Florida Statute 14.31 ........................................................................................................................ ii
Florida Statute 39.001, Sections 8 – 12 ........................................................................................... v
The Florida Faith-Based and Community-Based Advisory Council (Advisory Council or Council) was created in 2006 in Florida Statute 14.31. State leadership felt that increased involvement of faith-based and community organizations was not a sufficient substitute for necessary public funding of services to individuals, families and communities in need. Likewise, they believed that without the involvement of these groups, public expenditures alone would limit the effectiveness of these government investments. The cost effectiveness of public expenditures can be greatly improved when government is focused on results and public-private partnerships are sought as a complement in order to leverage the talent, commitment and resources of faith-based and community organizations.

During the 2010 Legislative Session, the Sunset requirement for the Advisory Council was repealed through legislation sponsored by Senator Mike Bennett and Representative Clay Ford. In addition, the Advisory Council was assigned to the Executive Office of the Governor, where it is administratively housed.

The Advisory Council shall consist of 25 members and may include, but need not be limited to, representatives from various faiths, faith-based organizations, community-based organizations, foundations, corporations, and municipalities. Members serve four year terms, except that the initial terms shall be staggered as determined by Florida Statute 14.31, appointed by and serving at the pleasure of the Governor, Senate President, and Speaker of the House.

The Advisory Council shall meet at least once per quarter per calendar year whether in-person, via teleconference, or through other electronic means. Annually, the Advisory Council shall elect from its membership one member to serve as Chairman of the Advisory Council and one member to serve as Vice Chairman. The mission statement was created and approved by the Advisory Council on June 11, 2013. The vision statement was approved by the members on April 8, 2014.

### Mission Statement

The Florida Faith-Based and Community-Based Advisory Council exists to facilitate connections to strengthen communities and families in the state of Florida.

### Statutory Charge

To advise the Governor and the Legislature on policies, priorities and objectives for the state’s comprehensive efforts to enlist, equip, enable, empower, and expand the work of faith-based, volunteer, and other community organizations to the full extent permitted by law.

### Vision

To maximize the collaboration between faith-based and community organizations and State agencies to help strengthen individuals and families.
Administrative Support

On June 12, 2007, the bill creating the Governor’s Office of Adoption and Child Protection (Office) was signed into law. The duties and responsibilities of the Office are enshrined in Florida Statute 39.001. The Office was created for the purpose of establishing, implementing, and monitoring a comprehensive, cross-agency approach for the promotion of adoption, support of adoptive families, and prevention of child abuse, abandonment and neglect across the state. In October 2011, the Executive Office of the Governor allocated responsibility for administrative functions and support for the Advisory Council to the Governor’s Office of Adoption and Child Protection.

The Office worked diligently throughout 2016 to advance the efforts of the Advisory Council. As of April 2015, the Office personnel, including one full-time employee, Zackary Gibson (Chief Child Advocate and Director) and one part-time employee, Frenchie Yon (Program Support), have provided support through a servant leadership approach. In addition, the Office utilized student interns to assist with many tasks supporting the Advisory Council. The Office facilitated and coordinated meetings, travel logistics, meals, overnight accommodations, ground transportation, and site visits to local community organizations. Additionally, the Office developed correspondence, drafted meeting agendas, invited presenters to speak, worked with the Governor’s, Senate President’s and Speaker of the House’s Appointments Office; and assisted in the creation of this annual report.

Florida’s Five-Year Prevention and Permanency Plan

The Advisory Council continues to support and promote efforts of the Florida Child Abuse Prevention and Permanency Plan. The central focus of the plan is to build resilience in all of Florida’s families and communities to equip them to better care for and nurture their children. In accordance with state law (Florida Statute 39.001), the five-year prevention and permanency plan provides for the prevention of child abuse, abandonment and neglect; promotion of adoption; and for the support of adoptive families.

**Vision**
Florida’s highest priority is that children are raised in healthy, safe, stable, and nurturing families.

**Mission**

**Overarching Goal**
All families and communities ensure that children are safe and nurtured and live in stable environments that promote well-being.

