Together we can ensure that Florida's children are raised in
healthy, safe, stable and nurturing family environments.

OVERVIEW OF THE PLAN – MAJOR HEADINGS AND COMPONENT PARTS

The format of the local circuit plan will follow the outline provided in this document. The major headings for this outline include:

Part 1 Introduction to the Plan

- I. Circuit transmittal information
- II. Process used to develop the plan and plan update

Part 2 Plan for the Prevention of Abuse, Abandonment, and Neglect of Children

Definitions: Two types of prevention of abuse, abandonment, and neglect (child maltreatment) of children are to be addressed in this plan:

- Primary prevention – Accessible by the general public in order to prevent child abuse, abandonment, and neglect from occurring.
- Secondary prevention – Geared to families who are vulnerable and at risk of maltreating their children in order to prevent child abuse, abandonment, and neglect from occurring.

The major sections of this prevention plan include:

- I. Status of child maltreatment (including the documentation of the magnitude of the problems of child abuse, including sexual abuse, physical abuse, and emotional abuse, as well as child abuse, abandonment, and neglect in the geographical area) §39.001(8)(b)6.a
- II. A continuum of programs necessary for a comprehensive approach to prevention of all types of child abuse, abandonment, and neglect (including brief descriptions of such programs and services) §39.001(8)(b)6.f
- III. Description of programs currently serving abused, abandoned, and neglected children and their families (including information on the impact, cost-effectiveness, and sources of funding) §39.001(8)(b)6.b
- IV. Description of programs for the prevention of child abuse, abandonment, and neglect (including information on the impact, cost-effectiveness, and sources of funding) §39.001(8)(b)6.b
- V. A description, documentation, and priority ranking of local needs related to the prevention of child abuse, abandonment, and neglect based upon the continuum of programs (see 2-II) and services (see 2-IV). §39.001(8)(b)6.g
- VI. A plan for steps to be taken in meeting identified needs, including the coordination and integration of services to avoid unnecessary duplication and cost, and for alternative funding strategies for meeting needs through the reallocation of existing resources, utilization of volunteers, contracting with local universities for services, and local government or private agency funding §39.001(8)(b)6.h
- VII. Plans for monitoring progress and for determining the results of the prevention efforts
- VIII. A description of barriers to the accomplishment of a comprehensive approach to the prevention of child abuse, abandonment, and neglect §39.001(8)(b)6.i
- IX. Recommendations for changes that can be accomplished only at the state program level or by legislative action. §39.001(8)(b)6.j

Part 3 Plan for the Promotion of Adoption

The major sections of this plan for the promotion of adoption include:

- I. Status of adoption (including information concerning the number of children within the child welfare system available for adoption who need child-specific adoption promotion efforts) §39.001(8)(b)6.c
- II. A continuum of programs necessary for a comprehensive approach to promotion of adoption (including brief descriptions of such programs and services) §39.001(8)(b)6.f

- III. Description of programs currently promoting adoption (including information on the impact, cost-effectiveness, and sources of funding) *§39.001(8)(b)6.d*
- IV. A description, documentation, and priority ranking of local needs related to the promotion of adoption based upon the continuum of programs (see 3-II) and services (see 3-III). *§39.001(8)(b)6.g*
- V. A plan for steps to be taken in meeting identified needs, including the coordination and integration of services to avoid unnecessary duplication and cost, and for alternative funding strategies for meeting needs through the reallocation of existing resources, utilization of volunteers, contracting with local universities for services, and local government or private agency funding *§39.001(8)(b)6.h*
- VI. Plans for monitoring progress and for determining the results of the adoption promotion efforts
- VII. A description of barriers to the accomplishment of a comprehensive approach to the promotion of adoption *§39.001(8)(b)6.i*
- VIII. Recommendations for changes that can be accomplished only at the state program level or by legislative action. *§39.001(8)(b)6.j*

Part 4 Plan for the Support of Adoptive Families

The major sections of this plan for the support of adoptive families include:

- I. Status of support of adoptive families (to be based upon such areas as the quantity and quality of adoptive parent support groups; quantity and accessibility of adoption competent mental health professionals; educational opportunities available for adoptive parents; and quantity of post adoption services counselors who provide information and referral, temporary case management for emotional support, and educational advocacy)
- II. Description of a comprehensive approach for providing post-adoption services (including information on sufficient and accessible parent and teen support groups; case management, information, and referral services; and educational advocacy) *§39.001(8)(b)6.e*
- III. Description of programs currently supporting adoptive families (including information on the impact, cost-effectiveness, and sources of funding) *§39.001(8)(b)6.d*
- IV. A description, documentation, and priority ranking of local needs related to the support of adoptive families based upon the comprehensive approach (see 4-II) and services (see 4-III). *§39.001(8)(b)6.g*
- V. A plan for steps to be taken in meeting identified needs, including the coordination and integration of services to avoid unnecessary duplication and cost, and for alternative funding strategies for meeting needs through the reallocation of existing resources, utilization of volunteers, contracting with local universities for services, and local government or private agency funding *§39.001(8)(b)6.h*
- VI. Plans for monitoring progress and for determining the results of efforts to support adoptive families
- VII. A description of barriers to the accomplishment of a comprehensive approach to the support of adoptive families *§39.001(8)(b)6.i*
- VII. Recommendations for changes that can be accomplished only at the state program level or by legislative action. *§39.001(8)(b)6.j*

Part 5 Attachments

- 1. Local Planning Team membership
- 2. Data related to the status of child maltreatment
- 3. Catalogue of programs providing primary prevention, secondary prevention, adoption promotion and adoption support by county
- 4. Data related to the status of adoptions
- 5. Monitoring Report Template

PART 1 – INTRODUCTION TO THE PLAN

I. CIRCUIT TRANSMITTAL INFORMATION

This Child Abuse Prevention and Permanency Plan: July 2010 – June 2015 is submitted on behalf of Circuit 2 of the Northwest Region of the Florida Department of Children and Families. Counties served in Circuit 2 include Leon, Gadsden, Jefferson, Wakulla, Franklin, and Liberty.

Local Planning Team Convener

Contact information for the convener of the Circuit 2 Local Planning Team is as follows:

Co-Convener

Traci Leavine

Operations Manager

Circuit 2

Florida Department of Children and Families

2383 Phillips Road

Tallahassee FL 32308-5333

Phone: 850.488.9217

Fax: 850.487.9469

Email: Traci_Leavine@dcf.state.fl.us

Co-Convener

Nicole Stookey

Community Relations Consultant

Circuit 2

Florida Department of Children and Families

Circuit Administrator

Paul Rowell, Interim Northwest Regional Director and

Circuit 2 Administrator

Signature

Signed May 28, 2010

II. PROCESS USED TO DEVELOP THE PLAN AND PLAN UPDATE

The Circuit 2 Prevention and Permanency Planning Team (Local Planning Team) was formed to address the need for a Circuit 2 plan, as required by §39.001, Florida Statutes, and the Governor's Office of Adoption and Child Protection. In addition to the local planning teams, the Governor's Office of Adoption and Child Protection has created a statewide Child Abuse Prevention and Permanency Advisory Council. This council will use the work of the local planning teams to develop a state plan for the prevention of abuse, abandonment, and neglect and for the promotion of adoption and support of adoptive families.

The Circuit 2 Plan details a five-year plan for the prevention of child abuse, abandonment, and neglect, a five-year plan for the promotion of adoption, and a five-year plan for the support of adoptive families. The Circuit plan will cover a five-year period beginning July 1, 2010 and ending June 30, 2015.

Traci Leavine, Circuit Operations Manager, and Nicole Stookey, Community Relations Consultant, both with the Florida Department of Children and Families, led the planning effort.

Narrative Description of Circuit 2 and Demographics of Counties in the Circuit

The Department of Children and Families Circuit 2, or Florida's Second Judicial Circuit, is comprised of six counties in the Florida Panhandle: Leon, Gadsden, Jefferson, Wakulla, Franklin, and Liberty counties, as shown in the map below.

The Second Judicial Circuit, with a total 2008 population estimate of over 376,000, spans a land area of 3,767 square miles in Florida's Big Bend Region. According to the 2000 Census population estimate for the year 2008, Leon County, by far, is the most highly populated county within Circuit 2 with a population estimate of 264,063, followed by Gadsden County with an estimated population of 47,560, Wakulla County with 31,089, Jefferson County with 14,547, Franklin County with 11,202, and Liberty County with 7,957¹.

The 2008 estimated percent of population under five years old for each county is as follows: 6.1% Leon, 7.5% Gadsden, 5.4% Jefferson, 5.6% Wakulla, 5.3% Franklin, 6.5% Liberty, with a Circuit average of 6.1%, compared with a 6.2% average for Florida.

In Leon County, 64.4% of persons are white, 31.3% black, and 4.6% Hispanic or Latino. In Gadsden County, 43.3% of persons are white, 55.2% black, and 9% Hispanic/Latino. In Jefferson County, 63.6% white, 34.6% black, and 3.5% Hispanic/Latino. In Wakulla County, 84.4% persons are white, 13.5% are black, and 3.1% Hispanic/Latino. In Franklin County, 81.1% are white, 16.6% black, and 2.3% Hispanic/Latino. In Liberty County, 78.3% of persons are white, 18.7% are lack, and 6.2% are of Hispanic or Latino origin.

Statewide, 12.1% of persons were living below poverty in 2007. According to the data, the Circuit 2 poverty level is considerably higher at 18.1%. Only one Circuit 2 County, Wakulla, has a rate lower than the state's at 11.3% of persons below poverty. Gadsden County's rate of poverty is highest at 25.4%, followed by Franklin at 18.6%, Liberty at 18.4%, Jefferson at 17.8%, and Leon at 17.0%.

According to a December 21, 2009 Tallahassee Democrat online article¹, the U.S. Census Bureau reported that the state average of children ages 5 to 17 living in poverty in 2008 was 16.7 percent. In Leon County Schools, 5,896 out of the 37,807 students live in poverty; 15.5 percent of students. In Wakulla County, 15.6 percent; Jefferson County, 20.7 percent; Franklin County, 27.7 percent; and Gadsden County, 29.2 percent of students.

Leon County has a high level of education attainment measured both in terms of percent of persons age 25+ that are high school graduates (89.1%) and the percent of persons age 25+ with a bachelor's degree or higher (41.7%). All outlying counties are lower than the statewide averages of 79.9% and 22.3%, respectively.

Membership of the Planning Team

Professionals from a cross-section of the child health and safety field, as outlined in §39.001(8)(a), F.S., were invited to participate in the development of the plan. The Planning Team was comprised of professionals from state and local agencies and organizations, including the community-based care lead agency; community mental health centers; the circuit court; the Guardian ad Litem program; the child protection team; private or public programs with expertise in working with children and/or with families of children who are abused, abandoned or neglected; programs with expertise in maternal and infant health care; and other community agencies working to support children and families. Additional persons representing community agencies, organizations and business were also invited to participate. A complete listing of the Circuit 2 Local Planning Team membership is included as Attachment 1.

Overview of Meetings Held and Overview of the Plan Development Process

Initial informational and planning meetings were held with members of Big Bend Community Based Care and the Department of Children and Families to prepare for the process of the plan development and of the overall Local Planning Team. Preliminary Local Planning Team information, including the scope of work, the current Eighteen (18)-Month Plan for the Promotion of Adoption and Support of Adoptive Families and Eighteen (18)-Month Plan Update to the existing Five (5)-Year Plan on the Prevention of Abuse, Abandonment and Neglect of Children (2005 – 2010), and the latest monitoring report to the current plan was distributed to Local Planning Team members via email for review prior to the first meeting.

¹ <http://www.tallahassee.com/article/20091221/NEWS01/912210314/Students-cope-with-poverty>

Traci Leavine and Nicole Stookey, both with the Florida Department of Children and Families Circuit 2, and Pam East of Big Bend Community Based Care, convened the Local Planning Team on December 2, 2009 in Tallahassee. During the meeting, Local Planning Team members were given an overview of the current Eighteen (18)-Month Plan for the Promotion of Adoption and Support of Adoptive Families and Eighteen (18)-Month Plan Update to the existing Five (5)-Year Plan on the Prevention of Abuse, Abandonment and Neglect of Children (2005 – 2010). Members were also presented an overview of the state-level Florida Child Abuse Prevention and Permanency Plan: January 2008 through June 2010, with a particular emphasis on the state prevention and adoption goals. The Local Planning Team reviewed Circuit and County-level data provided by the State through the Governor's Office of Adoption and Child Protection.

Local Planning Team members with expertise in prevention programs briefly presented their respective agencies' programs and services. Also presented was information related to local adoption promotion and recruitment activities and the adoption services available throughout the Circuit. During this meeting, to move forward in the development of the plan, Local Planning Team members tasked the conveners with going into the communities served by agencies in Circuit 2 to assess their current needs and activities in order to develop the prevention component of the plan.

A smaller Data Workgroup of the Local Planning Team was convened on December 15, 2009. The Data Workgroup reviewed and analyzed Circuit and County-level maltreatment and adoptions data. Related to maltreatments, the group focused on the types of maltreatment and where maltreatment is occurring, the arrays of the allegations of verified abuse, the demographics of both the children involved and the perpetrators, and the array of recommendations for services. The group discussed the setting of Circuit- and County-level maltreatment rate goals. Related to adoption, the Data Workgroup reviewed prior year's results in terms of adoptions finalizations and timeliness. The group also discussed the status of children currently in need of adoptive homes. The Workgroup also deliberated on the setting of goals related to adoption promotion and the support of adoptive families. A discussion on local needs also ensued. The results of this discussion led to the development of the sections of the plan that require the Circuit to report on the status of maltreatment, the status of adoption, and the status of the support of adoptive families.

As indicated above, the Local Planning Team members tasked the conveners with presenting to the communities which are served by agencies within Circuit 2 the State's charge to the Local Planning Team of developing this five-year plan by assessing their current needs and activities and using that feedback to develop the plan. Given that task, the Operations Manager, Operational Program Administrators, and Community Relations Consultant, either together or individually, went forth into the communities to gain input at various community forums. Those forums include but are not limited to Franklin County Youth Coalition on December 10, 2009, Whole Child Leon on December 21, 2009 and also on January 25, 2010, Jefferson County Shared Services Council on January 26, 2010, Liberty County Children's Coalition on December 10, and Wakulla County Children's Coalition. During those sessions, the communities were given an overview of the current plan, current needs and activities were discussed, barriers were identified, and that information was later incorporated into the plan components.

An Adoptions Workgroup was formed and convened on January 6, 2010 and again on January 12, 2010. The Workgroup, comprised of adoptions and permanency experts, focused on the needs related to the promotion of adoption and the needs related to the support of adoptive families, as well as the development of the action plans for each of those components. Additional information and planning efforts were conducted via email.

