LOW RISK VS. HIGH RISK ENVIRONMENTS

LOW RISK

- Outdoors, fresh air, sunlight, heat and humidity

HIGH RISK

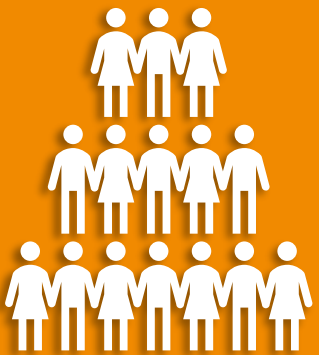

- Enclosed, crowded spaces with poor ventilation
- Virus prefers A/C to fresh air

MARCH VS. JULY

TESTING SITES – MARCH VS. JULY 11TH

By the end of March, Florida had **7 state-supported** testing sites which had tested a total of **20,000** people.

To date, we have **47 testing sites** which have tested more than **704,000** people.

TESTING SITES – MARCH VS. JULY 11TH

- **Drive-Thru Testing Sites**
 - To begin offering **self-swabbing lanes** to expedite COVID-19 results for those who need it most.
- **Walk-Up Testing Sites**
 - Continue to be modified to ensure individuals can wait for their tests in safe and comfortable conditions – including establishing a **text notification service** to prevent waiting in the heat.

TESTING SITES – MARCH VS. JULY 11TH

The state continues to work with the federal government to establish additional testing throughout Florida – including **three temporary federal sites** in Duval County.

The state established free anti-body testing at **five drive-thru sites**:

- Miami (2)
- Jacksonville
- Orlando
- West Palm Beach

FLORIDA PPE – MARCH VS. JULY 11TH

FDEM was fighting for critical PPE supplies throughout March. By early April, they had sent first responders and health care workers:

- **2.8 million masks**
- **218,000 face shields**
- **3.9 million gloves**
- **157,000 gowns**

To date, FDEM has sent the following PPE to support health care workers and first responders:

- **More than 44 million masks**
- **More than 1.9 million face shields**
- **More than 95 thousand goggles**
- **More than 63 thousand coveralls**
- **More than 13.5 million gloves**
- **More than 3.2 million gowns**
- **More than 1.1 million shoe covers**

TREATMENTS – MARCH VS. JULY 11TH
