PLAN FOR FLORIDA'S RECOVERY

DeSantis said Wednesday that Floridians should not be alarmed when they see a rise in COVID-19 cases in the next few months. He said cases will rise as testing rises, and he predicted the state could see more than 2,000 positive cases per day in the future, a figure the state has not yet seen.

“We are trying to build a foundation for the future of the State of Florida,” DeSantis said. “I’m confident this will be a good roadmap.”