Draft objectives and actions for the prevention of maltreatment were developed out of the Local Planning Team's discussions, as well as out of the input gained at the various community forums. Draft strategies, objectives and actions for the promotion of adoption and for the support of adoptive families were developed by the Adoptions Workgroup. Local Healthy Families programs convened to workshop a prevention strategy specifically related to Healthy Families Florida. An educational consultant with a specialization in strategic planning, Bonnie Marmor, assisted the conveners in the further refinement of the wording of the draft action plans and in making the draft action plans measurable. The Local Planning Team was reconvened on February 15, 2010 to review and finalize the draft action plans prior to the due date to the Governor's Office of Adoption and Child Protection on February 19, 2010.

The Governor's Office of Adoption and Child Protection returned the feedback from the members of the Child Abuse Prevention and Permanency (CAPP) Advisory Council on April 7, 2010 for the prevention plan and on April 15, 2010 for the promotion of adoption and support of adoptive families plans. The feedback was reviewed by the conveners and members of the Local Planning Team and considered for incorporation into the final circuit-level plan. The catalogue of services in Attachment 3 was provided to the Circuit on May 17, 2010 and incorporated in its entirety to complete the requirements of the plan. The final plan was submitted to the Governor's Office of Adoption and Child Protection on May 28, 2010.

PART 2 – PLAN FOR THE PREVENTION OF ABUSE, ABANDONMENT, AND NEGLECT OF CHILDREN

I. STATUS OF CHILD MALTREATMENT

Status of child maltreatment (including the documentation of the magnitude of the problems of child abuse, including sexual abuse, physical abuse, and emotional abuse, as well as child abuse, abandonment, and neglect in the geographical area) §39.001(8)(b)6.a

The Circuit 2 Local Planning Team was provided multiple data sets by the Governor's Office of Adoption and Child Protection related to the child population and the status of child maltreatment. The Local Planning Team reviewed the data for Circuit 2 overall and for each of its six counties: Leon, Gadsden, Wakulla, Jefferson, Franklin, and Liberty counties. The maltreatment-related data can be found in Attachment 2 of this report.

It is significant to note that from Fiscal Year 2007-08 to Fiscal Year 2008-09, the maltreatment rates have shown a decrease throughout the Circuit and in each of the counties. The highest rates of maltreatment are still occurring in Liberty and Wakulla Counties. In Liberty County, the rate of maltreatment per 1,000 is 26.9, and in Wakulla, it is 18.1, compared with the statewide average of 11.1 per 1,000.

In Gadsden County, the maltreatment rate in Fiscal Year 2008-2009 was 3.2 per 1,000, a reduction of 4.7 from the FY07-08 maltreatment rate of 7.9 per 1,000. The lowest rate of maltreatment throughout the Circuit is occurring in Gadsden County. According to the Program Administrator, the rate of maltreatment was reduced due to a significant decrease in the number of reports to the Florida Abuse Hotline. This reduction in the reporting rate may be attributable in part to the Family Intervention Team (FIT) Program, which was implemented in March 2008 and later enhanced by DISC Village, and to the provision of additional prevention services. It may also indicate the need for additional mandated reporter training to law enforcement, schools, and medical professionals. Family violence and substance misuse maltreatments are high in Gadsden County. An assessment tool is being developed for family violence cases to include keeping families together safely when possible. There is also a need to identify sexual abuse counselors and a child psychiatrist(s) for children's mental health issues. The visibility of home-visitation programs has increased throughout the County, and the Healthy Start Coalition is currently being reestablished. Overall, the provision of services has increased in Gadsden County. There have been improvements in the education system, which may have an indirect affect on maltreatment (possibly due to increased parental involvement). In 2007, Governor Crist requested that his Executive Branch agencies concentrate efforts to the area, which has focused many efforts on Gadsden County.

Liberty County has the highest maltreatment rate of the six counties within Circuit 2 at 26.9 per 1,000. The 2007-2008 maltreatment rate was 28.0 per 1,000. According to the Program Administrator, this high maltreatment rate could be skewed due to the very low overall population within Liberty County (approximately 6,000). Also in Liberty County is the Apalachicola Forest Youth Academy, a Department of Juvenile Justice facility, which generates a fair amount of reports. However, the number of verified reports may not have statistical significance on the maltreatment rate. There is a need to focus on substance misuse, environmental hazards, and threatened harm as maltreatments. It is important to note that hazardous conditions and threatened harm are associated to substance misuse in the County. Crystal meth labs/house arrests contributed to these maltreatments. The Florida Department of Law Enforcement (FDLE) is developing crystal meth training to conduct for law enforcement, the

Department of Children and Families, and other partners in the surrounding counties and will be offered to professionals in other areas.

Franklin County's maltreatment rate per 1,000 was 11.9 in Fiscal Year 2008-2009, a reduction from the Fiscal Year 2007-2008 rate of 13.8. When looking at verified counts of maltreatment, seven out of 30 victims were verified for substance misuse. Eleven victims out of 30 were verified for family violence. It is important to note that there is no domestic violence facility in Franklin County, and therefore, victims must travel to Wakulla County (with limited services), to Tallahassee, or to Panama City. An assessment tool is being developed for Family Violence cases to include keeping families together safely when possible. According to the Program Administrator, there is a need for family violence counselors and substance abuse (alcohol, pharmaceuticals, methadone, street drugs) counselors and therapists. Family violence and substance misuse attribute to the maltreatment of inadequate supervision. The community is working with provider DISC Village to secure more substance abuse providers. In general, prevention programs should be expanded; however, Head Start Franklin did report that funding for two additional classes for the county has been approved. Franklin County received a "Fatherhood Grant" for any age of the father in the county. This grant offers fathers the ability to obtain their GED and provides parenting courses and other services.

The maltreatment rate per 1,000 is 18.1 in Wakulla County for Fiscal Year 2008-2009, a reduction from the previous year's rate of 20.0 per 1,000. There is a need to focus on family violence and substance misuse maltreatments in the County. An assessment tool is being developed for family violence cases to include keeping families together safely when possible. It is important here to continue to work with the Family Intervention Team (FIT) – DISC Village and Apalachee Center services to identify additional substance abuse counselors and services for Wakulla County.

The Leon County maltreatment rate in Fiscal Year 2008-2009 is 12.4 per 1,000. The rate of maltreatment was reduced from Fiscal Year 2007-2008 by 2.2 per 1,000, which mirrors the statewide reduction. Substance abuse and domestic violence are the two most frequently reported maltreatments in Leon County. Continued efforts to provide in-home substance abuse and domestic violence services shall remain primary.

In Jefferson County, the maltreatment rate was 10.6 per 1,000 in Fiscal Year 2008-2009, compared with a Fiscal Year 2007-2008 rate of 15.1. In Jefferson County, the most frequently reported maltreatment types are substance abuse and domestic violence. Continued efforts to provide in-home substance abuse and domestic violence services shall remain primary. There is concern for the dwindling number of service providers willing to work in Jefferson County. This may be related, in part, to the restructuring of the Department of Children and Families. Madison and Taylor counties, once served by this service area of former District 2, were shifted into Florida's 3rd Judicial Circuit. Despite the loss of some resources, there is a strong county alliance in Jefferson County that provides support and resources, especially through the Healthy Families Program. Efforts to utilize this group as a resource will continue, as well as efforts to utilize Whole Child Jefferson as a resource.

The highest rate of verified maltreatments within Circuit 2 involve incidents of domestic violence and substance misuse. Circuit 2 has created and/or implemented the following programs to address domestic violence and substance misuse.

The Family Intervention Team (FIT) is an intensive, in-home crisis stabilization and intervention service with immediate response capabilities within every county in Circuit 2. This program

allows Child Protective Investigators to readily access crisis services, which provide on-site response within a short period of time. With this program, child protective investigators have improved resources at their disposal that allow them to keep children safely in their own homes. This program addresses the most frequent reoccurring maltreatments in Circuit 2: Substance Abuse, Domestic Violence, and Physical Abuse, as well as concerns regarding mental health issues. Partners include DISC Village, Apalachee Center, and Children's Home Society's Family Preservation Program.

The Department of Children and Families, Circuit 2 has partnered with Apalachee Center to create the Intensive Family Intervention Team (IFIT). This program provides intensive in-home services (up to 20 hours a week) to victims of domestic violence and their families who may also have mental health and substance abuse issues. This program is currently being piloted in Leon County with plans to expand to all within Circuit 2.

Circuit 2 Department of Children and Families is contracting with domestic violence expert David Mandel to create subject matter experts in every unit of child protective investigations using the Safe and Together Model. This initiative will increase Circuit 2's capacity to address domestic violence. Child protective investigators will receive advanced training in working with perpetrators and survivors in the area of domestic violence.

When looking at the demographic detail of the alleged victims for reports received during Fiscal Year 2008-2009, 52.8% of alleged victims are black, and about half of victims are female and roughly half are male. 38.5 percent of alleged victims are between the age of 0-4, 21.5% between the ages of 5-8, and 39.6% are 9-17 years of age.

Children under the age of five are the largest group of children coming in contact with the child welfare system. Between June 1, 2008 through May 31, 2009, 47% of verified victims of maltreatment were age four or younger. This is obviously the most vulnerable age group. Victims under the age of one, by far, are the most vulnerable population.

When looking at the demographics of alleged perpetrators received by intake county during Fiscal Year 2008-2009, the demographics of the alleged perpetrators mirrors the general composition of the adult population within the Circuit. Of the alleged perpetrators, 65.6% are white, 26.5% black, and 7.9% are classified as "other". The majority of the alleged perpetrators are females over the age of 26; however, a significant number of alleged perpetrators are young (or age 25 and under).

Circuit 2 recommends a wide array of services at disposition for alleged victims. The most common in order of referral are case management services, child counseling services, day care services, substance abuse services, "other" services, family preservation, mental health, Interstate Compact for Placement of Children, legal services, foster care, family support services, pregnancy and parenting courses for young parents, employment services, housing services, education and training, home-based services, and so on.

II. CONTINUA OF PRIMARY AND SECONDARY PREVENTION PROGRAMS

A continuum of programs necessary for a comprehensive approach to prevention of all types of child abuse, abandonment, and neglect (including brief descriptions of such programs and services) §39.001(8)(b)6.f

It is the intent of this planning effort to prevent child abuse, abandonment, and neglect before it ever occurs. Thus, for the purpose of this prevention plan, the continuum of programs (necessary for a comprehensive approach to prevention of all types of child abuse, abandonment, and neglect) focuses on the first two of the three levels of prevention and prevention-focused strategies:

Primary using Universal Strategies	Secondary using Selected Strategies	Tertiary using Indicated Strategies
Primary prevention is geared to the general public to prevent child maltreatment from ever occurring. Universal strategies are accessible to anyone with the goal of preventing child maltreatment from ever occurring in the first place.	Secondary prevention is geared to communities and families who are vulnerable and at risk of child maltreatment (e.g., have multiple risk factors – parent age, poverty, substance abuse, domestic violence, maternal depression). Targeted strategies assist these vulnerable groups with the goal of preventing child maltreatment from ever occurring in the first place.	Tertiary prevention consists of activities targeted to families that have confirmed or unconfirmed child abuse and neglect reports. These families have already demonstrated the need for intervention, either with or without court supervision. These are families that qualify for services under child welfare programs. These are families where there is an open case.

II.A. CONTINUUM OF PRIMARY/UNIVERSAL PREVENTION PROGRAMS AND SERVICES Accessible by the general public prior to the occurrence of child abuse and neglect

Community Development – Community capacity building, community partnerships, etc.

Community Support for Families – Family resource centers, community events and fairs, etc.

Family Supportive Programs/Services – Voluntary home visiting; developmental screening; affordable, accessible quality childcare; before and after school programs; recreational activities; parent support groups; parent education classes; marriage and relationship counseling and support services; etc.

Information and Referral and Helplines – Access to information about community and social services available for families including early health and development services, etc.

Public Awareness and Education Campaigns – Highlighting risk/protective factors, child development, positive parenting, child safety, domestic violence and substance abuse prevention, bullying prevention, etc.

Workforce – Family-friendly workplace policies, livable wage policies, etc.

II.B. CONTINUUM OF SECONDARY/SELECTED PREVENTION PROGRAMS AND SERVICES *Targeted to families with multiple risk factors prior to the occurrence of child Abuse and Neglect*

Adult Education – High School Diploma, GED, job training, ESL classes, mentoring for high-risk youth, etc.

Community Development – Community building, community partnerships, etc.

Community Support for Families – Food banks, clothing banks, housing assistance, transportation, emergency assistance, food stamps, quality childcare, etc.

Concrete Services – Referrals for (or provision of) clothing, food, utility payments, housing assistance, transportation, emergency assistance, respite care, etc.

Family Supportive Programs/Services – Voluntary home visiting (e.g., for families that meet Healthy Families Florida and Healthy Start criteria), parent education classes, teen parenting services, parent self-help support groups, domestic violence supports, substance abuse and mental health services, respite care (including families with disabilities), counseling for adults and children, developmental assessments, etc.

Workforce – Family-friendly workplace policies and livable wage policies, etc.

