Mr. KERRY (for himself and Ms. COLLINS) introduced the following bill; which was read twice and referred to the Committee on \_\_\_\_\_

---

**A BILL**

To establish a commission to develop a national strategy and recommendations for reducing fatalities resulting from child abuse and neglect.

1        *Be it enacted by the Senate and House of Representa-*  
2        *tives of the United States of America in Congress assembled,*

3        **SECTION 1. COMMISSION.**

4        This Act may be cited as the “Protect our Kids Act  
5        of 2011”.

6        **SEC. 2. FINDINGS.**

7        Congress finds that—

8                (1) deaths from child abuse and neglect are  
9        preventable;

1           (2) deaths from child abuse and neglect are sig-  
2           nificantly underreported and there is no national  
3           standard for reporting such deaths;

4           (3) according to the National Child Abuse and  
5           Neglect Data System, in fiscal year 2009 approxi-  
6           mately 1,770 children in the United States are re-  
7           ported to have died from child abuse and neglect,  
8           and many experts believe that the actual number  
9           may be significantly more;

10          (4) nearly half of the number of children in the  
11          United States who die from abuse are under the age  
12          of 1, and more than 80 percent are under the age  
13          of 4;

14          (5) in 2009, of deaths from child abuse and ne-  
15          glect—

16                 (A) nearly 36 percent were caused by ne-  
17                 glect;

18                 (B) 23 percent were caused by physical  
19                 abuse; and

20                 (C) more than 36 percent were caused by  
21                 multiple forms of maltreatment;

22          (6) each year approximately 6,000,000 children  
23          in the United States are referred to child protective  
24          services because of allegations of child abuse and ne-  
25          glect; and

1           (7) increased understanding of deaths from  
2 child abuse and neglect can lead to improvement in  
3 agency systems and practices to protect children and  
4 prevent child abuse and neglect.
