PLAN FOR FLORIDA'S RECOVERY

MARCH VS. JUNE

TESTING SITES – MARCH VS. JUNE

By the end of March, Florida had **7 state-supported testing sites**, which had tested a total of **20,000 people**.

Today, we have **41 testing sites**, and they've tested more than **438,000 people**.

FLORIDA PPE – MARCH VS. JUNE

FDEM was fighting for critical PPE supplies throughout March. By early April, they had sent first responders and health care workers:

- **2.8 million masks**
- **218,000 face shields**
- **3.9 million gloves**
- **157,000 gowns**

To date, FDEM has sent the following PPE to support health care workers and first responders:

- **More than 40 million masks**
- **More than 12.2 million gloves**
- **More than 1.7 million face shields**
- **More than 2 million gowns**

TREATMENTS – MARCH VS. JUNE

Initial treatment of COVID-19

- Supportive Oxygen Therapy and Early Ventilator Use
January – March 2020
- Hydroxychloroquine – FDA EUA March 2020

COVID-19 Treatment Evolution

- Convalescent Plasma – April 2020
- Remdesivir: FDA EUA – May 2020
- Anticoagulation Therapy – May 2020
- Dexamethasone – June 2020

FLORIDA LONG- TERM CARE FACILITIES

EARLY ACTIONS TO PROTECT LTC RESIDENTS

- **Early March** – Provided long-term care facilities guidance on restricting and screening visitors.
- **March 10** – Sent a visitor screening toolkit developed in conjunction with stakeholder groups.
- **March 11** – Issued Emergency Order requiring comprehensive screenings of both staff and visitors at long-term care facilities — formalized many precautions AHCA already asked residential providers to take.

EARLY ACTIONS TO PROTECT LTC RESIDENTS

(continued)

- **March 15** – Issued Emergency Order restricting visitation at long-term care facilities with narrow exceptions; required COVID-positive residents to receive two negative tests separated by 24 hours before being readmitted to LTC facilities.
- **March 18** – Required staff of long-term care facilities to implement universal use of facial masks while in the facility and wear gloves when providing direct care to a patient or resident.

FL LTC TESTING RULES & COVID-19 ISOLATION CENTERS

- **April 14** – Opened first COVID-dedicated facility in Florida.
- **May 5** – Mandated COVID-19 testing by hospitals of all patients, regardless of symptoms, prior to discharge to long-term care facilities.
- **May 10** – Required mandatory facility access for infection prevention and control; mandated staff submit to testing.
- **June 15** – Required mandatory testing every two weeks of ALL staff in Florida nursing homes and assisted living facilities.

PROACTIVE LTC SUPPORT & TESTING IN FLORIDA

RAPID EMERGENCY SUPPORT TEAMS (REST):

- Deployed to over 620 facilities to assist with infection prevention and control

VETERAN ADMINISTRATION (VA) TEAMS:

- Assisted at 52 long-term care facilities serving more than 6,000 patients

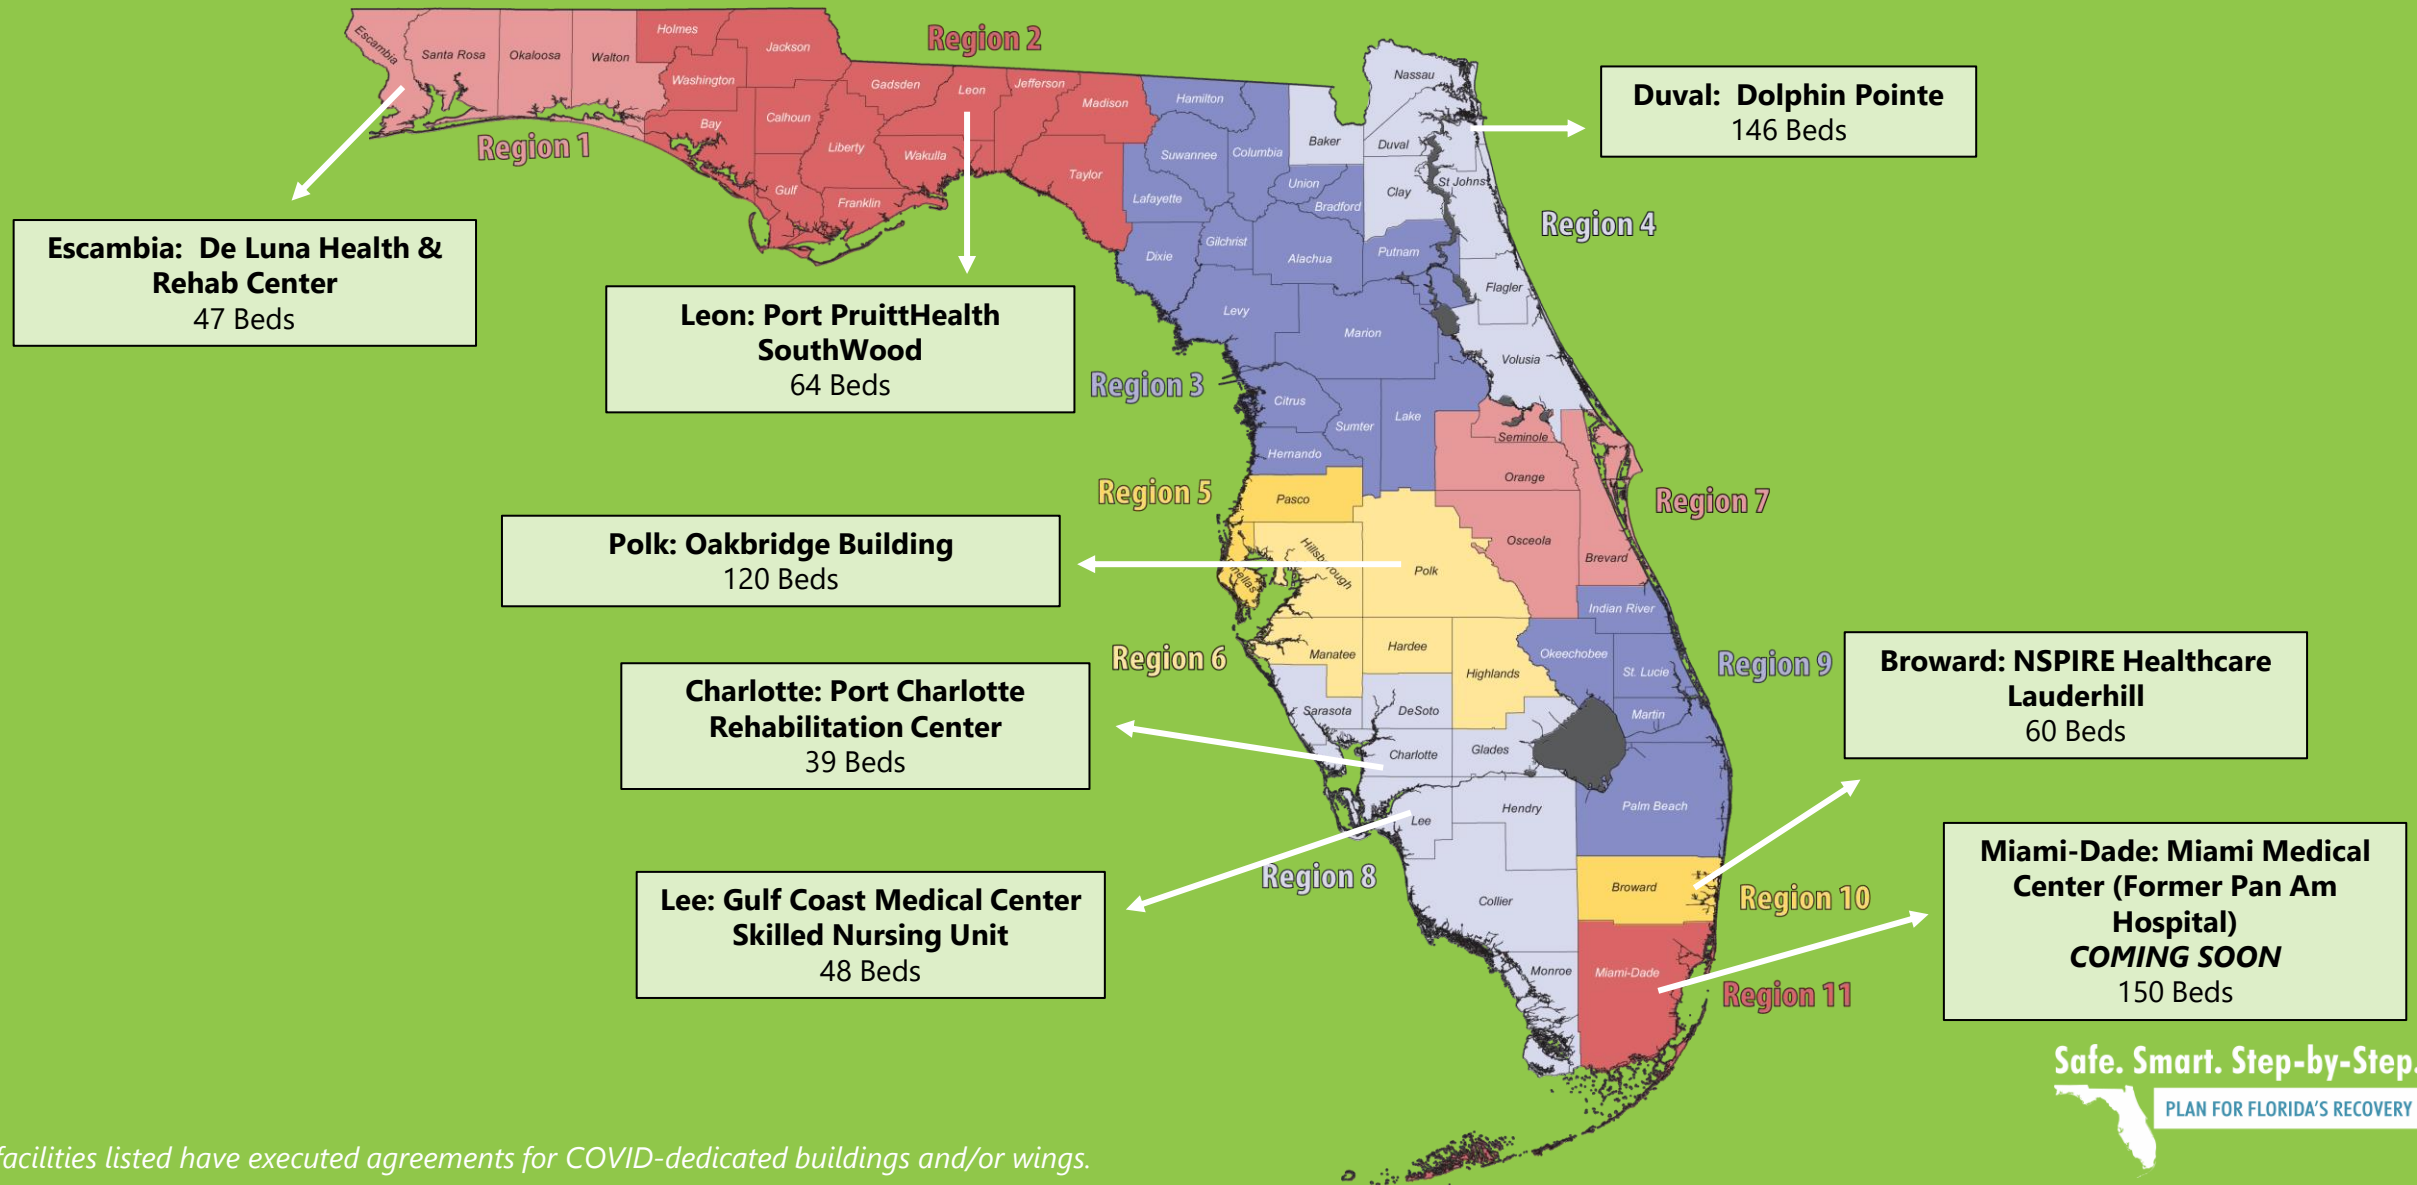

AMBULANCE ASSESSMENT TEAMS:

- Visited over 3,900 facilities to complete initial needs assessments and performed more than 700 reassessments

MOBILE TESTING TEAMS (MMTs):

- Conducted testing in more than 2,680 long-term care facilities
- Tested more than 192,600 long-term care staff & residents

COVID-DEDICATED NURSING FACILITIES IN FLORIDA

The facilities listed have executed agreements for COVID-dedicated buildings and/or wings.

Nearly 80% of Long-Term Care Facilities in Florida Have **NEVER** Had a COVID-19 Positive Resident.

85% of All FL COVID-
19 Related Fatalities
Have Occurred in
Age Group 65+

Avoid the “Three Cs”!

Closed spaces

with poor ventilation

Crowded places

with many people nearby

Close-contact settings

such as close-range conversation

The risk of COVID-19 clusters is particularly high when the “Three Cs” overlap.

In addition to the “Three Cs”:

Wear your mask to protect yourself and those around you.

Clean items used by multiple people with disinfectant.

Wash your hands with soap and water for at least 20 seconds.

Stay home if you are sick or have symptoms!

Safe. Smart. Step-by-Step.