II.C. FLORIDA'S ECOLOGICAL FRAMEWORK

Florida's ecological framework serves to organize the potential influence and impact of prevention strategies and is based on the following assumptions:

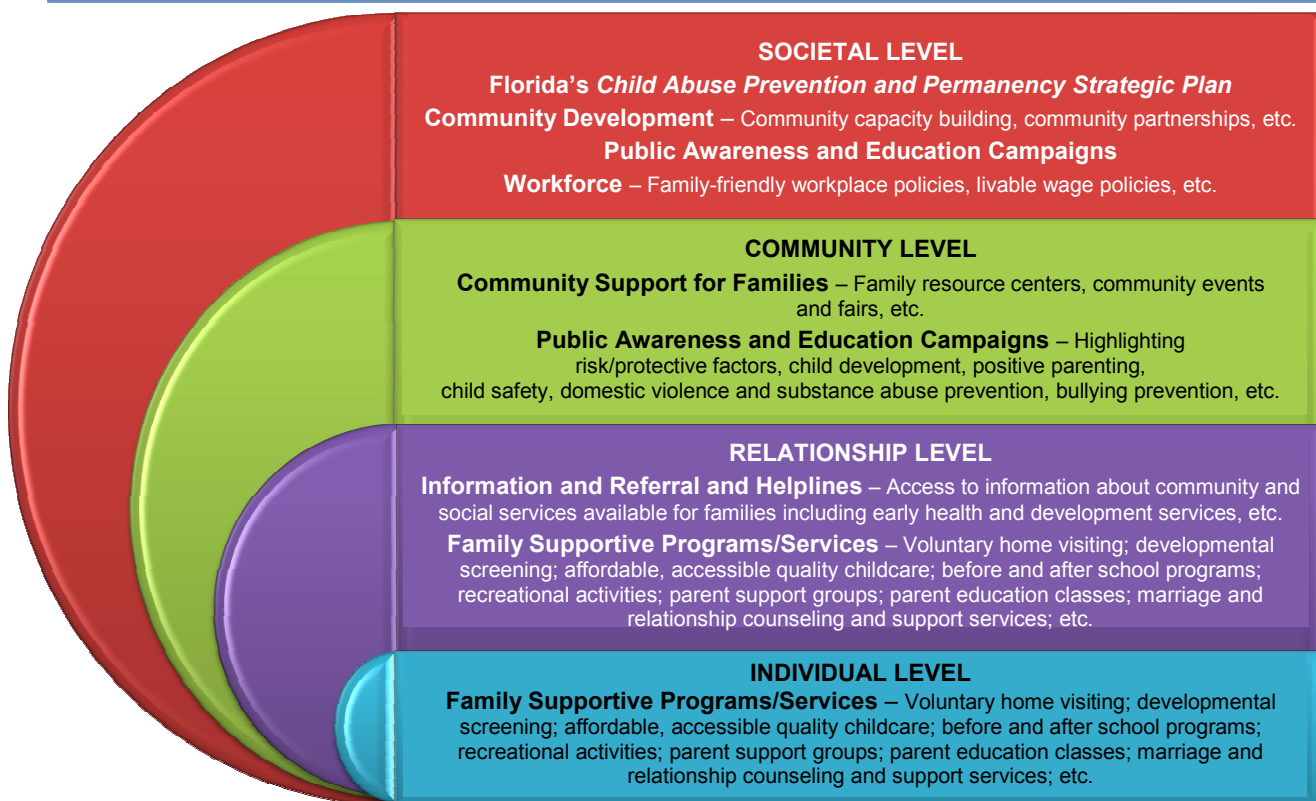

- Children and families exist as part of an ecological system. This means that prevention strategies must target interventions at multiple levels: the individual, the relationship, the community, and society.
- Primary responsibility for the development and well-being of children lies within the family, and all segments of society must support families as they raise their children.
- Assuring the well-being of all families is the cornerstone of a healthy society and requires universal access to support programs and services.

It comprises four levels of influence:

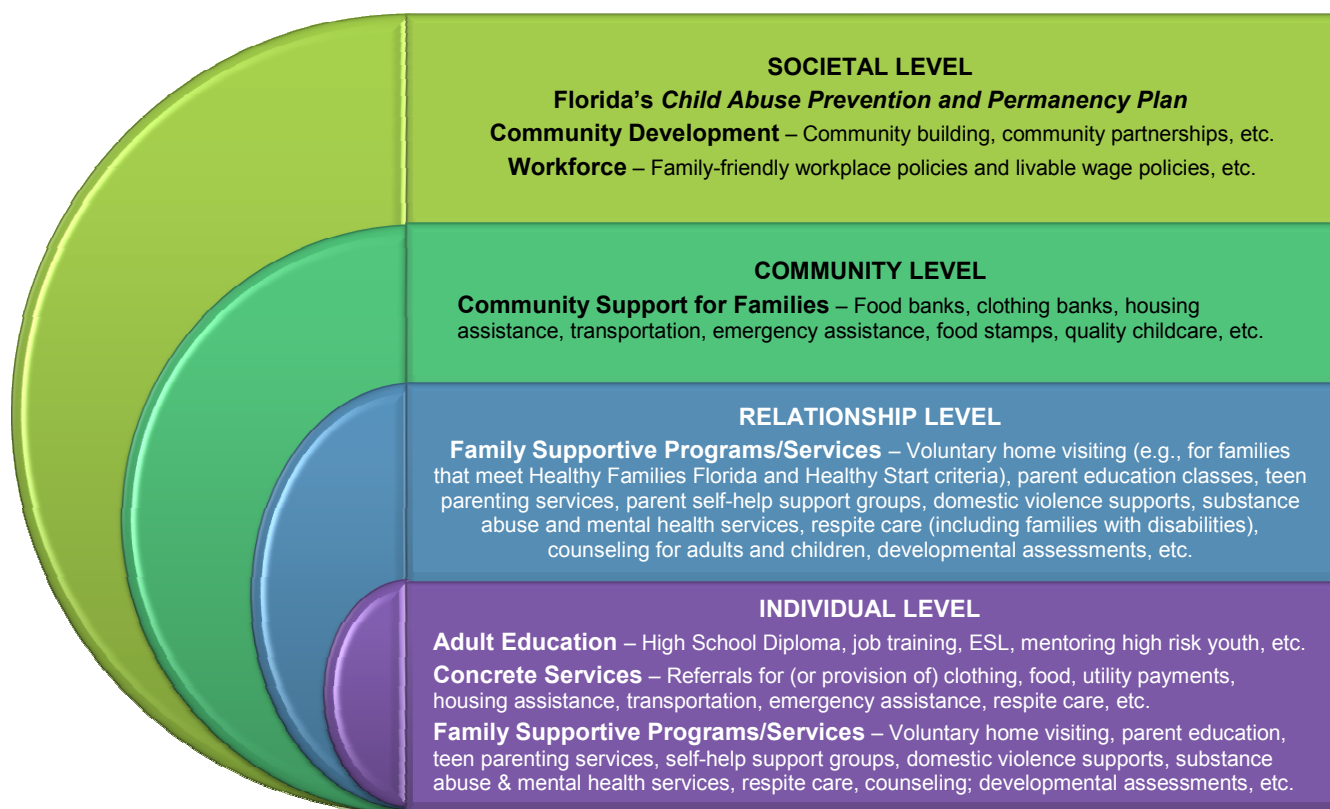

1. **Individual level:** At this level are **parent and child characteristics** – emotional and psychological characteristics, temperament, behavior, problem-solving skills, health conditions, and beliefs – that can affect the rearing of children. Interventions at this level are often designed to affect an individual's social skills, cognitive skills, behavior and immediate circumstances.
2. **Relationship level: Interpersonal relationships** with peers, intimate partners, and family members shape an individual's behavior and range of experiences. This level contains factors such as family size, cohesion, communication, support, conflict, and stability that directly affect the child and influence the way in which adults care for children and each other. Interventions at this level are often designed to improve a person's ability to engage in positive and constructive relationships, especially within the immediate family.

3. **Community level:** Families operate within **neighborhoods and communities**. Factors that characterize this level include availability of supports (governmental and community), stability, violence, poverty, disorganization, and isolation; all affect the ability of families and communities to nurture their children. Interventions at the community level are typically designed to impact the climate, systems and policies in a given (usually geographic) setting.
4. **Societal level:** The **larger culture** in which families operate and children are raised plays a significant role in how families care for their young. Religious or cultural belief systems, values such as self-reliance and family privacy, and the cultural acceptance of media violence and corporal punishment of children affect the way in which parents raise their children and the ways in which communities support families. Interventions at the societal level typically involve collaborations of multiple partners to change laws and policies as well as to determine and influence societal norms and harmful cultural belief systems.

Florida's Socio-Ecological Continuum of Primary/Universal Prevention Strategies
Accessible by the General Public Prior to the Occurrence of Child Abuse and Neglect

Socio-Ecological Continuum of Secondary/Selected Prevention Strategies
Targeted to Families with Multiple Risk Factors Prior to the Occurrence of Child Abuse and Neglect

III. PROGRAMS CURRENTLY SERVING CHILDREN WHO HAVE BEEN MALTREATED

Description of programs currently serving abused, abandoned, and neglected children and their families (including information on the impact, cost-effectiveness, and sources of funding)
 §39.001(8)(b)6.b

These data have been collected and reported as a part of the Florida Child Abuse Prevention and Permanency Plan: January 2009 – June 2010 and have been updated within Florida's Child and Family Services Plan as submitted in June 2009.

IV. CHILD MALTREATMENT PREVENTION PROGRAMS

Description of programs for the prevention of child abuse, abandonment, and neglect (including information on the impact, cost-effectiveness, and sources of funding) §39.001(8)(b)6.b

IV.A. PRIMARY/UNIVERSAL PREVENTION STRATEGIES – PROGRAMS ACCESSIBLE BY THE GENERAL PUBLIC PRIOR TO THE OCCURRENCE OF CHILD ABUSE AND NEGLECT

Note: Primary prevention is geared to the general public to prevent child maltreatment from ever occurring. Universal strategies are accessible to anyone with the goal of preventing child maltreatment from ever occurring in the first place.

Please refer to Attachment 3A for a complete listing of primary/universal prevention strategies or programs that are accessible by the general public prior to the occurrence of child abuse and neglect showing the following information:

- Name of program
- Description
- Counties served by the program
- Frequency of provision/availability
- Impact Information
- Most recent cost-effectiveness data
- Sources of funding
- Language

IV.B. SECONDARY/SELECTED PREVENTION STRATEGIES – PROGRAMS TARGETED TO FAMILIES WITH MULTIPLE RISK FACTORS FOR CHILD ABUSE PRIOR TO THE OCCURRENCE OF CHILD ABUSE AND NEGLECT

Note: Secondary prevention is geared to communities and families who are vulnerable and at risk of child maltreatment (e.g., have multiple risk factors – parent age, poverty, substance abuse, domestic violence, maternal depression). Targeted strategies assist these vulnerable groups with the goal of preventing child maltreatment from ever occurring in the first place.

Please refer to Attachment 3B for a complete listing of secondary/selected prevention strategies or programs targeted to families with multiple risk factors for child abuse prior to the occurrence of child abuse and neglect showing the following information:

- Name of program
- Description
- Counties served by the program
- Frequency of provision/availability
- Impact Information
- Most recent cost-effectiveness data
- Sources of funding
- Language

V. PLAN PRIORITIES

A description, documentation, and priority ranking of local needs related to the prevention of child abuse, abandonment, and neglect based upon the continuum of programs and services. §39.001(8)(b)6.g

Priority Ranking of County-Level Needs Related to the Primary and Secondary Prevention of Child Abuse, abandonment, and neglect

County: Leon, Gadsden, Wakulla, Jefferson, Franklin, and Liberty

Priority	County-Level Need with Description	Level of Prevention Intervention Necessary to Address the Need <ul style="list-style-type: none">○ Primary (Universal Strategies)○ Secondary (Selected Strategies)	Protective Factors that Should be Built/Supported when Meeting this Need <ul style="list-style-type: none">○ Parental Emotional Resilience○ Social Connections○ Knowledge of Parenting and Child Development○ Concrete Support in Times of Need○ Nurturing and Attachment
1	Reduce the rate of abuse and neglect for families with young children and families with teens	Primary Secondary	Concrete support in times of need Social Connections Parental Emotional Resilience Nurturing and Attachment Knowledge of Parenting and Child Development

County: Gadsden, Wakulla, Leon, Jefferson, Franklin

Priority	County-Level Need with Description	Level of Prevention Intervention Necessary to Address the Need <ul style="list-style-type: none">○ Primary (Universal Strategies)○ Secondary (Selected Strategies)	Protective Factors that Should be Built/Supported when Meeting this Need <ul style="list-style-type: none">○ Parental Emotional Resilience○ Social Connections○ Knowledge of Parenting and Child Development○ Concrete Support in Times of Need○ Nurturing and Attachment
2	Reduce the rate of maltreatments related to family violence	Primary Secondary	Concrete support in times of need Social Connections Parental Emotional Resilience Nurturing and Attachment Knowledge of Parenting and Child Development

County: Liberty, Wakulla, Leon, Jefferson, Franklin

Priority	County-Level Need with Description	Level of Prevention Intervention Necessary to Address the Need <ul style="list-style-type: none"> ○ Primary (Universal Strategies) ○ Secondary (Selected Strategies) 	Protective Factors that Should be Built/Supported when Meeting this Need <ul style="list-style-type: none"> ○ Parental Emotional Resilience ○ Social Connections ○ Knowledge of Parenting and Child Development ○ Concrete Support in Times of Need ○ Nurturing and Attachment
3	Reduce the rate of maltreatments related to substance abuse	Primary Secondary	Concrete support in times of need Social Connections Parental Emotional Resilience Nurturing and Attachment Knowledge of Parenting and Child Development

VI. PLAN OF ACTION FOR THE PREVENTION OF CHILD ABUSE, ABANDONMENT, AND NEGLECT

A plan for steps to be taken in meeting identified needs, including the coordination and integration of services to avoid unnecessary duplication and cost, and for alternative funding strategies for meeting needs through the reallocation of existing resources, utilization of volunteers, contracting with local universities for services, and local government or private agency funding §39.001(8)(b)6.h

Vision

Florida's highest priority is that children are raised in healthy, safe, stable, and nurturing families.

Mission

To serve as a blueprint that will be implemented to provide for the care, safety, and protection of all of Florida's children in an environment that fosters healthy social, emotional, intellectual, and physical development.

Outcome

All families and communities ensure that children are safe and nurtured and live in stable environments that promote well-being.

Circuit Goal 1

Children and teenagers are free from abuse, abandonment, and neglect as measured by a reduction in the circuit-level child abuse rate from the fiscal year 2008-09 of 11.7 to a rate of 9.9 per 1,000 children by 30 June 2015.

Leon County Goal 1.1

Children and teenagers are free from abuse, abandonment, and neglect as measured by a reduction in the county-level child abuse rate from the fiscal year 2008-09 of 12.4 to a rate of 11.4 per 1,000 children by 30 June 2015.

Gadsden County Goal 1.2

Children and teenagers are free from abuse, abandonment, and neglect measured by a reduction in the county-level child abuse rate from the fiscal year 2008-09 of 3.2 to a rate of 2.2 per 1,000 children by 30 June 2015.

Jefferson County Goal 1.3

Children and teenagers are free from abuse, abandonment, and neglect as measured by a reduction in the county-level child abuse rate from the fiscal year 2008-09 of 10.6 to a rate of 9.6 per 1,000 children by 30 June 2015.

Wakulla County Goal 1.4

Children and teenagers are free from abuse, abandonment, and neglect as measured by a reduction in the county-level child abuse rate from the fiscal year 2008-09 of *18.1* to a rate of *16.1* per 1,000 children by 30 June 2015.

Franklin County Goal 1.5

Children and teenagers are free from abuse, abandonment, and neglect as measured by a reduction in the county-level child abuse rate from the fiscal year 2008-09 of *11.9* to a rate of *9.9* per 1,000 children by 30 June 2015.

Liberty County Goal 1.6

Children and teenagers are free from abuse, abandonment, and neglect as measured by a reduction in the county-level child abuse rate from the fiscal year 2008-09 of *26.9* to a rate of *22.9* per 1,000 children by 30 June 2015.

Strategy 1

By 30 June 2015, Circuit 2 will fully implement a family strengthening initiative throughout all counties in Circuit 2.