**Advisory Council Support**
The Advisory Council continues to participate in the following sections of the five-year plan: Prevention of Child Maltreatment, Promotion of Adoption, and Support of Adoptive Families. The following activities occurred through 2016 in support of the plan:

- The Advisory Council continues to collaborate with DCF and DJJ to host the annual Faith Symposium to highlight opportunities for faith and community-based organizations to work collaboratively with government entities. The Council also continues to support efforts to have best and promising practice approaches presented at the Faith Symposium.
Citizens Review Panel
The Child Abuse Prevention and Treatment Act (CAPTA) provides federal funding to states for child abuse and neglect prevention, treatment and training for staff who work in the child protection system. The Department of Children and Families (DCF) serves as the lead agency for the federal funding. The Advisory Council serves as a Citizens Review Panel to support DCF’s efforts to refine, improve and strengthen the child welfare system.

Citizen Review Panels were included in the 1996 CAPTA reauthorization and must:

- Be composed of volunteers who are representative of the community in which they operate.
- Meet at least quarterly.
- Prepare an annual report that describes the panel’s activities and includes recommendations to improve the child protection system.
- Have at least one member with expertise in child abuse and neglect prevention and treatment.

Each panel is responsible to review:

- Compliance of state and local child protection service agencies and state CAPTA plan
- Coordination with foster care and adoption programs
- Review of child fatalities and near fatalities (performed by the Child Abuse Death Review Team)

The Advisory Council was formally designated as a Citizens Review Panel for the Federal Fiscal Year 2016. Below are recommendations provided to DCF:

ADVISORY COUNCIL RECOMMENDATIONS

The following recommendations are provided to address requirements outlined in Florida Statute 14.31.

1. **How faith-based and community-based organizations can best compete with other organizations for the delivery of state services, regardless of an organization’s orientation, whether faith-based or secular.**

   Faith-based and community-based organizations are uniquely positioned in communities, ready to move forward in providing services to those who may be in need. In order to best compete for the delivery of state services, these organizations must first be aware of opportunities available through the state and attend necessary training(s) to ensure they understand state expectations and have the capacity to meet financial, operational, and compliance requirements. These organizations should consider accessing available opportunities through the My Florida Marketplace – Vendor Bid System website and register and/or sign-up to receive electronic notifications about bid advertisements. When applying to perform services for the state, it is encouraged for these organizations to articulate how they may be able to leverage funding streams and potential volunteers to maximize funds from the state to achieve desired outcomes. The Advisory Council will work to post links to the My Florida Marketplace website to enable interested parties to access information available. Additionally, the Advisory Council will continue to work to better locate and identify available funding opportunities for interested parties.

2. **How best to develop and coordinate activities of faith-based and community-based programs and initiatives, enhance such efforts in communities, and seek such resources, legislation, and regulatory relief as may be necessary to accomplish these objectives.**

   One of the first challenges to overcome when working to develop and coordinate activities of faith-based and community-based programs is to be aware of what is being provided. The Advisory Council continues to work on creating awareness of its functions and ability to provide support to organizations. During quarterly meetings, the Advisory Council seeks presentations on best practice approaches and innovative programs, and recognizes organizations for their efforts to strengthen children and families in Florida. This is done to spur ideas in other areas of the state and to develop additional local connections to support activities. Council members serve as regional points of contact for organizations throughout Florida and can assist in facilitating connections to agency staff to build upon the activities.

3. **How best to ensure that state policy decisions take into account the capacity of faith-based and other community-based initiatives to assist in the achievement of state priorities.**

   The Advisory Council encourages elected officials and state agencies to establish review criteria that includes assessment of faith-based and community-based initiatives when determining state policy. Officials and agencies are encouraged to utilize the Advisory Council as a mechanism to disseminate information on proposed changes, community meetings, etc. that can illicit comment and feedback on state policy decisions from faith-based and community-based organizations.

