**EMERGENCY ORDER**

WHEREAS, the Governor of the State of Florida issued Executive Order No. 20-52, declaring a state of emergency in response to the COVID-19 Public Health Emergency; and,

WHEREAS, COVID-19 poses a severe threat to the entire State of Florida and requires that timely precautions are taken to protect the communities and general welfare of this state; and,

WHEREAS, Executive Order 20-52, Section 4, paragraph B authorizes State agencies to “suspend the provisions of any regulatory statute prescribing the conduct of state business or the orders or rules of that agency, if strict compliance with the provisions of any such statute, order, or rule would in any way prevent, hinder, or delay necessary action in coping with the emergency”; and,

WHEREAS, promoting the health and safety of each person connected with our state’s education system is of paramount importance; and,

NOW THEREFORE, I direct that the following actions be taken to promote the health and safety of each person connected with Florida’s education system. I find that in order to respond to the COVID-19 emergency, it is necessary to waive strict adherence to the Florida Education Code to the extent necessary to carry out the directives of this Order.

**Section 1. School District Closures and the Suspension of Related Activities**

Strict compliance with Chapter 1003, Florida Statutes, and any regulations promulgated thereunder, is hereby waived to the extent that such waiver is required to carry out the following directives:

- A. All school districts are recommended to keep their facilities closed except to staff and teachers, per CDC guidance, through April 15, 2020.
- B. In keeping with their district continuity plan, each district must deliver educational services to students while they remain at home. School districts are strongly encouraged to build out and operationalize their instructional continuity plans to deliver educational services through non-classroom based methods. All school districts shall deliver educational services upon returning from their spring break.
- C. Each school district where a Department of Juvenile Justice education program is operated will work with their local program to ensure the implementation of an instructional continuity plan, which may include options for virtual learning, blended learning or in-person direct instruction, while also adhering to the guidance from the CDC regarding group sizes of no more than 10 people.

**Section 2. Florida College System Institutions**

Strict compliance with Chapter 1004, part III, Florida Statutes, and any regulations promulgated thereunder, is hereby waived to the extent that such waiver is required to carry out the following directives:

All Florida College System institutions are strongly recommended to deploy all available resources to operate virtually or through other remote means for the remainder of the 2020 spring

semester. Campuses are recommended to be closed to regular activities, and institutions should adhere to the CDC's guidelines.

**Section 3. Funding and Compensation**

Strict compliance with Chapter 1011, Chapter 1004, parts I, III-IV, and Chapter 1002, parts III-VI, Florida Statutes, and any regulations promulgated thereunder, is hereby waived to the extent that such waiver is required to fully fund all school readiness, voluntary prekindergarten, public K-12, private scholarship programs, career and technical centers and state college programs as though there was no disruption.

**Section 4. Assessments, Accountability and Promotion**

Strict compliance with Chapters 1003 and 1008, and section 1012.34, Florida Statutes, and any regulations promulgated thereunder, is hereby waived to the extent that such waiver is required to carry out the following directives:

**A. Assessments K-12:**

1. All remaining state assessments for K-12 are cancelled for the 2019-2020 school year. School districts and other educational entities are authorized to evaluate students for promotion, graduation and final course grades for the 2019-2020 school year based on guidance from the Department.
2. Students who are in the 2019-2020 high school graduating class are exempt from being required to use assessments to earn a standard high school diploma pursuant to s. 1003.4282, Florida Statutes, and to earn standard high school diploma designations pursuant to s. 1003.4285, Florida Statutes.

**B. Accountability K-12:** Accountability measures reliant on data from statewide, standardized assessments which have been cancelled, including K-12 school grades, school improvement ratings for alternative schools, and value-added model (VAM) scores for educators, will not be calculated for the 2019-2020 school year. Schools in turnaround pursuant to section 1008.33, Florida Statutes, shall continue in their current turnaround status, subject to all other requirements of section 1008.33, Florida Statutes, and Rule 6A-1.099811, Florida Administrative Code.

**Section 5. Private Schools that Accept Scholarship Students**

Strict compliance with Chapter 1002, parts III and IV, Florida Statutes, and any regulations promulgated thereunder, is hereby waived to the extent that such waiver is required to carry out the following:

Stat., is waived through April 15, 2020. During this period, such schools are recommended to keep their facilities closed except to staff and teachers, as per CDC guidance. To the extent possible these schools are directed to provide instruction virtually and by all other available means that do not involve direct instruction to scholarship students. Instruction provided in non-classroom settings, shall count toward “actual school instruction days” for purposes of satisfying the 170 days of required instruction for students participating in scholarship programs.
- B. The requirement for private schools with scholarship students participating in the Florida Tax Credit, Family Empowerment, Hope and Gardner Scholarship programs to administer or cooperate in the administration of K-12 state assessments, and the

requirement that the students participate in a norm-referenced assessment, is waived for the remainder of the 2019-2020 school year. The requirement to report the results of these cancelled or waived assessments to a state university under section 1002.395(8)(b), Florida Statutes, is also necessarily waived.

The Department is directed to provide further detail to school district superintendents on this process.
- B. In order to facilitate the remote connection between teachers and students, K-12 school districts, in coordination with the Department, are further permitted to redirect unspent Title II funds upon transferring funds to Title IV to help low-income students obtain digital devices and establish Internet services. The Department is directed to provide further detail to school district superintendents on this process.
- C. K-12 school districts, in coordination with the Department, are permitted to redirect unspent 2019-2020 funds from the Safe Schools and Mental Health allocations to virtual and telephonic mental health counseling services for students who need emotional support