Priority Level: 1	Priority Need: Reduce the rate of abuse and neglect for families with young children and families with teens	
A. Level of Prevention addressed by this Strategy: <ul style="list-style-type: none"><input checked="" type="checkbox"/> Primary Prevention/Universal Strategies (<i>Complete D</i>)<input checked="" type="checkbox"/> Secondary Prevention/Selected Strategies (<i>Complete E</i>) B. Objectives

Objective 1.1 Expand and strengthen the interconnectivity of local team-based systems for information and data sharing and early recognition and response activities in order to promote the five protective factors

Objective 1.2 Strengthen partnerships with prevention services providers through enhanced coordination and integration of services to build upon the five protective factors

Objective 1.3 Provide access to and knowledge of various resources, including community supports and social connections, available in the communities to community residents

Objective 1.4 Increase community outreach and media activities to raise public awareness of child abuse and child abuse prevention

Objective 1.5 Support and enhance activities related to the Whole Child communities within Circuit 2

Objective 1.6 Support Child Abuse Prevention activities during the nationally recognized month and year-round

Objective 1.1 Expand and strengthen the interconnectivity of local team-based systems for information and data sharing and early recognition and response activities in order to promote the five protective factors					
Action Steps	Measures/Benchmarks	Lead	Partners	Begin Date	End Date
Develop a county-level communication plan for sharing of information and data with specific steps for implementation	Collaborative group will meet twice a year	Big Bend Community Based Care and Department of Children and Families	Whole Child Coordinator Collaborative Group, Leon County School Board	<i>July 1, 2010</i>	<i>Ongoing</i>
Each community partner will agree to designate a communication liaison	A liaison has been identified and is actively participating	Collaborative Group	Big Bend Community Based Care, Department of Children and Families, Leon County School Board	<i>July 1, 2010</i>	<i>December 31, 2010</i>
Each county will develop a method for appointing a chairperson to call meetings, set agenda, develop minutes for distribution	Chairperson has been appointed; minutes will be distributed to Operations Administrator	Collaborative Group	Big Bend Community Based Care and Department of Children and Families	<i>December 31, 2010</i>	<i>Ongoing</i>
Continue to actively participate in and expand where possible community coalitions, advisory boards and councils	Ongoing participation in coalitions of each county	Department of Children and Families	Big Bend Community Based Care	<i>July 1, 2010</i>	<i>Ongoing</i>
Participate in Fetal and Infant Mortality Review Teams on an ongoing basis and share information for coordinated, comprehensive reviews to improve the local service delivery system	Participation in monthly meetings	Healthy Start Coalition	Department of Children and Families, Healthy Families, Tallahassee Memorial Healthcare, Gadsden County Healthy Start, Healthy Infant Coalition, providers of mother and infant services	<i>July 1, 2010</i>	<i>Ongoing</i>

Objective 1.2 Strengthen partnerships with prevention services providers through enhanced coordination and integration of services to build upon the five protective factors					
Action Steps	Measures/Benchmarks	Lead	Partners	Begin Date	End Date
Train new Department of Children and Families protective investigators and Big Bend Community Based Care Case Managers on the five protective factors	100% of new employees will be trained	Training Team, Department of Children and Families – Office of Family Safety	Department of Children and Families and Big Bend Community Based Care	<i>July 1, 2010</i>	<i>Ongoing</i>
Work collaboratively to address delinquency prevention through ongoing participation in the Challenge Group	Monthly meetings	Challenge Group Chair	DCF Substance Abuse and Mental Health, Circuit 2 Operations, Children's Legal Services, Big Bend Community Based Care , Agency for Health Care Administration, Agency for Person's with Disabilities, SIPP Representative, Leon County Schools, Circuit 2 Court Administration, Children's Medical Services, Capital City Youth Service, Department Juvenile Justice, Guardian Ad Litem Office, Apalachee Center	<i>July 1, 2010</i>	<i>Ongoing</i>
Provide educational opportunities to all circuit judges on delinquency and dependency-related services available throughout Circuit 2 and in each of the counties.	A services bazaar will be conducted at least annually	Department of Children and Families	Department of Juvenile Justice, Healthy Families circuit programs, Healthy Start Coalitions, Children's Legal Services, Circuit Court Administration	<i>August 1, 2010</i> <i>August 1, 2011</i> <i>August 1, 2012</i> <i>August 1, 2013</i> <i>August 1, 2014</i>	<i>April 1, 2011</i> <i>April 1, 2012</i> <i>April 1, 2013</i> <i>April 1, 2014</i> <i>April 1, 2015</i>
Develop and implement cross-training and educational opportunities to improve agency managers and frontline staffs' familiarity with protective services and other local services providers	Cross-training program has been implemented		Department of Children and Families, Big Bend Community Based Care, Healthy Families Florida programs, Healthy Start coalitions, School Boards	<i>January 1, 2011</i>	<i>Ongoing</i>

Through the Family Intervention Team (FIT) Program, increase the provision of in-home prevention services in all counties to address maltreatments such as substance abuse, domestic violence, mental health, and physical abuse	Reduction of children coming into care	Department of Children and Families	DISC Village, Apalachee Center, Children's Home Society	<i>July 1, 2010</i>	<i>Ongoing</i>
Strengthen partnerships to provide trainings for home care providers, foster parents, etc.	Provision of trainings	Department of Children and Families	Early Learning Coalition, Head Start and Early Head Start grantees, WFSU, and Whole Child Leon	<i>July 1, 2010</i>	<i>Ongoing</i>
Objective 1.3 Provide access to and knowledge of various resources, including community supports and social connections, available in the communities to community residents.					
Action Steps	Measures/Benchmarks	Lead	Partners	Begin Date	End Date
Provide information to parents on finding quality child care to better prepare children for entry into kindergarten	Provision of information	Department of Children and Families and Early Learning Coalition	Whole Child, School Boards	<i>July 1, 2010</i>	<i>Ongoing</i>
Increase participation in community health and resource fairs to present and promote services	Participation in community fairs	Department of Children and Families	Service providers	<i>July 1, 2010</i>	<i>Ongoing</i>
Utilize local information streams such as bulletin boards, word of mouth to provide information to the community about local resources and services	Information has been shared	All	Service providers	<i>July 1, 2010</i>	<i>Ongoing</i>
Increase partnerships with faith-based organizations, outreach ministries, ministerial associations, etc.	Partnerships have been created	Department of Children and Families, Whole Child Leon		<i>July 1, 2010</i>	<i>Ongoing</i>
Utilize partnerships with faith-based organizations, outreach ministries, ministerial associations, etc.	Knowledge and information has been shared with all stakeholders	Department of Children and Families, Whole Child Leon		<i>July 1, 2010</i>	<i>Ongoing</i>
Promote 2-1-1 of the Big Bend as an excellent resource for services available throughout the six counties and provide training to staff	Referrals have increased	2-1-1 of the Big Bend	Department of Children and Families	<i>July 1, 2010</i>	<i>Ongoing</i>

Implement the Circle of Parents™ support group to support foster parents, adoptive parents, and other parents in the community with a particular emphasis on the five protective factors	Circle of Parents™ is implemented	Tallahassee Adoptive and Foster Parent Association	Big Bend CBC, Boys Town, Department of Children and Families, Children's Home Society	<i>October 1, 2010</i>	<i>Ongoing</i>
Develop a partnership between the Heartland House and Head Start program	Partnership agreement formalized	Tallahassee Adoptive and Foster Parent Association partners	Head Start	<i>TBD</i>	<i>TBD</i>
Increase and maintain Florida KidCare enrollment in each of the six counties and continue outreach	Increase in enrollment	Department of Children and Families, Whole Child Leon, School Boards	Providers	<i>July 1, 2010</i>	<i>Ongoing</i>
Provide fathers the opportunity to receive parenting classes, their GED and other services through the Franklin County "Fatherhood Grant"	Fathers are referred to and enrolled in classes	Healthy Families Franklin	Franklin County Schools, other community partners, school boards	<i>July 1, 2010</i>	<i>Ongoing</i>
Objective 1.4 Increase community outreach and media activities to raise public awareness of child abuse and child abuse prevention					
Action Steps	Measures/Benchmarks	Lead	Partners	Begin Date	End Date
Develop or use existing public service announcements and other media opportunities focusing on primary risk factors, including but not limited to, child abuse and neglect, proper sleeping arrangements for infants, and the impacts of domestic violence on children	PSAs have aired twice annually	Department of children and Families, Big Bend Community Based Care, Whole Child Leon	Media Partners, Leon County School Board video, Leon County Schools, school boards	<i>October 1, 2010</i>	<i>June 30, 2015</i>
Increase visibility of the Parent Helpline at 1-800-FLA-LOVE, and increase visibility of the Early Learning Coalition's Parent Network to provide free parent training opportunities and information about child development	Public service announcement aired	Early Learning Coalition, Department of Children and Families, 2-1-1 Big Bend	Media Partners	<i>October 1, 2010</i>	<i>June 30, 2015</i>
Parent Helpline will develop a prevention page for parents that will include specific prevention and parenting tips	Web site is developed and linked with any other local prevention web pages	2-1-1 Big Bend	Big Bend Community Based Care	<i>July 1, 2010</i>	<i>June 30, 2015</i>
Partner with Leon County Schools to produce an educational video on at-risk children and children in the dependency system	Video is shared throughout the Circuit	Leon County Schools	Department of Children and Families	<i>July 1, 2010</i>	<i>August 1, 2010</i>

Objective 1.5 Support and enhance activities related to the Whole Child communities within Circuit 2					
Action Steps	Measures/Benchmarks	Lead	Partners	Begin Date	End Date
Encourage and increase provider participation in Whole Child Leon's Professional Network and the Whole Child Leon Action Teams	Increased participation by additional providers of service	Whole Child Leon Executive Director	Whole Child Partners, Department of Children and Families	<i>July 1, 2010</i>	<i>June 30, 2015</i>
Develop and support a Whole Child community in Wakulla County	Start up and implementation of Whole Child Community	Coordinator	Local and state-level organizations	<i>July 1, 2010</i>	<i>June 30, 2015</i>
Support the implementation of the Whole Child Connection in Gadsden County	Whole Child Connection is functional and in use by Gadsden County residents	Whole Child Gadsden Coordinator	Whole Child Gadsden Partners, Department of Children and Families	<i>July 1, 2010</i>	<i>June 30, 2011</i>
Support activities related to Whole Child Jefferson, Madison, and Taylor Counties	Department of Children and Families has an ongoing presence	Department of Children and Families	All partners	<i>July 1, 2010</i>	<i>Ongoing</i>
Objective 1.6 Support Child Abuse Prevention activities during the nationally recognized month and year-round					
Action Steps	Measures/Benchmarks	Lead	Partners	Begin Date	End Date
Through the services bazaar, link community services providers in an effort to educate on child abuse prevention activities and the five protective factors	A services bazaar will be conducted at least annually during Child Abuse Prevention Month	Department of Children and Families, Big Bend Community Based Care	Department of Juvenile Justice, Healthy Families circuit programs, Healthy Start Coalitions, Children's Legal Services, Circuit Court Administration, interested agencies, school boards	<i>August 1, 2010</i> <i>August 1, 2011</i> <i>August 1, 2012</i> <i>August 1, 2013</i> <i>August 1, 2014</i>	<i>April 1, 2011</i> <i>April 1, 2012</i> <i>April 1, 2013</i> <i>April 1, 2014</i> <i>April 1, 2015</i>
Distribute prevention materials and support the public awareness campaign of the national Pinwheels for Prevention Campaign during Child Abuse Prevention Month in April	Materials distributed	Big Bend Community Based Care, Department of Children and Families	School boards, all	<i>July 1, 2010</i>	<i>April 1, 2011</i> <i>April 1, 2012</i> <i>April 1, 2013</i> <i>April 1, 2014</i> <i>April 1, 2015</i>
Create a child abuse prevention page and post to Web site, link to existing webpages and social media sites; designate point of contact for adding information to website	Web site is operational and linked to information	Big Bend Community Based Care	Ounce of Prevention, Early Learning Coalition, 2-1-1 Big Bend, Whole Child Leon, Facebook, Twitter, You Tube	<i>July 1, 2010</i>	<i>June 30, 2012</i> <i>and updated on an ongoing basis</i>
Distribute prevention flyer to all parents of elementary school children	Flyer distributed	Big Bend Community Based	All County School Boards	<i>July 1, 2010</i>	<i>Ongoing</i>

Strategy 2

Circuit 2 will support the statewide efforts to increase the availability and capacity of Healthy Families Florida to provide home visitation for families at high risk of abuse and neglect and in need of parenting education and support over the five-year period from July 2010 – June 2015.

Priority Level: #1 –Franklin, Gadsden, Leon and Wakulla Counties	Priority Need: Provide free home visiting services to expectant mothers and families caring for newborns who are identified as at risk for child maltreatment

Obtain letters of support from community partners when grant opportunities arise.	100% of grant applications will include letters of support from community partners.	Healthy Families Gadsden, Leon and Franklin Wakulla	Any partner with whom there is a current MOA. Those mentioned in action steps above.	<i>July 1, 2010</i>	<i>On-going</i>

VII. MONITORING AND EVALUATION

Plans for monitoring progress and for determining the results of the prevention efforts.

VII.A. MONITORING PLAN IMPLEMENTATION

Circuit 2 will work directly with the leads of each action step to ensure ongoing implementation of the plan. Planning and implementing partners will be actively engaged on a regular basis to discuss efforts and to determine how action is taken as a continuous process. This will provide opportunities to determine and celebrate the producing of measurable improvement in the well-being of the circuit's communities and in the performance of the programs contributing to these results.

Partners who are tasked with implementation efforts complete their sections of the monitoring report template (see Attachment 5) and discuss progress with the Local Planning Team on a quarterly basis (or on some predetermined regular schedule). This information will then be submitted to the Department of Children and Families, Circuit 2, to be rolled up and submitted to the Executive Office of the Governor.

VII. B ANNUAL PROGRESS REPORTING

At quarterly or other regularly scheduled intervals, Local Planning Team members will meet to talk through the outline for the annual progress report. These meetings and discussions will occur along the timeframe as indicated below.

