The highest numbers of allegations were for household violence threatens child, inadequate supervision, and physical injury.
- It should be noted that the top three most reported allegations (household violence, inadequate supervision, and physical injury) have fairly low verification rates (11.16%, 10.96%, and 4.90%, respectively).

Reasons for Removal

The Department of Children and Families' *Florida Safe Families Network* (FSFN) data system recorded the primary reasons for removal of the children entering foster care. If a child was removed more than once during the year, all sets of reasons are included in this analysis. Of the children entering foster care in the 12-month span from July 2022 – June 2023, the reasons for removal were divided into 23 categories, shown in Table 4 below. A child may have more than one reason for removal noted, thus the counts in this chart will represent duplicated child counts.

- Highlighted in orange, the highest percentage of removals (23.65%) was due to Parental Drug Abuse.
- The second most cited service reason for a removal (15.15%) was due to Inadequate Supervision.
- The least cited reason for a child removal was Labor Trafficking (0.02%), followed by Adoption Dissolution (0.03%).

SECTION III – AGENCY RECOMMENDATIONS AND REQUESTS

The following is a summary of the policy and budget recommendations as submitted to the Governor's Office of Adoption and Child Protection by the various affected state agencies for the further development of services and programs for the promotion of adoption, support of adoptive families, and prevention of child abuse and neglect. This summary is by no means to be considered all-inclusive, by error or intent.

The agencies recommendations are listed in alphabetical order by agency name. This order does not reflect in any way the priorities of the Executive Office of the Governor, or the Office of Adoption and Child Protection.

Agency for Persons with Disabilities

Continued interagency collaboration to best support children within the child welfare system, regardless of need or silo.

Hope Florida—A Pathway to Possibilities, was launched in 2023 under First Lady Casey DeSantis and implemented by the Agency for Persons with Disabilities. This initiative serves individuals with unique abilities by building paths towards economic self-sufficiency and creating deeper community connections. It was created to help individuals meet their goals and God-given potential.

Department of Children and Families

The maintenance adoption subsidy program has proven to be an important support in the adoption of children with special needs from foster care in Florida and nationally. Subsidies have enabled a new population of families to adopt special needs children, especially foster parents and relative caregivers, who develop a committed and nurturing relationship with these children. The Department appreciates Governor DeSantis' support for funding maintenance adoption subsidies and adoption incentive benefits.

Hope Florida—A Pathway to Prosperity, spearheaded by First Lady Casey DeSantis and implemented by the Florida Department of Children and Families, utilizes Hope Navigators to guide Floridians on an individualized path to prosperity by focusing on community collaboration between the private sector, faith-based community, nonprofits and government entities. These Hope Navigators are essential in helping individuals identify their unique and immediate barriers to prosperity, develop long-term goals, map out a strategic plan, and work to ensure all sectors of the community have a are part of the solution. The Department appreciates the Governor and First Lady's support to better connect individuals in need with services that best align with their circumstances.

Department of Corrections

The Florida Department of Corrections recognizes that family and family members are vital to the successful restoration and transition of individuals returning to the community. Maximizing the role of families in the reentry process increases public safety. By focusing on family reunification and parenting skills, the Department continues to promote stronger relationships between returning citizens and their families which correlates with increased post-release success. In addition to strengthening families' protective factors to reduce incidences of child abuse and neglect by providing parents with effective parenting strategies the Florida Department of Corrections continues to:

- Foster visitation of family members by moving inmates closer to home, when suitable

- Partner with organizations, such as Children of Inmates
- Utilize volunteers to implement the Parenting from Inside curriculum at our institutions
- Employ video visitation and email to maintain family ties while individuals are incarcerated through both an interactive kiosk, available in each general population housing unit, and secure tablets
- Incorporate family reunification/parenting programs into each contract for substance use disorder treatment services in our institutions
- Identify risk factors associated with family dynamics using the Department's evidence driven assessment, CINAS, and delivering programs and services to mitigate these risks for both inmates and offenders
- Utilize a vast list of community providers to provide offenders with programs and services designed to teach positive parenting skills and prevent abuse and neglect

Department of Education

Florida offers a number of K-12 scholarships for students of which children in foster care or out of home care are eligible for. The Florida Family Empowerment Scholarship for Educational Options provides additional educational options for all K-12 students, such as attending a participating private school. Families apply and annually renew through one of the approved scholarship funding organizations (SFO), which are responsible for determining and distributing funding. FES EO also offers families of eligible students the option to receive a \$750 scholarship to provide transportation to a public school different from the school to which the student was assigned.

The Florida Family Empowerment Scholarship Program is designed to offer families of students with disabilities, as young as 3 years of age, access to additional education options. Families may choose to enroll their student in another public school, or they may choose to take the opportunity to receive a personal education savings account (ESA) for their student. With an ESA, instead of having their child attend a public school, parents receive a deposit of public funds into government-authorized savings accounts with restricted, but multiple, uses. An ESA can be used to fund not only items such as private school tuition and fees, but also online learning programs, private tutoring, community college costs, higher education expenses and other approved customized learning services and materials. Families apply and annually renew for participation in FES UA through one of the approved SFOs, which are responsible for determining eligibility, awarding and distributing funding to eligible student accounts, and approving eligible expenditures.

Florida children in the foster care system receive priority in these scholarship programs. More information on these scholarship programs and others can be found at <https://www.fldoe.org/schools/school-choice/k-12-scholarship-programs/>.

Department of Juvenile Justice

The Department of Juvenile Justice recognizes that proactive prevention and data-driven interventions for at risk youth can save taxpayer dollars, while saving the futures of youth and keeping communities safe. Many of the youth involved in the juvenile justice system are also involved in the dependency system or have a history of DCF out-of-home placement. For this population, it is important that both agencies utilize their resources and respond to a youth's behavior from a trauma informed perspective to positively impact the future of these youth.

Hope Florida- a Pathway to Potential was launched in 2023 under First Lady Casey DeSantis and implemented by the Department of Juvenile Justice. The Pathway to Potential includes Hope Navigators who will assist Florida families in need by connecting them to local resources in their community. Those benefiting from this initiative are youth involved with DJJ or who are transitioning out of DJJ care, parents and families concerned with their child's behavior, and parents and families of children who have run away, are truant from school, or who are struggling academically.