4. **How best to identify and promote best practices across state government relating to the delivery of services by faith-based and other community-based organizations.**

   Each year, the Advisory Council, in collaboration with DCF and DJJ, disseminates information to faith-based and community-based organizations to encourage submission of presentations for the
annual Faith Symposium on best practice approaches to improve outcomes. Additionally, once activities are identified, members either facilitate connections directly to state agency contacts or works with the Governor’s Office of Adoption and Child Protection for guidance on who best to connect with.

5. How best to coordinate public awareness of faith-based and community nonprofit initiatives, such as demonstration pilot programs or projects, public-private partnerships, volunteerism, and special projects.

The Advisory Council will continue to utilize its quarterly meetings as a platform to highlight and bring attention to initiatives that are making a positive impact in communities and on families. The Advisory Council will also engage the Circuit Task Forces from throughout the state to provide feedback on initiatives that can raise awareness and inform where individuals and families can go for services and supports.

6. How best to encourage private charitable giving to support faith-based and community-based initiatives.

The Advisory Council will continue to work to become informed of initiatives and seek opportunities to facilitate connections to businesses and organizations who can consider supporting such initiatives. The Advisory Council also supports the use of development professionals and consultants who can strategize to achieve financial/in-kind goals.

7. How best to bring concerns, ideas, and policy options to the Governor and Legislature for assisting, strengthening, and replicating successful faith-based and other community-based programs.

The Advisory Council will continue to communicate with state agency liaisons and staff, legislative leaders and staff, and through the Governor’s Office of Adoption and Child Protection to bring concerns, ideas, and policy options to the Governor and Legislature. Council members may also work directly with their local legislative delegation to create awareness of concerns, ideas and policy options. Additionally, the Advisory Council will continue to seek comment and input from faith-based and community-based organizations to assess and consider including as part of their recommendations to the Governor and Legislature.

8. How best to develop and implement strategic initiatives to strengthen the institutions of families and communities in this state.

The workgroups established by the Advisory Council are designed to coordinate and facilitate connections that can strengthen communities and families. Additionally, the Advisory Council will continue to work with state agency liaisons to identify opportunities to develop and implement initiatives that can strengthen the institutions of families and communities. The Advisory Council will continue to support the efforts of the Florida Children and Youth Cabinet and other state associations and groups to develop and implement strategic initiatives.

9. How best to showcase and herald innovative grassroots nonprofit organizations and civic initiatives.

The Advisory Council will continue to highlight innovation organizations and civic initiatives at quarterly meetings, local events, state conferences, through the Champion of Hope Award provided at the annual Faith Symposium, and encourage submission of nominations for the Champions of Service Award provided by Volunteer Florida.
10. How best to eliminate unnecessary legislative, regulatory, and other bureaucratic barriers that impede effective faith-based and other community-based efforts to address social problems.

The Advisory Council will continue to seek comment and input from faith and community-based leaders and members on topics regarding legislative, regulatory and other bureaucratic barriers that may impede effective efforts to address social problems. The public comment portion of the Advisory Council meeting is specifically designed for feedback and perspectives to be shared in order to provide information to make necessary recommendations to eliminate such barriers. The Advisory Council will continue to work with state agency contacts and elected officials to eliminate barriers that may impede efforts to strengthen communities and families.

11. How best to monitor implementation of state policy affecting faith-based and other community-based organizations.

Through the collaboration and engagement of state agency liaisons, the Advisory Council will continue working to identify state policies that may affect the efforts of faith-based and other community-based organizations. The Advisory Council’s Legislative Workgroup will also seek to monitor implementation of such policies in order to make recommendations that can result in increased collaboration and coordination between faith-based, volunteer and community-based organizations and the state.

12. How best to ensure that the efforts of faith-based and other community-based organizations meet objective criteria for performance and accountability.

The Advisory Council will continue to make itself available to assist faith-based and community-based organizations and work with state agency liaisons and staff to provide technical assistance and training to meet objective criteria for performance and accountability.