REPORTING AND PLANNING DEADLINES FROM JULY 2010 – JUNE 2015

Month	Year 1 2010-2011	Year 2 2011-2012	Year 3 2012-2013	Year 4 2013-2014	Year 5 2014-2015
July		FY 2010-2011 Annual Report (July – June) due to EOG	FY 2012-2013 Annual Report (July – June) due to EOG	FY 2013-2014 Annual Report (July – June) due to EOG	FY 2014-2015 Annual Report (July – June) due to EOG
August					
September					
October	3-Month (July – Sept.) Monitoring Report due to EOG	3-Month (July – Sept.) Monitoring Report due to EOG	3-Month (July – Sept.) Monitoring Report due to EOG	3-Month (July – Sept.) Monitoring Report due to EOG

April	6-Month (Nov. – March) Monitoring Report due to EOG	6-Month (Nov. – March) Monitoring Report due to EOG	6-Month (Nov. – March) Monitoring Report due to EOG	6-Month (Nov. – March) Monitoring Report due to EOG	
May					Final 5-year plan for 2015-2020 due to EOG
June					

VIII. BARRIERS

A description of barriers to the accomplishment of a comprehensive approach to the prevention of child abuse, abandonment, and neglect. §39.001(8)(b)6.i

- The Florida Abuse Hotline is now accepting more reports that would have previously been prevention referrals. This increase has an impact on the level of service, as well as a negative impact on public perception of the agency.
- Access to affordable, quality childcare is a barrier. Further cuts to budgets of Early Learning Coalitions mean that fewer children attain access to affordable, quality childcare.
- Statewide cuts to behavior analyst specialist program led to the local behavior analyst services being reduced.
- Funding for primary and secondary prevention services has historically been inadequate. The prevention programs that do receive funding are not fully funded to serve the needs. There is a need for increased funding for additional programs and services.
- There are difficulties in the recruitment of service providers in outlying counties.
- A lack of general public awareness of child abuse and child abuse prevention is a barrier.
- Building the Medicaid Provider Network to include medical and dental care services
- Overall complexity of Medicaid approval process has been reported as inefficient and burdensome on providers which deters from providing services to Medicaid recipients
- Lack of transportation
- Availability of substance abuse services in outlying counties
- Lack of affordable housing
- Lack of uniformity in the interpretation of confidentiality requirements can be a barrier to the sharing of information between agencies.
- Current economic conditions and loss of jobs are more evident now through increase in persons reaching out for assistance.

IX. RECOMMENDATIONS

Recommendations for changes that can be accomplished only at the state program level or by legislative action. §39.001(8)(b)6.j

Restore Fiscal Year 2009-2010 funding levels for Healthy Families and Healthy Start programs and other essential services that provide prevention services and support pregnant women and children

Increase funding to Healthy Families Florida to serve all zip codes in Leon County and to fully serve the needs of the at-risk populations in Gadsden, Franklin, Wakulla, Jefferson, and Liberty counties.

Increase funding to Early Learning Coalitions to provide greater access to affordable, quality child care.

Increase funding for primary and secondary prevention services

Continue supporting Title IV-E Waiver efforts and services

PART 3 – PLAN FOR THE PROMOTION OF ADOPTION

I. STATUS OF ADOPTION PROMOTION

Status of adoption (including information concerning the number of children within the child welfare system available for adoption who need child-specific adoption promotion efforts) §39.001(8)(b)6.c

The Circuit 2 Local Planning Team was provided multiple data sets by the Governor's Office of Adoption and Child Protection related to the status of adoption. The Local Planning Team reviewed the data for Circuit 2 overall and for each of its six counties: Leon, Gadsden, Wakulla, Jefferson, Franklin, and Liberty counties. The adoption-related data can be found in Attachment 4 of this report.

For the past several fiscal years, Circuit 2 has met or exceeded the state goals for the number of children adopted each year. For the Fiscal Year 2008-2009, Big Bend Community Based Care achieved 149% (67 of finalizations) of their Fiscal Year 2008-2009 contract target of 45 adoption finalizations. Historically, there are a higher number of finalizations each fiscal year in Leon County than the other five counties in the Circuit. For Fiscal Year 2008-2009, there were 52 finalizations in Leon, six in both Gadsden and Wakulla, two in Liberty, and one in Franklin.

Throughout Circuit 2, foster parents adopted 30 children, relatives adopted 17 children, and 20 children were adopted by recruited parents in Fiscal Year 2008-2009. Of the 67 adoptions, 44.8% were by foster parents, 29.9% by recruited parents, and 25.4% by relatives.

As a whole, for the prior five fiscal years, Circuit 2 has met or exceeded the federal standard of 32% for finalizing adoptions within 24 months. The Fiscal Year 2008-2009 percent of children adopted in less than 24 months was 35.1%. The circuit average length of stay is 19.9 months.

As of November 30, 2009, there were no identified homes for fifteen children in Circuit 2. All 15 require child-specific promotion efforts. Three children are siblings – one is soon to turn 18 and the other two siblings have expressed they do not wish to be adopted. Five of those children are females and ten are males.

According to the data, the count of children with both parents whose rights had been terminated as of June 30, 2009 was 20. Eighteen of those 20 have been TPR'd for 12 months or longer.

According to the data, there are four total children waiting in the Circuit. One of those children is in Gadsden County. He is African-American and has been waiting 48 months or more. He is 9-17 years of age. Three of the children are in Leon County. All three are 9-17 years of age. One child who is white has been waiting 12-23 months. Two children have been waiting 48 months or more. One is white and one is black.

Overall, Circuit 2 has a very successful adoptions program. Circuit 2 employs an array of adoption awareness, promotion, and recruitment activities. Children available for adoption are highlighted through the Adoption Exchange, the Adoption Information Center, and other Web sites that feature waiting children. Media campaigns, including the use of public service announcements and commercials on local television and radio, articles in the local newspaper, "A Home of their Own" programming on WCTV, "Forever Family" television program, are in place to raise awareness of the issue of children in care.

Heart Gallery North Florida, through its traveling art display, promotes children available for adoption at various community forums. Heart Gallery North Florida began with community workshops in the summer of 2008 and resulted in the creation of a new state corporation in December 2008.

There continues to be “home finder” conference calls between the Community Based Care Lead Agencies, and Big Bend Community Based Care regularly participates in these statewide calls to promote specific children available for adoption. The MAPP courses offer an additional opportunity for targeted recruitment efforts.

Special events, such as adoption finalization ceremonies and activities during National Adoption Month in November provide a perfect opportunity to raise awareness of adoptions.

All prospective adoptive parents and interested parties attend an adoption orientation meeting, at which they can meet peers and adoptions staff to learn more about foster care adoption, in general. As part of the Children’s Home Society or Florida Baptist Children’s Home orientation, prospective parents are given an overview of the steps involved in the adoption process and general timeframes in the adoption process. Prospective parents are also given information about pre-adoption training requirements and training schedules.

All prospective adoptive families must complete the Model Approach to Partnerships in Parenting (MAPP) training. Once a family has been identified for a child, the prospective adoptive family is provided information and trainings by the local adoption programs specific to the child’s unique needs.

II. CONTINUUM OF ADOPTION PROMOTION PROGRAMS

A continuum of programs necessary for a comprehensive approach to promotion of adoption (including brief descriptions of such programs and services) §39.001(8)(b)6.f

Adoption awareness efforts – Web-based, television, newspaper, magazine and radio public service announcements that provide a backdrop for general community awareness about the children in foster care who need adoptive families. The *Explore Adoption* campaign is pre-packaged and ready to be customized and used.

Targeted recruitment efforts – Focusing on specific groups of children and teens needing homes and identifying and targeting those communities most likely to adopt these children. Descriptions of common special needs of available children will lead to target populations that should be recruited; community and faith-based initiatives; incentive programs for foster and adoptive families to recruit others from their communities; advertisements, posters or flyers at places where foster and adoptive parents typically shop or visit; Web sites such as *Explore Adoption*; etc. The *Explore Adoption* campaign is pre-packaged and ready to be used.

Child-specific recruitment efforts – Locating and matching an identified waiting child with an approved adoptive family; media or materials describing and recruiting parents for an individual child; statewide and national adoption Web sites (e.g., *Explore Adoption*, Adoption Information Center, etc.); statewide and local heart galleries; radio, newspaper or television features; “passports” or brochures featuring the child’s strengths and needs; etc.

Orientation for prospective adoptive parents – Meetings for staff to explain the adoption process and requirements for becoming an adoptive family; follow-up literature and guides; etc.

Assistance (navigating the system) for prospective adoptive parents – Consistent contact with prospective families, helpdesk for prospective families, guidebooks, brochures or paperwork that explains the process and steps that must be completed to become an approved adoptive parent, etc. *Explore Adoption* Web site has a FAQ page that would assist with this.

Pre-adoption training for prospective parents – Adoptive parent training (e.g., MAPP) and family self-assessment to determine if adoption is a feasible plan for prospective adoptive family, adoption specific training after completion of the MAPP class, etc.

Pre-adoption information for “waiting” parents (i.e., family approved for adoption) – Referrals to local adoptive parent support groups; consultation, brochures or paperwork explaining the process and steps that must be completed once a child is identified as a possible match for approved adoptive families; adoption-specific training after receiving approval to adopt; etc.

Placement case management for “pre-adoptive” parents – Match staffing, placement supervision, child history disclosure, anticipated child-specific services and training needs, etc.

III. PROGRAMS CURRENTLY PROMOTING ADOPTION

Description of programs currently promoting adoption (including information on the impact, cost-effectiveness, and sources of funding) §39.001(8)(b)6.d

Please refer to Attachment 3C for a complete listing of programs currently promoting adoption throughout Circuit 2 showing the following information:

- Name of program
- Description
- Counties served by the program
- Frequency of provision/availability
- Impact Information
- Most recent cost-effectiveness data
- Sources of funding
- Language

IV. PLAN PRIORITIES

A description, documentation, and priority ranking of local needs related to the promotion of adoption based upon the continuum of programs (see Part 3-II) and services (see Part 3-III). §39.001(8)(b)6.g

Priority Ranking of County-Level Needs Related to the Promotion of Adoption for Children in Need of Adoptive Families

County: Leon, Gadsden, Wakulla, Jefferson, Franklin, and Liberty Counties

Priority	County-Level Need with Description	Type(s) of Approach Warranted to Meet this Priority Need
1	Reduce the wait time for all children over the age of 12 to be adopted	Adoption Awareness Targeted Recruitment Child-Specific Recruitment Pre-Adoption Information for “Waiting” Parents
2	Address the lack of training and educational opportunities available related to adopting children with behavioral, mental health, developmental, and medically complex issues	Adoption Awareness Targeted Recruitment Child-Specific Recruitment Orientation for Prospective Adoptive Parents Assistance for Prospective Adoptive Parents Pre-adoption Training for Prospective Adoptive Parents Pre-adoption Information for “Waiting” Parents Placement Case Management for “Pre-adoptive” Parents
3	Reduce the wait time for sibling groups to be adopted	Adoption Awareness Targeted Recruitment Child-Specific Recruitment Assistance for Prospective Adoptive Parents

V. PLAN OF ACTION FOR THE PROMOTION OF ADOPTION

Vision

Florida's highest priority is that children are raised in healthy, safe, stable, and nurturing families.

Mission

To serve as a blueprint that will be implemented to provide for the care, safety, and protection of all of Florida's children in an environment that fosters healthy social, emotional, intellectual, and physical development.

Outcome

All families and communities ensure that children are safe and nurtured and live in stable environments that promote well-being.

Goal 1

The percent of children adopted within 12 months of becoming legally free for adoption will increase from the fiscal year 2008-09 rate of 59.70 percent to 61.7 percent by 30 June 2015.

Goal 2

The percent of children legally free for adoption who have been waiting for adoption since the date of termination of parental rights (TPR) for more than 12 months will be reduced from the June 2009 rate of 90.0 percent to 85.0 percent by 30 June 2015.

Strategy 1

By 30 June 2015, Circuit 2 will increase the pool of prospective adoptive families that are best matched to the needs of our waiting children.

Priority Level: 1	Priority Need: Reduce the wait time for all children over the age of 12 to be adopted
Types of Approaches Warranted: <ul style="list-style-type: none"><input checked="" type="checkbox"/> Adoption Awareness<input checked="" type="checkbox"/> Targeted Recruitment<input checked="" type="checkbox"/> Child-specific Recruitment<input type="checkbox"/> Orientation for Prospective Adoptive Parents	Types of Approaches Warranted (continued): <ul style="list-style-type: none"><input type="checkbox"/> Assistance for Prospective Adoptive Parents<input type="checkbox"/> Pre-adoption Training for Prospective Adoptive Parents<input checked="" type="checkbox"/> Pre-adoption Information for "Waiting" Parents<input type="checkbox"/> Placement Case Management for "Pre-adoptive" Parents

Priority Level: 2	Priority Need: Address the lack of training and educational opportunities available related to adopting children with behavioral, mental health, developmental, and medically complex issues
Types of Approaches Warranted: <input checked="" type="checkbox"/> Adoption Awareness <input checked="" type="checkbox"/> Targeted Recruitment <input checked="" type="checkbox"/> Child-specific Recruitment <input checked="" type="checkbox"/> Orientation for Prospective Adoptive Parents	Types of Approaches Warranted (continued): <input checked="" type="checkbox"/> Assistance for Prospective Adoptive Parents <input checked="" type="checkbox"/> Pre-adoption Training for Prospective Adoptive Parents <input checked="" type="checkbox"/> Pre-adoption Information for “Waiting” Parents <input checked="" type="checkbox"/> Placement Case Management for “Pre-adoptive” Parents
Priority Level: 3	Priority Need: Reduce the wait time for sibling groups to be adopted
Types of Approaches Warranted: <input checked="" type="checkbox"/> Adoption Awareness <input checked="" type="checkbox"/> Targeted Recruitment <input checked="" type="checkbox"/> Child-specific Recruitment <input type="checkbox"/> Orientation for Prospective Adoptive Parents	Types of Approaches Warranted (continued): <input checked="" type="checkbox"/> Assistance for Prospective Adoptive Parents <input type="checkbox"/> Pre-adoption Training for Prospective Adoptive Parents <input type="checkbox"/> Pre-adoption Information for “Waiting” Parents <input type="checkbox"/> Placement Case Management for “Pre-adoptive” Parents

Objectives

Objective 1.1 Facilitate the coordination of adoption promotion activities

Objective 1.2 Increase adoption promotion and recruitment activities and services

Objective 1.3 Engage faith and community-based organizations in adoption promotion efforts

Objective 1.4 Increase training and educational opportunities for prospective adoptive parents

Objective 1.1 Facilitate the coordination of adoption promotion activities					
Action Steps	Measures/Benchmarks	Lead	Partners	Begin Date	End Date
Form a “Coordinating Council” composed of community adoption stakeholders to coordinate and share resources where feasible, to make recommendations regarding implementation of adoption promotion activities, and to oversee implementation of the five-year plan	Membership of council has been determined Regular meetings have been established	Big Bend Community Based Care	Children’s Home Society, Department of Children and Families, Heart Gallery North Florida, local media (newspaper), and other appropriate stakeholders	<i>July 1, 2010</i>	<i>Ongoing</i> <i>June 30, 2011</i>

Objective 1.2 Increase adoption promotion and recruitment activities and services					
Action Steps	Measures/Benchmarks	Lead	Partners	Begin Date	End Date
Convene a workgroup to bring community partners together with the goal of increasing adoption promotion and identifying available resources and needs within the community.	Workgroup is convened	Coordinating Council	Children's Home Society, Big Bend Community Based Care, Department of Children and Families, Heart Gallery North Florida, Tallahassee Area Foster/Adoptive Parent Association, Florida Baptist Children's Home, Boys Town, Camelot, other faith-based organizations, Guardian ad Litem, One Church on Child, media, school boards	<i>TBD by Council</i>	<i>June 30, 2011</i>
Utilize existing resources to fill any identified gaps.	All existing resources are identified	Workgroup		<i>TBD by Council</i>	<i>Ongoing June 30, 2011</i>
Develop a tracking mechanism for data collection on referral sources	Mechanism is developed and in use	Children's Home Society	Big Bend Community Based Care, Workgroup	<i>TBD by Council</i>	<i>December 31, 2011</i>
Utilize the data from the tracking mechanism to make decisions about resource allocations and to guide adoption promotion efforts	Resources are allocated appropriately based on the data	Coordinating Council		<i>TBD by Council</i>	<i>June 30, 2012</i>
Develop a comprehensive media plan to include use of available resources, such as Explore Adoption, AdoptUSKids, NACAC.	PSAs aired quarterly Reporting of these events on "Inquiry Forms"	Big Bend Community Based Care, Department of Children and Families Northwest Region Communications Officer, Children's Home Society, Heart Gallery North Florida	Big Bend Community Based Care, Department of Children and Families, Governor's Office of Adoption and Child Protection, Heart Gallery North Florida, Local Media (Ch 23 and Leon County Schools)	<i>January 1, 2011</i>	<i>December 31, 2011</i>
Engage local media in featuring interviews with adoptive parents, children who have been adopted, and children waiting to be adopted related to their adoption experiences.	Experience have been featured on local outlets	Heart Gallery North Florida, Children's Home Society, Big Bend Community Based Care	Anna Johnson, Forever Family, other local media partners (Ch 23 and Leon County Schools)	<i>January 1, 2011</i>	<i>Ongoing June 30, 2011</i>
Promote the utilization of Websites such as Explore Adoption, myFlorida.com, Big Bend Community Based Care, Heart Gallery North Florida	Distribution of promotional materials	Big Bend Community Based Care / Children's Home Society	Coordinating Council, Leon County Schools	<i>July 1, 2010</i>	<i>Ongoing June 30, 2011</i>

Develop a community calendar for promotion of adoption activities that will be posted on Big Bend Community Based Care Website	Calendar is posted to Web site	Coordinating Council / Big Bend Community Based Care	Children's Home Society Heart Gallery North Florida Boys Town	<i>January 1, 2011</i>	<i>June 30, 2011</i>
Develop Speakers Bureau to present at various events	Speakers Bureau has been established and presenting at various events	Big Bend Community Based Care	Children's Home Society, Big Bend Community Based Care, Department of Children and Families, Heart Gallery North Florida, Tallahassee Area Foster/Adoptive Parent Association, Florida Baptist Children's Home, Boys Town, other faith-based organizations, Guardian ad Litem	<i>January 1, 2011</i>	<i>December 31, 2011</i>
Promote adoption awareness and the process for adoption at various community events	Adoption materials are available at events	Heart Gallery North Florida, Children's Home Society, Big Bend Community Based Care	PTAs, School Districts	<i>July 1, 2010</i>	<i>Ongoing June 30, 2011</i>
Provide generalized recruitment awareness for the need for adoptive parents of older children through community events	Adoption materials are available at events	Heart Gallery North Florida, Children's Home Society, Big Bend Community Based Care	PTAs, School Districts	<i>July 1, 2010</i>	<i>Ongoing June 30, 2015</i>
Develop targeted recruitment plan for special needs children that are available for adoption	Plan is developed	Children's Home Society, Big Bend Community Based Care	Wendy's Wonderful Kids	<i>July 1, 2010</i>	<i>Ongoing June 30, 2015</i>
Develop individualized recruitment information on each child available for adoption	Plan is developed	Children's Home Society, Big Bend Community Based Care	Wendy's Wonderful Kids	<i>July 1, 2010</i>	<i>Ongoing June 30, 2015</i>
Maintain funding from Wendy's Wonderful Kids for recruitment	Funding is secured	Children's Home Society	Wendy's Wonderful Kids	<i>January 1, 2011 January 1, 2012 January 1, 2013 January 1, 2014 January 1, 2015</i>	<i>December 31, 2011 December 31, 2012 December 31, 2013 December 31, 2014 December 31, 2015</i>

Objective 1.3 Engage faith and community-based organizations in adoption promotion efforts					
Action Steps	Measures/Benchmarks	Lead	Partners	Begin Date	End Date
Develop and implement an outreach plan	Plan developed	Big Bend Community Based Care	Children's Home Society, Coordinating Council	<i>July 1, 2010</i>	<i>June 30, 2011</i>
Identify faith and community-based organizations in each county to host MAPP trainings, distribution promotional materials, host the speakers bureau, promote the Heart Gallery and other promotional activities	Organization has been identified in each county	Big Bend Community Based Care, Children's Home Society	Boys Town, Florida Baptist Children's Home, One Church One Child, local ministerial association, TEAM, community centers, school districts, etc.	<i>January 1, 2011</i>	<i>Ongoing June 30, 2012</i>
Objective 1.4 Increase training and educational opportunities for prospective adoptive parents					
Action Steps	Measures/Benchmarks	Lead	Partners	Begin Date	End Date
Develop, maintain, and disseminate an informational brochure of services available throughout the Circuit for prospective adoptive parents	Brochure completed	Big Bend Community Based Care	school districts	<i>July 1, 2010</i>	<i>Ongoing June 30, 2012</i>
Provide prospective adoptive families with information on adoption orientations and training opportunities available locally, statewide, or nationally related to special needs adoptions (for example, NACAC)	Number of prospective adoptive families who were offered the opportunity to attend one or more trainings who participated	Big Bend Community Based Care, Children's Home Society	school districts	<i>July 1, 2010</i>	<i>Ongoing June 30, 2011</i>
Advertise MAPP Classes in local newspaper, on local television stations, on websites, etc.	Advertisements have run	Big Bend Community Based Care	Children's Home Society, school district	<i>July 1, 2010</i>	<i>Ongoing June 30, 2011</i>
Partner with other organizations and agencies to allow time during their community meeting to discuss adoption, training etc.	Partnerships are developed	Big Bend Community Based Care, Children's Home Society, Workgroup	school district	<i>July 1, 2010</i>	<i>Ongoing June 30, 2011</i>
Identify the needs of and develop additional training resources for prospective adoptive parents	Training curriculum has been revised based on identified needs	Big Bend Community Based Care	Department of Children and Families – Office of Family Safety	<i>July 1, 2010</i>	<i>June 30, 2011</i>
Offer MAPP training classes with a partial web-based curriculum	Develop and implement training	Big Bend Community Based Care	DISC Village	<i>July 1, 2010</i>	<i>June 30, 2015</i>

VI. MONITORING AND EVALUATION

Plans for monitoring progress and for determining the results of the adoption promotion efforts.

VI.A. MONITORING PLAN IMPLEMENTATION

As indicated the action plan above, the five-year plan calls for the creation of a “coordinating council” composed of community adoption stakeholders, which, among other responsibilities, will monitor the ongoing progress of the implementation of the plan. On a quarterly (or some other predetermined) basis, this council will meet to coordinate and share resources where feasible, to make recommendations regarding implementation of adoption promotion activities and adoption support activities, and to oversee the implementation of the five-year plan. The regular meetings and discussions will provide an opportunity to determine how, collectively, the circuit is taking action as a continuous process.

The “Coordinating Council” will ensure that the adoption partners who are tasked with implementation efforts complete their respective sections of the monitoring report template (see Attachment 5). This information will then be submitted to the Department of Children and Families, Circuit 2, to be rolled up and submitted to the Executive Office of the Governor.

VI. B ANNUAL PROGRESS REPORTING

At quarterly or other regularly scheduled intervals, Local Planning Team members will meet to talk through the outline for the annual progress report. These meetings and discussions will occur along the timeframe as indicated below.

REPORTING AND PLANNING DEADLINES FROM JULY 2010 – JUNE 2015

Month	Year 1 2010-2011	Year 2 2011-2012	Year 3 2012-2013	Year 4 2013-2014	Year 5 2014-2015

May					Final 5-year plan for 2015-2020 due to EOG
June					

VII. BARRIERS

A description of barriers to the accomplishment of a comprehensive approach to the promotion of adoption. §39.001(8)(b)6.i

- Public perception of adoptions serves as a barrier. Public perception in general is negative (belief that children are ‘damaged’; high costs associated with adoption; long, bureaucratic, litigious and intrusive process; etc.)
- Some children in care whose parent’s rights have been terminated do not wish to be adopted.
- The age and behaviors of special needs children may impact a decision to adopt.
- Adoptive placement disruptions are a barrier.

VIII. RECOMMENDATIONS

Recommendations for changes that can be accomplished only at the state program level or by legislative action. §39.001(8)(b)6.j

Continue to support current successful efforts to promote adoption.

Part 4 – PLAN FOR THE SUPPORT OF ADOPTIVE FAMILIES

I. STATUS OF SUPPORT OF ADOPTIVE FAMILIES

Status of support of adoptive families (to be based upon such areas as the quantity and quality of adoptive parent support groups; quantity and accessibility of adoption competent mental health professionals; educational opportunities available for adoptive parents; and quantity of post adoption services counselors who provide information and referral, temporary case management for emotional support, and educational advocacy).

The Circuit 2 Local Planning Team was provided multiple data sets by the Governor's Office of Adoption and Child Protection related to the status of adoption. The Local Planning Team reviewed the data for Circuit 2 overall and for each of its six counties: Leon, Gadsden, Wakulla, Jefferson, Franklin, and Liberty counties. The adoption-related data can be found in Attachment 4 of this report.

During Fiscal Year 2008-2009, three adoptions were dissolved in Circuit 2. All three dissolutions occurred in Leon County. The dissolutions occurred with children who required the services of adoption competent providers. There were no Medicaid providers who were certified adoption competent who would accept Medicaid, and the parents could not afford to pay for the services that the children needed. The parents returned the children to foster care.

There are currently no adoptive parent support groups in Circuit 2. However, the Tallahassee Adoptive and Foster Parent Association (TAFPA) has recently reviewed its scope to include adoptive families and will provide training and support for both foster and adoptive families. There are plans in place for a Circle of Parents® parent-led support group for foster and adoptive families. Additionally, TAFPA is establishing the Heartland House, which will be a resource center for foster and adoptive families. It will contain a lending library of books, resources, and DVDs on parenting, as well as have computers available for use by the foster and adoptive parents.

At this time, there are currently no adoption competent mental health professionals in the Circuit. However, there is an adoption competency certification program in place and soon there will be 12 adoption competent counselors in the six-county area. Some but not all will accept Medicaid.

Adoptive families are eligible for adoption assistance payments, such as the monthly maintenance adoption subsidy (MAS) to assist in the support of the adopted child. Children who are adopted are eligible for Medicaid services. Children who are adopted from care may be eligible for college tuition exemptions at Florida's public universities, colleges, and vocational programs.

Children's Home Society and Florida Baptist Children's Home adoption workers provide counseling, assist with legal matters, and work with biological parents and others involved. Workers visit adoptive parents several times between placement and finalization to make sure the child and prospective adoptive parents are a good match.

Children's Home Society provides counseling services to adoptive parents and adoptees. Post adoption case management services, as well as information and referral services are provided on an as-needed basis for adoptive families in the Circuit.

II. CONTINUUM OF ADOPTION SUPPORT PROGRAMS

Description of a comprehensive approach for providing post-adoption services (including information on sufficient and accessible parent and teen support groups; case management, information, and referral services; and educational advocacy) §39.001(8)(b)6.e

Adoptive parent and teen support groups – Small group opportunities for parents and teens that are accessible; configured and meeting as often as appropriate for the languages, cultures and needs of the participants in your communities; provision of support from umbrella organizations and qualified facilitators where appropriate (e.g., teen support groups); etc.

Education and training opportunities for adoptive parents – Education and training related to adoption issues, with an emphasis on strategies for handling loss, grief, relationship building, and “acting out” behaviors; skill-building to equip adoptive parents with the skills needed to meet the specific and developing needs of children (e.g., fetal alcohol, substance abuse, autism, etc.); providing adoption resource centers, lending libraries, newsletters, annual adoption conferences, and ongoing training and workshops for parents; etc.

Adoption competent education and mental health assistance services for adoptive families – Those providing education and therapeutic services have the basic knowledge and skills to effectively work with adoptive families and to empower adoptive parents and families to provide the environment necessary for ameliorating the effects of trauma (e.g., build relationships, improve relationships, develop nurturing and attachment, etc.); campaigns to recruit professionals to seek adoption competency; etc.

Case management services for adoptive parents and children – An intake process for families to return for needed services; designated case manager to respond to adopted children and families post-legal finalization; system to notify families of continued training, adoption workshops, and support group meetings, and resource guide that includes adoption-support information and service providers; etc.

III. PROGRAMS CURRENTLY SUPPORTING ADOPTIVE FAMILIES

Description of programs currently supporting adoptive families (including information on the impact, cost-effectiveness, and sources of funding) §39.001(8)(b)6.d

Please refer to Attachment 3D for a complete listing of programs currently supporting adoptive families throughout Circuit 2 showing the following information:

- Name of program
- Description
- Counties served by the program

IV. PLAN PRIORITIES

A description, documentation, and priority ranking of local needs related to the support of adoptive families based upon the comprehensive approach (see Part 4-II) and services (see Part 4-III). §39.001(8)(b)6.g

Priority Ranking of County-Level Needs Related to the Support of Adoptive Families

County: Leon, Gadsden, Wakulla, Jefferson, Franklin, and Liberty Counties

Priority	County-Level Need with Description	Type(s) of Approach Warranted to Meet this Priority Need <ul style="list-style-type: none"> ○ Support Groups ○ Education and Training ○ Adoption Competent Services ○ Case Management Services 	Protective Factors that Should be Built/Supported when Meeting this Priority Need <ul style="list-style-type: none"> ○ Parental Emotional Resilience ○ Social Connections ○ Knowledge of Parenting and Child Development ○ Concrete Support in Times of Need ○ Nurturing and Attachment
1	Post-adoptive families in need of supports and services	Support Groups Education and Training Adoption Competent Services Case Management Services	Parental Emotional Resilience Social Connections Knowledge of Parenting and Child Development Concrete Support in Times of Need Nurturing and Attachment
2	Creation of adoptive parent support groups	Support Groups Education and Training Adoption Competent Services Case Management Services	Parental Emotional Resilience Social Connections Knowledge of Parenting and Child Development Concrete Support in Times of Need Nurturing and Attachment
3	Improve availability and access to adoption competent mental health and education services	Support Groups Education and Training Adoption competent services Case management services	Parental Emotional Resilience Social Connections Knowledge of Parenting and Child Development Concrete Support in Times of Need Nurturing and Attachment
4	Improve availability of post adoption services counselors	Support Groups Education and Training Adoption competent services Case management services	Parental Emotional Resilience Social Connections Knowledge of Parenting and Child Development Concrete Support in Times of Need Nurturing and Attachment

V. PLAN OF ACTION FOR THE SUPPORT OF ADOPTIVE FAMILIES

Vision

Florida's highest priority is that children are raised in healthy, safe, stable, and nurturing families.

Mission

To serve as a blueprint that will be implemented to provide for the care, safety, and protection of all of Florida's children in an environment that fosters healthy social, emotional, intellectual, and physical development.

Outcome

All families and communities ensure that children are safe and nurtured and live in stable environments that promote well-being.

Goal 1

The number of adopted children who were returned to foster care (regardless of when the adoption was finalized) in the circuit will be reduced from 3 during the 2008-2009 fiscal year to less than 3 during the 2014-2015 fiscal year.

Strategy 1

By 30 June 2015, Circuit 2 adoptive families will have the enhanced capacity to provide a safe, stable, nurturing environment for children who have obtained permanency through adoption.

Priority Level: 1	Priority Need: Post-adoptive families in need of supports and services	
2	Creation of adoptive parent support groups	
3	Improve availability and access to adoption competent mental health and education services	
4	Improve availability of post adoption services counselors	
Protective Factors to be Built by the Strategy: <input checked="" type="checkbox"/> Parental emotional resilience <input checked="" type="checkbox"/> Social connections <input checked="" type="checkbox"/> Knowledge of parenting and child development <input checked="" type="checkbox"/> Concrete support in times of need <input checked="" type="checkbox"/> Nurturing and attachment		Types of Approaches Warranted: <input checked="" type="checkbox"/> Adoptive parent and teen support groups <input checked="" type="checkbox"/> Education and training opportunities for adoptive parents <input checked="" type="checkbox"/> Adoption competent mental health assistance services for parents and children <input checked="" type="checkbox"/> Case management services for adoptive parents and children

Objectives

Objective 1.1 Facilitate the coordination of support activities

Objective 1.2 Increase adoptive parent resources and distribution of information

Objective 1.3 Increase training and educational opportunities for adoptive families

Objective 1.4 Explore establishing adoptive parent and teen support groups

Objective 1.5 Plan for the provision of in-home behavioral and therapeutic services

Objective 1.6 Establish a network of adoption competent providers, professionals, and parents

Objective 1.1 Facilitate the coordination of support activities					
Action Steps	Measures/Benchmarks	Lead	Partners	Begin Date	End Date
Form a “Coordinating Council” composed of community adoption stakeholders to coordinate and share resources where feasible, to make recommendations regarding supportive services activities, and to oversee the implementation of the five-year plan	Membership of council has been determined Regular meetings have been established	Big Bend Community Based Care	Children’s Home Society, Department of Children and Families, Heart Gallery North Florida, local media (newspaper), and other appropriate stakeholders	<i>July 1, 2010</i>	<i>Ongoing</i> <i>June 30, 2015</i>
Objective 1.2 Increase adoptive parent resources and distribution of information					
Action Steps	Measures/Benchmarks	Lead	Partners	Begin Date	End Date
Create and disseminate a post-adoption services brochure specific to the resources and contact information in all counties in Circuit 2.	Every adoptive family will receive a post-adoption services brochure prior to adoption finalization.	Children’s Home Society-Special Needs Adoption Unit	Big Bend Community Based Care, Boys Town, Coordinating Council	<i>January 1, 2011</i>	<i>Updated on ongoing basis</i>
Post information on websites for post-adoption services including opportunities for continued education, articles related to adoption issues, and providers with contact information. Send quarterly electronic communications with general adoption information and Circuit 2 calendar of activities.	On a quarterly basis beginning July 1, 2010, information will be posted and updated on a quarterly basis. In Circuit 2, there are four Web sites that need to be maintained. Adoption staff will request email addresses of adoptive families and seek permission to receive electronic information.	Children’s Home Society	Coordinating Council Tallahassee Adoptive and Foster Parent Association (TAFPA) http://TAFPA.weboffice.com Heart Gallery www.heartgallerynorthflorida.org Big Bend Community Based Care www.bigbendcbc.org Explore Adoption www.adoptflorida.org	<i>July 1, 2010</i>	<i>June 30, 2015</i>

Operate the Heartland House under the Tallahassee Adoptive and Foster Parent Association (TAFPA), which will be a resource center for foster and adoptive families. It will contain a lending library of books, resources, DVDs on parenting. Computers will be available for use by the foster and adoptive parents.	The Heartland House will start receiving donations of parenting materials. By July 1, 2010, the materials will be organized and a protocol for checking out materials will be created and operational.	TAFPA President and Board Members	Department of Children and Families - Office of Family Safety Big Bend Community Based Care Children's Home Society--Special Needs Adoption Unit	<i>July 1, 2010</i>	<i>Ongoing</i>

Objective 1.3 Increase Training and Education Opportunities for Adoptive Families					
Action Steps	Measures/Benchmarks	Lead	Partners	Begin Date	End Date
Review and modify or supplement curricula for pre-service training for foster and adoptive parents (MAPP) to better meet the needs of adoptive parents.	<p>Convene a workgroup of trainers and foster and adoptive parents to review and make recommendations.</p> <p>Offer “Train the Trainer” training for those teaching foster and adoptive parents.</p> <p>Implement revised training to prospective foster and adoptive parents.</p> <p>Evaluate training based on survey and placement stability.</p>	Big Bend Community Based Care	<p>Tallahassee Adoptive and Foster Parent Association (TAFPA)</p> <p>Children’s Home Society</p> <p>Boys Town</p> <p>Florida Baptist Children’s Home</p> <p>One Church One Child</p>	<i>July 1, 2010</i>	<i>June 30, 2010</i>
Offer therapeutic training to prospective adoptive parents and current adoptive parents to better assist them with behavioral needs of children.	<p>Therapeutic training will be provided based on the identified need of the child or children to be adopted. This will be recommended through the Child Study at match staffing or other evaluation means after placement.</p> <p>Referral will be made and data recorded.</p>	Children’s Home Society-- Special Needs Adoption Unit (for referrals)	<p>Boys Town</p> <p>Camelot</p>	<i>July 1, 2010</i>	<i>On-going</i>
Provide adoptive families with information on training opportunities available locally, statewide, or nationally related to special needs adoption. (for example, NACAC)	Number of adoptive families who were offered the opportunity to attend one or more trainings.	Children’s Home Society-- Special Needs Adoption Unit	Department of Children and Families - Office of Family Safety AIC- Adoption Information Center School district	<i>July 1, 2010</i>	<i>Annual Basis</i>
Provide information about web-based resources, such as webinars and online trainings	Distribute information on professional adoption Websites (such as AdoptUS Kids or USF Center for the Advancement of Child Welfare Practice).	Children’s Home Society-- Special Needs Adoption Unit	Department of Children and Families - Office of Family Safety AIC- Adoption Information Center Heartland House School district websites and through schools	<i>July 1, 2010</i>	<i>On-going</i>
Offer MAPP training classes with a partial web-based curriculum	Develop and implement training	Big Bend Community Based Care	DISC Village	<i>July 1, 2010</i>	<i>?</i>

Objective 1.4 Explore establishing adoptive parent and teen support groups					
Action Steps	Measures/Benchmarks	Lead	Partners	Begin Date	End Date
Through the Tallahassee Area Foster Parent Association (TAFPA), provide training and support for foster/ adoptive families. This will extend to those who have not been licensed as foster parents but who have adopted from the foster care system.	The TAFPA will review bylaws and note the new name, Tallahassee Area Foster and Adoptive Parent Association.	Tallahassee Adoptive and Foster Parent Association	TAFPA Board and Members. Boys Town through contract with Big Bend Community Based Care for foster parent support	<i>July 1, 2010</i>	<i>On-going</i>
Provide a parent-led support group for foster and adoptive families through The Circle of Parents®	Six foster parents and six adoptive parents will receive training from the Circle of Parents® to become group facilitators in Leon County. Four foster parents and four adoptive parents will be identified in the other counties to receive the training from the Circle of Parents® to become group facilitators in Gadsden, Wakulla, Liberty, Franklin, and Jefferson Counties.	Foster Parent/ Adoptive Parent Association Foster Parent/ Adoptive Parent Association	Boys Town for foster and Children's Home Society for adoptive families. Camelot for foster and Children's Home Society for adoptive families. Ounce of Prevention Fund of Florida	<i>July 1, 2010</i> <i>October 1, 2010</i>	<i>On-going</i> <i>On-going</i>
The Circle of Parents® Adoption Support Group will meet on a regular basis at the Heartland House in Leon County. This is in addition to the TAFPA meetings. The Circle of Parents® Adoption Support Group will identify community and faith-based organizations to host meetings in other counties.	Dates and times of support group meetings will be determined by the parents but will meet at least on a monthly basis. Attendance rosters will be maintained.	Heartland House Foster and Adoptive Parent Resource Center	The Circle of Parents®	<i>July 1, 2010</i>	<i>On-going</i>
Provide information on The Circle of Parents® Foster and Adoptive Parent Support Group to all adoptive parents who have adopted through the foster care system, adoption staff and case managers, and those providers such as mental health professionals.	The Circle of Parents® Adoption Support Group Information will be provided to CHS to be included on a Post-Adoption Services brochure and to BBCBC to be updated on the Web site and calendar.	Parent-led Support Group Facilitators.	Children's Home Society Big Bend Community Based Care	<i>July 1, 2010</i>	<i>On-going</i>

Pilot a support group for children waiting to be adopted	Waiting teens will be identified and referred to the adoption support group by their case manager. In 2010, a support group for waiting teens will be piloted in residential care.	Boys Town	Big Bend Community Based Care Children's Home Society NACAC Department of Children and Families	<i>July 1, 2010</i>	<i>Ongoing</i>
Explore the feasibility of expanding the pilot to adopted teens in Circuit 2.	Review successes and conduct a feasibility study	Boys Town	Big Bend Community Based Care Children's Home Society NACAC Department of Children and Families	<i>July 1, 2011</i>	<i>June 30, 2015</i>
Establish TAFPA as a 501 (c) 3 or Charitable Organization to receive tax-deductible donation from community.	TAFPA will maintain all necessary records to continue status and solicit contributions to maintain the foster and adoptive parent support group.	TAFPA- President and Board Members	Big Bend Community Based Care	<i>July 1, 2010</i>	<i>December 31, 2010</i>
Objective 1.5 Plan for the provision of in-home behavioral and therapeutic services					
Action Steps	Measures/Benchmarks	Lead	Partners	Begin Date	End Date
Explore the feasibility of offering in-home behavioral services to prevent adoption dissolution or placement disruption.	Determine the need for services	Big Bend Community Based Care	Boys Town Camelot Children's Home Society- Special Needs Adoption Unit	<i>July 1, 2010</i>	<i>On-going</i>
Provide adoptive parents with a list of therapists who received certification in Adoption Competency.	This information will be provided on the Post-Adoption Support Services Brochure and on the Web site.	Big Bend Community Based Care	Department of Children and Families Children's Home Society- Special Needs Adoption Unit	<i>July 1, 2010</i>	<i>On-going</i>
Provide adoptive parents with access to Adoption Competent services and therapists through Medicaid, Magellan, or Big Bend Community Based Care contracted provider.	Adoptive parents are using adoption competent therapists	Big Bend Community Based Care	Department of Children and Families - Children's Mental Health Office	<i>July 1, 2010</i>	<i>On-going</i>

Objective 1.6 Establish a network of adoption competent providers, professionals, and parents					
Action Steps	Measures/Benchmarks	Lead	Partners	Begin Date	End Date
Explore the feasibility of designating one staff person to respond to post-adoption services and referrals.	Post-adoption specialist will be identified in adoption unit. Inquiries for post-adoption services will be maintained in FSFN. Data will be maintained on types of inquiry- search or reunion, therapeutic/ behavioral services, subsidy or other assistance.	Children's Home Society- Special Needs Adoption Unit	Big Bend Community Based Care Department of Children and Families - Office of Family Safety	<i>July 1, 2010</i>	<i>June 30, 2015</i>
Explore grant opportunities for post adoption services (Post Adoption Maintenance or PAM)	Conduct research on available grants	Children's Home Society- Special Needs Adoption Unit		<i>July 1, 2010</i>	<i>On-going</i>
Provide the opportunity to therapists to increase their knowledge and skills to work effectively with adoptive families and children by becoming Adoption Competent.	Certified therapists will receive referrals to work with foster and adoptive families. A list of the certified therapist will be provided to the adoptive families and to the adoption case managers.	Department of Children and Families - Office of Family Safety	Big Bend Community Based Care Children's Home Society- Special Needs Adoption Unit Coordinating Council Department of Children and Families	<i>July 1, 2010</i>	<i>Ongoing</i>
Provide overview of training in adoption competency to adoption staff as well as Dependency Case Managers, Children's Legal Services, Guardian ad Litem, school guidance counselors and others identified as appropriate.	In 2010, training in Adoption Competency will be provided for professionals and providers in the child welfare system. Number of professionals and providers who received training.	Big Bend Community Based Care	Department of Children and Families - Office of Family Safety Children's Legal Services Guardian ad Litem Schools	<i>July 1, 2010</i>	<i>Ongoing</i>

VI. MONITORING AND EVALUATION

Plans for monitoring progress and for determining the results of the efforts to support adoptive families.

VI.A. MONITORING PLAN IMPLEMENTATION

As indicated in the action plan above, the five-year plan calls for the creation of a “Coordinating Council” composed of community adoption stakeholders, which, among other responsibilities, will monitor the ongoing progress of the implementation of the plan. On a quarterly (or some other predetermined) basis, this Council will meet to coordinate and share resources where feasible, to make recommendations regarding implementation of adoption promotion activities and adoption support activities, and to oversee the implementation of the five-year plan. The regular meetings and discussions will provide an opportunity to determine how, collectively, the circuit is taking action as a continuous process.

The “Coordinating Council” will ensure that the adoption partners who are tasked with implementation efforts complete their respective sections of the monitoring report template (see Attachment 5). This information will then be submitted to the Department of Children and Families, Circuit 2, to be rolled up and submitted to the Executive Office of the Governor.

VI. B ANNUAL PROGRESS REPORTING

At quarterly or other regularly scheduled intervals, Local Planning Team members will meet to talk through the outline for the annual progress report. These meetings and discussions will occur along the timeframe as indicated below.

REPORTING AND PLANNING DEADLINES FROM JULY 2010 – JUNE 2015

VII. BARRIERS

A description of barriers to the accomplishment of a comprehensive approach to the support of adoptive families. §39.001(8)(b)6.i

- Liability and legal issues exist which create difficulties in securing adequate locations at which to host adoptive parent support groups.
- Some children that become legally free for adoption ultimately do not wish to be adopted.
- There is a lack of adequate funds and resources to provide services after a case is closed.
- Generally, there is a lack of specialized and affordable services within the community to sustain the child(ren) with the adoptive parents, particularly in the outlying areas.
- Adopted children often require specialized mental health services. Once the adoption is finalized, many children are unable to receive those services due to gaps in what is covered under Medicaid.

VIII. RECOMMENDATIONS

Recommendations for changes that can be accomplished only at the state program level or by legislative action. §39.001(8)(b)6.j

- Increase funding for post adoption services
- Continue to fund Adoption Competency training at the State level for local providers
- Increase the network of specialized providers who accept Medicaid

Availability: As needed

Impact Information: Angel Flight Southeast coordinates FREE air transportation for Florida's vulnerable population with medical and compelling humanitarian needs. Children and adults are flown on private planes for medical treatments, special needs summer camps, safety from domestic violence, relocation from disasters, and more. Today, 650 volunteer pilots donate their aircraft, fuel, time, and expertise, flying almost 2500 missions annually serving children and families who reside.

Cost-Effectiveness: This is possible because our volunteer pilots donate the use of their time, aircraft, fuel and expertise, Angel Flight Southeast is able to return \$5.00 in service for every \$1.00 received. This is truly a case of the gift is in the giving.

Description: Administration of the federal Title X Family Planning grant is another responsibility of the IMRH unit. Family planning services are designed to reduce the number of unplanned or unwanted pregnancies, and to help women manage the timing and

Availability: Weekly

Impact Information: Total services in 2008 was 969,768.

Cost-Effectiveness: Florida Estimated Savings Calculations Based on the Guttmacher-Frost Method (Table 1)The following is a detailed explanation of method used to calculate the estimated savings per pregnancy avoided by Florida's Family Planning Program as shown in Table 1.1. The total estimated family planning clients for 2006 was obtained from the 2006 Family Planning Annual Report for Florida (FPAR) -- 210,295 clients.2. The estimated pregnancies avoided per year per family planning client is 0.2034, which is obtained from the reference Frost report. This is the proportion of pregnancies avoided based on the estimated shift of women from less effective contraceptive methods (including no method) to more effective methods when family planning services become available.3. The number of family planning clients (Step 1) is multiplied by the proportion of pregnancies avoided per client (Step 2) to obtain the estimated number of 42,774 pregnancies.4. The estimated number of pregnancies classified into three

Program/Service: Family Planning Title X Program

Description: Administration of the federal Title X Family Planning grant is another responsibility of the IMRH unit. Family planning services are designed to reduce the number of unplanned or unwanted pregnancies, and to help women manage the timing and

Availability: Weekly

Impact Information: Total services in 2008 was 969,768.

Cost-Effectiveness: Florida Estimated Savings Calculations Based on the Guttmacher-Frost Method (Table 1)The following is a detailed explanation of method used to calculate the estimated savings per pregnancy avoided by Florida's Family Planning Program as shown in Table 1.1. The total estimated family planning clients for 2006 was obtained from the 2006 Family Planning Annual Report for Florida (FPAR) -- 210,295 clients.2. The estimated pregnancies avoided per year per family planning client is 0.2034, which is obtained from the reference Frost report. This is the proportion of pregnancies avoided based on the estimated shift of women from less effective contraceptive methods (including no method) to more effective methods when family planning services become available.3. The number of family planning clients (Step 1) is multiplied by the proportion of pregnancies avoided per client (Step 2) to obtain the estimated number of 42,774 pregnancies.4. The estimated number of pregnancies classified into three

Availability: As needed

Impact Information: Angel Flight Southeast coordinates FREE air transportation for Florida's vulnerable population with medical and compelling humanitarian needs. Children and adults are flown on private planes for medical treatments, special needs summer camps, safety from domestic violence, relocation from disasters, and more. Today, 650 volunteer pilots donate their aircraft, fuel, time, and expertise, flying almost 2500 missions annually serving children and families who reside.

Cost-Effectiveness: This is possible because our volunteer pilots donate the use of their time, aircraft, fuel and expertise, Angel Flight Southeast is able to return \$5.00 in service for every \$1.00 received. This is truly a case of the gift is in the giving.

Impact Information: Total services in 2008 was 969,768.

Cost-Effectiveness: Florida Estimated Savings Calculations Based on theGuttmacher-Frost Method (Table 1)The following is a detailed explanation of method used to calculate the estimated savings per pregnancy avoided by Florida's Family Planning Program as shown in Table 1.1. The total estimated family planning clients for 2006 was obtained from the 2006 Family Planning Annual Report for Florida (FPAR) -- 210,295 clients.2. The estimated pregnancies avoided per year per family planning client is 0.2034, which is obtained from the reference Frost report. This is the proportion of pregnancies avoided based on the estimated shift of women from less effective contraceptive methods (including no method) to more effective methods when family planning services become available.3. The number of family planning clients (Step 1) is multiplied by the proportion of pregnancies avoided per client (Step 2) to obtain the estimated number of 42,774 pregnancies.4. The estimated number of pregnancies classified into thre

Availability: Weekly

Impact Information: Total services in 2008 was 969,768.

Cost-Effectiveness: Florida Estimated Savings Calculations Based on theGuttmacher-Frost Method (Table 1)The following is a detailed explanation of method used to calculate the estimated savings per pregnancy avoided by Florida's Family Planning Program as shown in Table 1.1. The total estimated family planning clients for 2006 was obtained from the 2006 Family Planning Annual Report for Florida (FPAR) -- 210,295 clients.2. The estimated pregnancies avoided per year per family planning client is 0.2034, which is obtained from the reference Frost report. This is the proportion of pregnancies avoided based on the estimated shift of women from less effective contraceptive methods (including no method) to more effective methods when family planning services become available.3. The number of family planning clients (Step 1) is multiplied by the proportion of pregnancies avoided per client (Step 2) to obtain the estimated number of 42,774 pregnancies.4. The estimated number of pregnancies classified into thre

Impact Information: Total services in 2008 was 969,768.

Cost-Effectiveness: Florida Estimated Savings Calculations Based on theGuttmacher-Frost Method (Table 1)The following is a detailed explanation of method used to calculate the estimated savings per pregnancy avoided by Florida's Family Planning Program as shown in Table 1.1. The total estimated family planning clients for 2006 was obtained from the 2006 Family Planning Annual Report for Florida (FPAR) -- 210,295 clients.2. The estimated pregnancies avoided per year per family planning client is 0.2034, which is obtained from the reference Frost report. This is the proportion of pregnancies avoided based on the estimated shift of women from less effective contraceptive methods (including no method) to more effective methods when family planning services become available.3. The number of family planning clients (Step 1) is multiplied by the proportion of pregnancies avoided per client (Step 2) to obtain the estimated number of 42,774 pregnancies.4. The estimated number of pregnancies classified into thre

Availability: Weekly

Impact Information: Total services in 2008 was 969,768.

Cost-Effectiveness: Florida Estimated Savings Calculations Based on the Guttmacher-Frost Method (Table 1) The following is a detailed explanation of method used to calculate the estimated savings per pregnancy avoided by Florida's Family Planning Program as shown in Table 1.1. The total estimated family planning clients for 2006 was obtained from the 2006 Family Planning Annual Report for Florida (FPAR) -- 210,295 clients. 2. The estimated pregnancies avoided per year per family planning client is 0.2034, which is obtained from the reference Frost report. This is the proportion of pregnancies avoided based on the estimated shift of women from less effective contraceptive methods (including no method) to more effective methods when family planning services become available. 3. The number of family planning clients (Step 1) is multiplied by the proportion of pregnancies avoided per client (Step 2) to obtain the estimated number of 42,774 pregnancies. 4. The estimated number of pregnancies classified into three

Description: Calls to the Poison Control hotline are answered by nurses, pharmacists, and physicians who have computerized access to the latest, in-depth poison assessment and management techniques. The poison specialists on staff are uniquely trained to

Availability: 24 hours/ 7 days a week

Impact Information: In 2009, the Florida Poison Information Center Network responded to over 197,000 calls for assistance. Approximately 83% of calls involving a poison exposure were handled over the phone, without the need to refer callers to further medical care.

Cost-Effectiveness: When families call the toll free Poison Control Hotline instead of accessing unnecessary emergency care they save approximately \$1,600, the average cost of an ER visit for an injury or poisoning in Florida, according to a 2006 ACHA report. As mentioned earlier, the vast majority of exposures reported to poison centers can be safely and effectively managed over the phone. For families who utilize the educational information provided by the Poison Center to prevent poisonings at home, the potential savings for a hospital admission related to a poisoning averages \$13,000, according to a 2007 report from the Florida Office of Injury Prevention. For patients who do require hospitalization for a poison exposure, there is recent data that indicates that even these patients who engaged the poison center in their care had shorter hospitalizations than those who did not call. Description: We provide full day and extended care services from mid August through May of each year to qualified families with children from 0-3 years of age and pregnant women. We have a ratio of 1 adult-to-4 children with 2 teachers and 8 children per classroom. I

Availability: Mon-Friday, mid August through May of each year

Impact Information: 298 children and prengant women received Early Head Start services, including quality childcare, health & disability services, family support and community partnership services. 90% of children enrolled received medical and dental exams, 24 children were eligible for Part C services, 174 families received family support services.

Cost-Effectiveness: If this program did not exist, family members would be unable to afford child care, much less quality, comprehensive services. Children would miss out of their early (most formative) years of child development and would, in all probability not be meeting their developmental milestones. The repercussions of not having this service would be costly in terms of remedial education necessary upon entering elementary school. Long-term studies have shown that students not accessing such services tend to end up in the correctional system, are less likely to graduate from high school or maintain

Organization: Kids Incorporated of the Big Bend

Program/Service: Early Head Start

Description: We provide full day and extended care services from mid August through May of each year to qualified families with children from 0-3 years of age and pregnant women. We have a ratio of 1 adult-to-4 children with 2 teachers and 8 children per classroom. I

Availability: Mon-Friday, mid August through May of each year

Impact Information: 298 children and prengant women received Early Head Start services, including quality childcare, health & disability services, family support and community partnership services. 90% of children enrolled received medical and dental exams, 24 children were eligible for Part C services, 174 families received family support services.

Cost-Effectiveness: If this program did not exist, family members would be unable to afford child care, much less quality, comprehensive services. Children would miss out of their early (most formative) years of child development and would, in all probability not be meeting their developmental milestones. The repercussions of not having this service would be costly in terms of remedial education necessary upon entering elementary school. Long-term studies have shown that students not accessing such services tend to end up in the correctional system, are less likely to graduate from high school or maintain

Description: Calls to the Poison Control hotline are answered by nurses, pharmacists, and physicians who have computerized access to the latest, in-depth poison assessment and management techniques. The poison specialists on staff are uniquely trained to

Availability: 24 hours/ 7 days a week

Impact Information: In 2009, the Florida Poison Information Center Network responded to over 197,000 calls for assistance. Approximately 83% of calls involving a poison exposure were handled over the phone, without the need to refer callers to further medical care.

Cost-Effectiveness: When families call the toll free Poison Control Hotline instead of accessing unnecessary emergency care they save approximately \$1,600, the average cost of an ER visit for an injury or poisoning in Florida, according to a 2006 ACHA report. As mentioned earlier, the vast majority of exposures reported to poison centers can be safely and effectively managed over the phone. For families who utilize the educational information provided by the Poison Center to prevent poisonings at home, the potential savings for a hospital admission related to a poisoning averages \$13,000, according to a 2007 report from the Florida Office of Injury Prevention. For patients who do require hospitalization for a poison exposure, there is recent data that indicates that even these patients who engaged the poison center in their care had shorter hospitalizations than those who did not call. All in all, the free potentially

Availability: 24 hours/ 7 days a week

Impact Information: In 2009, the Florida Poison Information Center Network responded to over 197,000 calls for assistance. Approximately 83% of calls involving a poison exposure were handled over the phone, without the need to refer callers to further medical care.

Cost-Effectiveness: When families call the toll free Poison Control Hotline instead of accessing unnecessary emergency care they save approximately \$1,600, the average cost of an ER visit for an injury or poisoning in Florida, according to a 2006 ACHA report. As mentioned earlier, the vast majority of exposures reported to poison centers can be safely and effectively managed over the phone. For families who utilize the educational information provided by the Poison Center to prevent poisonings at home, the potential savings for a hospital admission related to a poisoning averages \$13,000, according to a 2007 report from the Florida Office of Injury Prevention. For patients who do require hospitalization for a poison exposure, there is recent data that indicates that even these patients who engaged the poison center in their care had shorter hospitalizations than those who did not call. All in all, the free potentially

Organization: Florida Poison Information Center Network

Program/Service: Regional Poison Control Centers

Description: Calls to the Poison Control hotline are answered by nurses, pharmacists, and physicians who have computerized access to the latest, in-depth poison assessment and management techniques. The poison specialists on staff are uniquely trained to

Availability: 24 hours/ 7 days a week

Impact Information: In 2009, the Florida Poison Information Center Network responded to over 197,000 calls for assistance. Approximately 83% of calls involving a poison exposure were handled over the phone, without the need to refer callers to further medical care.

Cost-Effectiveness: When families call the toll free Poison Control Hotline instead of accessing unnecessary emergency care they save approximately \$1,600, the average cost of an ER visit for an injury or poisoning in Florida, according to a 2006 ACHA report. As mentioned earlier, the vast majority of exposures reported to poison centers can be safely and effectively managed over the phone. For families who utilize the educational information provided by the Poison Center to prevent poisonings at home, the potential savings for a hospital admission related to a poisoning averages \$13,000, according to a 2007 report from the Florida Office of Injury Prevention. For patients who do require hospitalization for a poison exposure, there is recent data that indicates that even these patients who engaged the poison center in their care had shorter hospitalizations than those who did not call. All in all, the free potentially

Description: Calls to the Poison Control hotline are answered by nurses, pharmacists, and physicians who have computerized access to the latest, in-depth poison assessment and management techniques. The poison specialists on staff are uniquely trained to

Availability: 24 hours/ 7 days a week

Impact Information: In 2009, the Florida Poison Information Center Network responded to over 197,000 calls for assistance. Approximately 83% of calls involving a poison exposure were handled over the phone, without the need to refer callers to further medical care.

Cost-Effectiveness: When families call the toll free Poison Control Hotline instead of accessing unnecessary emergency care they save approximately \$1,600, the average cost of an ER visit for an injury or poisoning in Florida, according to a 2006 ACHA report. As mentioned earlier, the vast majority of exposures reported to poison centers can be safely and effectively managed over the phone. For families who utilize the educational information provided by the Poison Center to prevent poisonings at home, the potential savings for a hospital admission related to a poisoning averages \$13,000, according to a 2007 report from the Florida Office of Injury Prevention. For patients who do require hospitalization for a poison exposure, there is recent data that indicates that even these patients who engaged the poison center in their care had shorter hospitalizations than those who did not call. All in all, the free potentially
